After you have fallen into a pit you begin to hear from your friends of the many paths you might have taken that would have led you safely round it.

Persons who suffer from indigestion can not expect to live long, because they cannot eat the food required to nourish the body and the products of the undigested food they do eat poison the blood. It is important to cure indigestion as soon as possible, and the best method of doing this is to use the preparation known as Kodol Dyspepsia Cure. It digests what you eat and restores all the digestive organs to perfect health. All druggists.

SEIZED BY AN OSTOPIUS.

Terrible Battle of a Diver With a Monster Devil Fish.

Not long ago a Malay diver off the coast of New Guinea was drawn down by his boat by an enormous devil-fish, but was rescued, half dead, after a fight with it. The monster was a large shark, and was the most loathsome monster of the deep, but has its counterpart in Catarrh, which seems to clutch with unerring arms at the throat, stomach, lungs and bowels, and when it's grip is secure it drags its victim down to death. It was slowly and surely destroying Robert S. Evans of Beverly, N. J., until he was rescued by Dr. King's New Discovery for Consumption. He writes: "I was a great sufferer for a long time from Catarrh of the head and stomach. I would almost choke at night with mucous matter falling into my throat. My bowels were badly constipated and my kidneys very much affected. Sometimes I was not able to stand on my feet. When I had paid nearly all my money to the best doctors I was no better than at first. At last I was advised to try Dr. King's New Discovery and New Life Pills; one bottle of the Discovery and one half box of the Pills wholly cured me. I would not be without these grand medicines at any cost." The cleansing, soothing, healing virtues of this glorious remedy are felt at once on inflamed and diseased mucous membranes. It's the grandest Throat and Lung cure in the world. Price 50c and \$1.00. At all druggists. A trial bottle free. Every bottle guaranteed.

Help... Nature

Babies and children need proper food, rarely ever medicine. If they do not thrive on their food something is wrong. They need a little help to get their digestive machinery working properly.

SCOTT'S EMULSION OF COD LIVER OIL WITH HYPOPHOSPHITES OF LIME & SODA

will generally correct this difficulty. If you will put from one-fourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.

Broken Bric-a-Bracs. Mr. Major, the famous comest of New Major's Comest. The multitudes who use this standard article know it is many times better than other comests for which similar claims are made, but a great many do not know why. The simple reason is that Mr. Major uses the best materials ever discovered and other manufacturers do not use them, because they are too expensive. Mr. Major's Comest is made of the finest materials and is sold in a bottle and a half, while a large share of the so-called comests and liquid food upon the market are made of inferior materials, and are sold in a bottle and a half, and in some cases, altered slightly in color and odor to the addition of cheap and useless materials.

—Nic Remmel now has the county right for the new fire extinguisher known as the "Blaze Killer." It is a dry powder put up in tubes. Several exhibitions given while the agent was here last week, proved that this extinguisher will do all that is claimed for it.

—The committee appointed at the last meeting of the village board, to investigate the matter of securing better protection against fire, has arranged for connecting with the water supply at the malthouse. Providing the test proves satisfactory, the L. Rosenheimer Malt and Grain Company agrees to furnish a 60-pound pressure to as much as 800 feet of hose for \$10 per year—the village to pay for making 3-inch connections, which job has been let at a contract price of \$22.

—If successfully carried out this plan will afford a good fire protection for quite a portion of the village, and one which should be extended in pipe lines to all streets. The pump used at the malthouse is of the Burnham pattern, has a capacity of 12,930 gallons per hour, and draws its water supply from two artesian wells, one of which is 1,000 feet deep. The connections are now being made and when completed a thorough test will be had.

A YOUTH ASTRAY.

A young lad about 10 years old, giving his name as Jos. Yankowsky, arrived here shortly before 6 p. m. last Wednesday, with a horse and buggy, which he claimed to have driven from his home near Pt. Washington. Upon arriving here he tied his horse to the hitching post in front of H. J. Lay's store, and then hung around the depot until the arrival of the 5:45 south-bound train, which he tried to board but was prevented from doing when the conductor learned that he had no ticket or money.

The lad then returned to his rig, which he drove as far as Fred Bunkelman's place on Fond du Lac avenue, where he asked to stay overnight. Mr. B. consented but said that he had no place for the horse, whereupon the boy replied that the animal could stay outside. Both then went across the street to see Mr. Stagy about the matter, and the latter kept stranger and his steed overnight.

The youngster appears to be a bright fellow, speaking both English and German quite fluently, but when questioned as to the exact location of his home and time of departure therefrom, he fails to tell, though closely cross-questioned. However, he says that he dined at home last Wednesday noon, and that soon after his father hitched up the horse and sent him to the store to buy a pair of mittens for himself; that he lost his way and finally arrived here. He does not know what direction he came from, nor can he give the name of any neighbor to his folks or other information to definitely locate his home. He says his folks come from Russia and located at Sheboygan, where his father worked in a chair factory, and that not long ago they moved onto a farm near Port Washington.

The horse which the lad has is a fine beast, about 3 years old, but appears to have been over-driven.

The sheriff of Ozaukee county arrived yesterday, accompanied by Sheriff Schoenbeck of West Bend, and identified the rig as one which the boy's father hired of a Pt. Washington liveryman last Wednesday. The balance of the affair is still somewhat hrouded in mystery, however, as when the sheriff called at the place indicated by the boy's story, he found nobody home but a girl about 13 years old and a boy younger than the one who was here, and neither of them could give the officer the information which he desired.

The sheriff left for Port Washington yesterday, with rig and boy. Pepsin preparations often fail to relieve indigestion because they can digest only albuminous foods. Rosenheimer Malt & Grain Co. relative to arranging for firemen to connect their hose with the malthouse pump in case of a conflagration, and that the committee take action in case they can make satisfactory arrangements for such connection. The chairman appointed Mertes, Schaefer and Wright as such committee. On motion the board adjourned. JOSEPH SCHMIDT, Clerk.

Mr. Garber and wife, who visited Mr. and Mrs. Roessler for two weeks, returned to their home in Illinois last Tuesday. Mrs. L. C. Kohler came down from Oshkosh last Tuesday and returned there Wednesday accompanied by her daughter Flora. Messrs. John and Frank Bonosho came home from Waubesa last Wednesday to attend the funeral of their uncle Adam Emmer. Philip Guenther spent Monday at Fond du Lac and engaged Prof. Hall's orchestra to play at his 6th annual mask ball on Feb. 5th. The sad news of the death of Adam Emmer, who died suddenly at his home in St. Kilian last Tuesday, was received with great sorrow by his relatives and many friends here. The roller skate at Guenther's hall last Sunday was well enough attended to be continued, but owing to the racket and damage to the floor Mr. Guenther has decided to discontinue the skating. Michael Farrel and family were called to Chicago by telegram on the 3d inst., owing to the fatal illness of Mrs. Farrel's mother, who died the next day. Mr. Farrel returned here Tuesday, while his family remained there. Sad news arrived from Bowdle, S. D., last Wednesday, announcing the death of Fred Scheid, son of Mr. and Mrs. Wm. Scheid, Sr. The remains will be interred today (Sat.) at Herbert, the home of his wife. Deceased was 45 years of age and resided here until ten years ago, when he went to South Dakota. His death did not come unexpected, as he had been sick for a year with Bright's disease. He leaves, besides his wife and son Milo (who lives here), 5 brothers and 2 sisters—Byron, Wm., Jr., Geo., Mary (Mrs. M. Schneider), Lydia (Mrs. Martin Boeckler) of this place, John of Herbert, Wis., and Frank of Bowdle, S. D.
