SATURDAY, SEPT. 15, 1900.

WITH a dozen different presidential candidates nominated the returns may be said to be in, with the betting favoring Bryan or McKinley against the field.

AN automatic horse-feeder has been used for ten years by a resident of Baltimore, Md., who says: "I set the clock before retiring at night, and exactly at 6 a. m. my horse is fed."

It is said that in every city where a recount of the census has been made, but little if any advance was made. Cincinnati, for instance, was sure the government had done that city a great injustice, but the recount by the police department shows that the government figures were correct.

THE report that some Chicagoans have been stealing water from the city mains may only be a ruse to boom the quality of the stuff. At any rate, with public drinking fountains at the breweries, the Garden City evil complained of is not apt to extend to the metropolis of Wisconsin.

THE general approval of the proposition to give the abused Filipinos independence on the Cuban plan, evidently has had a good effect on the national administration, as McKinley now says "it is our purpose to give the Filipinos self government." However, this announcement is rather rough on the fellows who have been contending that "the mere idea of the Philippines governing themselves is ridiculous."

GALVESTON, the 3x30-mile Texas island situated two miles out in the Gulf of Mexico, has met the expected in being swamped by a storm from the ocean. The loss of life is great, while so many survivors have been bereft of food and shelter that national aid is solicited for them. However Galveston is inhabited by some of the most energetic capitalists in the South, who likely still have so much confidence in the future of the place that it will soon resume operations as the greatest seaport on the coast of Texas.

THE "corset bill," which was introduced at the last regular session of the Wisconsin legislature, evidently did not give Mr. Duggett the palm for freak legislation, as a deliver in such matters has discovered that only a few years ago the legislature of Missouri seriously debated a bill proposing to fine widows and maidens from \$100 to \$500 for refusing to marry. At about the same time one branch of the New Jersey legislature passed a bill taxing bachelors. A bill introduced by a Kentucky lawmaker read: "It shall be unlawful for any person to fire or discharge at random any deadly weapon, whether said weapon be loaded or unloaded."

A Tennessee senator seriously proposed to "forbid any person to linger or loiter on any street, alley road or lane in the vicinity of any young ladies' boarding school." Queer as are these instances, they are fairly on a par with the famous bill of a Tammany man in the New York legislature, which made it a penal offense to put less than thirteen oysters in a stew.

THE crowd at the Democratic picnic in Milwaukee last Saturday was quite large, considering that it was a local affair, with no special rates on the railroads, while an admission fee of 25c was charged. True, the amount of enthusiasm was not remarkable, but the Republicans of the Cream city were similarly disappointed in '96, though the people there polled a heavy vote for McKinley. In fact the practice of clubbing or hoarding voters into line by means of ward organizations appears to be growing in disfavor with those of the American people who are sufficiently intelligent and independent to read and think for themselves. For instance, the orations at the park aroused greater enthusiasm and had a more lasting effect upon the average voter than all the rest of the doings combined. Then there are those who believe political clubs tend to openly array neighbor against neighbor in a battle which can be settled with such noiseless weapons as ballots.

The progressive nations of the world are the great food consuming nations. Good food well digested gives strength. If you cannot digest all you eat, you need Kodol Dyspepsia Cure. It digests what you eat. You need not diet your self. It contains all of the digestants combined with the best known tonics and reconstructives. It will even digest all classes of foods in a bottle. No other preparation will do this. It instantly relieves and quickly cures all stomach troubles. All druggists.

"What are the wild waves saying?" murmured the woman, as she stood on the silver lining of the mighty man. "Nothing, Maria!" hoarsely replied the man; "they are like some people we know; they make a great deal of noise but don't say anything."—Tit-Bits.

For an invigorating and strengthening beverage try Litchia beer. It is especially recommended to weak and invalid people. The ingredients used in making it are wholesome, while the taste and flavor is delicious. It is put up in pint and quart bottles. Order of any local dealer or the West Bend Brewing company.

The latter four returned to their respective homes in Iowa last Tuesday, accompanied by Chas. Benson.

**The Tattooed Crucifix.** For the first time since we had been on the march, the Filipino lieutenant separated his camp from ours. He also doubled his guard, stationing his soldiers in the rocks which surrounded us. Thinking all this somewhat peculiar, I sent one of the men to ask if he had placed the guards for our protection.

"No," was his laconic answer. Soon afterward he came to our camp and through an interpreter, calmly informed me that he had orders to execute us in the mountains.

I have always believed that the lieutenant's refusal to obey orders and execute us was due to the effect produced in his mind by an incident which occurred a night or two earlier. At one of our stops he had shown me a crucifix suspended by a ribbon worn around his neck, and he said: "The Americans are not Christians." "Oh, yes," I replied. "All the Americans are Christians."

"But you never wear crucifixes." I opened my jacket and showed him a crucifix which had been tattooed on my breast years before, when I was a midshipman. The Tagal leaped to his feet, with an exclamation of surprise, and instantly crossed himself. His eyes nearly started out of his head as I explained to him that any one could buy a crucifix and hang it around his neck, but that I had endured pain to have my crucifix pricked into the flesh so that it might always be with me. There was a marked change in his manner toward me after that.—Lieut. Gillmore in McClure's Magazine.

Poisonous toadstools that resemble mushrooms have caused frequent deaths this year. Be sure to use only the genuine. Observe the same care when you ask for DeWitt's Witch Hazel Salve. Large sun spots, astronomers say, caused the extreme heat this summer, and doctors declare nearly all the prostrations were induced by disorders of the stomach. Good health follows good digestion. **Bryan and His Cabinet.** Interview with Col. Bryan in Baltimore Sun. "One of the objections frequently urged against you, Mr. Bryan is that you will surround yourself with a cabinet of Populists or unsafe people."

"I know that," he replied. "A man who does not wish to vote the Democratic ticket constructs a cabinet for me and puts in the men whom he dislikes most. Mr. Tillman and Mr. Albiged are favorites in this line. But those who intend to vote for Mr. Debs assume that I will select a cabinet of Gold Democrats. It is safe to assume one thing. If I am elected I will be elected for four years and no more, and I will select such a cabinet as will make my administration a success. The cabinet will not be selected with any view to a re-nomination or re-election. I stated four years ago that I would not ask for a re-election. At the proper time I will make that announcement again."

**Scott's Emulsion** OF COD-LIVER OIL WITH HYPOPHOSPHITES should always be kept in the house for the following reasons:

**FIRST**—Because, if any member of the family has a hard cold, it will cure it.

**SECOND**—Because, if the children are delicate and sickly, it will make them strong and well.

**THIRD**—Because, if the father or mother is losing flesh and becoming thin and emaciated, it will build them up and give them flesh and strength.

**FOURTH**—Because it is the standard remedy in all throat and lung affections.

No household should be without it. It can be taken on summer as well as in winter.

**A WONDERFUL CURE OF DIARRHOEA.**

**A PROMINENT VIRGINIA EDITOR** Had Almost Given Up, but Was Brought Back to Perfect Health by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

From the Times, Hillsdale, Va. I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but, noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy and also some testimonials stating how some wonderful cures had been wrought by this remedy, decided to try it. After taking a few doses I was entirely well of that trouble, and I wish to say further to my readers and fellow sufferers that I am a hale and hearty man today and feel as well as I ever did in my life.—O. R. MOORE. Sold by L. Rosenheimer.

The best and most useful devices are not infrequently diverted to alien, trivial or improper uses. This, in a way, has happened to the harmless phonograph, which in proper employment amuses people. An English inventor has turned it to something frightful and monstrous. By the help of a long trumpet, a sort of whistle and a silver cylinder, the phonograph has been converted into a shrieking demon, whose voice can be heard twelve miles away, in a large, open hall, which resembles a hundred steam whistles put into one, and endowed with the gift of speech. There is one use this diabolical contrivance can be suitably put to, and that is to warn ships as to the proximity of shoals, but applied to any sort of communication with people, it would be destructive of human nerves and an abomination.—X.

**WISE AND OTHERWISE.** Close-fisted persons can be classed together, but the generous man stands a lone.—X.

A hat manufacturer claims for himself the title of Universal sympathizer, because he has felt for everyone.—X.

"So the elopement on the automobile was nipped in the bud?" "Yes; the old man hid the gasoline can."—X.

"What is the matter with Chappie, anyhow; he complains of such awful headaches?" "I dunno; maybe he's just cutting his brains."—X.

Tompkins—That's a handsome umbrella you have there. Gibbs—Yes, it is. T.—About what does it cost to carry an umbrella like that? G.—Eternal vigilance.—X.

"Yes, sir," said Gallagher, "it was enough to make a donkey laugh. I was sitting in a chair, and then a smile went around the room until he left in anger.—X.

Haughty Lady (who has purchased a stamp)—Must I put it on myself? Postoffice Assistant (very politely)—Not necessarily, ma'am; it probably will accomplish more if you put it on the letter.—X.

Upon falling into a dish of cream, a mouse lately showed great presence of mind by swimming round so rapidly and repeatedly that it soon worked up enough butter to get out on. This happened in Chicago.—X.

An ex-justice of the peace tells the following story. During the time he was in office a young man was brought up before him on the charge of gambling. The evidence was conclusive, and the judge imposed a fine, which was paid on the spot. When the court adjourned the defendant remained behind and asked the judge for a few moments' conversation. "The case is over," he began, "the fine has been paid, and it's settled so far as that goes; but I want to tell you how it happened. You see, the cop told us if we didn't stop he'd raise us in. Well, we were playing a jackpot. I had an ace, three queens and a king before the draw. I discarded the ace and king and drew another queen. There were good hands out against me, and they tried to bluff me out, but I stayed with them. Now, what I want to know is what you'd have done in such a case?" "Stayed with them if the galloos had been in sight!" cried the excited judge. "Why in the name of common sense was not that evidence brought out at the trial?"—Salt Lake Tribune.

**A Word to Mothers.** Mothers of children affected with croup or a severe cold need not hesitate to administer Chamberlain's Cough Remedy. It contains no opium, nor any other dangerous drug, and may be given as confidently to the babe as to an adult. The great success that has attended its use in the treatment of colds and croup has won for it the approval and praise it has received throughout the United States and in many foreign lands. For sale by L. Rosenheimer.

**Broken Bric-a-Bracs.** Mr. Major, the famous cement man of New York, explains some very interesting facts about his cement.

The multitudes who use this standard article know that it is many hundred per cent. better than other cements for which similar claims are made, but a great many do not know why. The simple reason is that Mr. Major uses the best materials ever discovered and other manufacturers do not use them, because they are too expensive and do not show large profits. Mr. Major's cement costs \$2 1/2 a barrel, and another costs \$3.50 a barrel, while a large share of the so-called cements and liquid glue upon the market are nothing more than glue dissolved in water or other fluid, and in some cases, altered slightly in color and odor by the addition of cheap and useless materials.

Major's cement retails at 10c and 25c a barrel, and when a dealer tries to sell a substitute you can depend upon it that his only object is to make a larger profit.

The profit on Major's cement is as much as any dealer ought to make on any cement. And this is doubly true in view of the fact that each dealer gets his share of the benefit of Mr. Major's advertising, which now amounts to over \$50,000 a month, throughout the country. Established in 1858.

Insist on having Major's. Don't accept any off-hand advice from a druggist. If you are all hands (and you will be likely to find that you are a good deal more so than you imagine) you can repair your rubber and leather articles with Major's Leather Cement. And you will be surprised at how many dollars a year you will thus save.
