SATURDAY, NOV. 11, 1899.

TODAY'S contest at Milwaukee between rival teams of half-backs, full-backs and cracker-jacks, will cause quite an exchange of greenbacks, while the sanity of enthusiasts of the game will be questioned by observant mossbacks.

ADMIRAL DEWEY'S saying he would not accept the presidency, even if unanimously elected, reminds one that it isn't a very inviting position as national affairs now stand, while his marriage Thursday reminds us that "all the world loves a well" and a blushing bridegroom as well.

SINCE a "canary" on the Milwaukee street railway has demonstrated that a laborer can support two families on a salary of \$1.50 per day, we presume the company is contemplating a reduction in the wages of its trunk rippers. Meanwhile the fellow "languisheth in durance vile" under Zebulka charge of bigamy.

WITH Ohio Republican by an increased majority and Nebraska Democratic in a like ratio, the result of Tuesday's elections in other states will not affect either Bryan or McKinley's renomination for the presidency. In fact, when viewed from a national standpoint, the late elections have not cleared up the political horizon a particle.

Get in on the Ground Floor.

This applies to two classes of people: Those who are interested for the purpose of investment or speculation and those who for any reason desire to change their business locations.

To any person in either class the new towns located and owned by the Chicago & North-Western Railway Company along its new lines now being constructed, offer the most tempting inducements.

Prices of lots in these towns are still absolutely on the ground floor, and are sure winners either for investors or locators.

The North-Western also owns nearly one-half million acres of splendid timber land, adapted to general farming, which is for sale at very low prices.

ONE VAST GOLD FIELD.

Governor Brady on Alaska—He Says Without Doubt Wonderful New Discoveries Will Be Made On American Soil.

Governor Brady says reports of gold discoveries are coming in from all parts of the territory. He expects to see magnificent fortunes made in Alaska in the next few years. But few know the perils of the Klondike. Fearful cold and exposure make throat, chest and lung troubles common and dangerous. Consumption lurks behind a cough; Pneumonia back of a cold. The agonies of Bronchitis, the pangs of La Grippe, the anguish of Asthma and the distress of Lung Fever are common in this region. Every gold seeker should take with him a medicine that is quick and certain in its cure of these diseases. One has taken the lead in America, because for twenty-five years it has shown a wonderful power over these maladies. This supreme remedy is Dr. King's New Discovery. It's a life-saver wherever used. Thousands of American families would as soon be without flour or sugar in the house as without this medicine. It has cured people of Consumption, Bronchitis, Pneumonia, La Grippe and Hemorrhage whom doctors had told they must die. It stops the most obstinate coughs. It won't let a cold get a start. Read how it saved the life of Calvin Lockwood, of Fowlerville, Mich. He says: "Two years ago I was attacked with a severe cold which brought on the worst form of Bronchitis. So bad was it that I entirely lost my speech. I tried all the best physicians here and at Lansing, but without avail. They all pronounced my case incurable. As a last resort I took Dr. King's New Discovery and greatly to my surprise I began to get better, and after using two bottles I have 'cheated the grave' and am sound and well. It is surely a life-saver."

All druggists sell it at 50c and \$1.00 per bottle, refund the money if it doesn't benefit and give a trial bottle free to any sufferer.

I live in a furnished room building for light housekeeping and see many funny sights. Recently one of the roomers came home just as I had entered the hall, and upon seeing that he was full of joyful juice I severed my self back of the stairway. The hall light was high and I saw him take off his shoes and put them in his hat. Then he buttoned his coat to the top and made a bee line for the stair-railing. Just at this juncture, Mrs. Jagsson appeared and this followed: "Why, John, where have you been and what have you been doing? Give me an explanation." Jagsson—Splanashun's unshesary, dear; demonstrashun's sufficient.—Philadelphia Inquirer.

ASK YOUR DOCTOR!

Ask your physician this question, "What is the one great remedy for consumption?" He will answer, "Cod-liver oil." Nine out of ten will answer the same way.

When persons have consumption they loathe all fatty foods, yet fat is necessary for their recovery and they cannot take plain cod-liver oil. The plain oil disturbs the stomach and takes away the appetite. The disagreeable fishy odor and taste make it almost unendurable. What is to be done? This question was answered when we first made SCOTT'S EMULSION of Cod-Liver Oil with Hypophosphites. Although that was nearly twenty-five years ago, yet it stands alone today the one great remedy for all affections of the throat and lungs.

SCOTT'S EMULSION

The bad taste and odor have been taken away, the oil itself has been partly digested, and the most sensitive stomach objects to it rarely. Not one in ten can take and digest the plain oil. Nine out of ten can take SCOTT'S EMULSION and digest it. That's why it cures so many cases of early consumption. Even in advanced cases it brings comfort and greatly prolongs life.

"LEWIS"

Look for the name on every shoe you buy. For 45 years it has made the best shoes made for men, women and children.

They have been built up and have fallen down. But Lewis shoes have come, and in sales and reputation steadily every year.

Without neglecting beauty and style they have carried the name "Wear Resisters." Made by J. B. LEWIS CO., Boston, Mass.
