OBITUARY.

Last Tuesday noon the village was shocked by the death of one of its oldest and most highly respected citizens, Frederick Buslaff. Deceased had suffered with asthma for a number of years, but up to last Sunday had seemed as well as usual. He had been so subject to weak spells that his family hardly expected his death so soon.

He was a kind husband and loving father, and although he met many reverses in life he never seemed ill-natured or discontented, as he always looked forward to the happier life beyond.

He was born in Selcho, Prussia, just 69 years ago. At the age of 16 he came to this country, and worked as a farm-hand in Dodge county until some time later, when he became a miller. In 1858 he married Miss Caroline Rahling, in the town of Empire, where they resided for some time and then moved to Boltonville, from whence they moved here. Seven children were born to them, one of whom (William) preceded Mr. Buslaff in death. His wife and the following children survive, viz: Louis, who resides half a mile south of here, Hattie and Dora of Fond du Lac, Alvin of Eden, Fred and Carrie at home.

The funeral was held Thursday at 1 p. m., from the Lutheran church, with Rev. Brewer officiating and interment in the Ashford Union cemetery. The large concourse of people in attendance showed the high esteem in which the deceased was held.

Recent experiments show that all classes of foods may be completely digested by a preparation called Kodol Dyspepsia Cure, which absolutely digests what you eat. As it is the only combination of all the natural digestants ever devised, the demand for it has become enormous. It has never failed to cure the very worst cases of indigestion, and it always gives instant relief. All druggists.

**World's Greatest Givers.**

Americans Note The World Over For Their Boundless Liberality.

The large hearted generosity of Americans to the suffering sick, under all the world. When a Rockefeller gives millions to a University, when a Carnegie gives millions to found libraries, they simply illustrate a liberality which is the glory of American character. Among the greatest givers in the world, is an American institution, whose gifts are like those of the sun—continuous and for the good of all mankind. This company gives millions of trial bottles of Dr. King's New Discovery for Consumption every year. At their great laboratory of H. E. Bucklen & Co. in Chicago a large force of women are employed the year round in filling these trial bottles for sufferers. Such extravagant liberality would bankrupt the wealthiest concern, if it were not for the towering merit of this glorious cure; but a trial so powerfully convinces a sufferer from any throat, chest or lung trouble of its priceless worth, that he at once buys a large bottle to complete his cure, and becomes a friend of this marvelous medicine for life. It is positively guaranteed to cure Croup, Whooping Cough, Asthma, Hay Fever, Croup, Whooping Cough and all bronchial troubles, while such results as the world never before witnessed are effected in Croup, La Grippe, Pneumonia, Hemorrhage and Pleurisy. It has conquered these desperate maladies when doctors and all other medicines failed. Price 50c and \$1.00. Money back, if not cured. Nothing fairer. At all druggists.

Reduced Rates to Madison, Wis., and Return, Via the North-Western Line. Tickets will be sold on account of Agricultural Fair Meeting, to be held Feb. 4 to 9. For dates of sale, etc., apply to agents Chicago & North-Western R'y.

Gov. Allen of Porto Rico says sugar and tobacco crops there are the largest that have ever been grown, and the planters are afraid the factories will be unable to handle them. **Pity and Beauty**

The most beautiful thing in the world is the baby, all dimples and joy. The most pitiful thing is that same baby, thin and in pain. And the mother does not know that a little fat makes all the difference.

Dimples and joy have gone and left hollows and fear; the fat, that was comfort and color and curve—all but pity and love—is gone.

The little one gets no fat from her food. There is something wrong; it's either her food or food-mill. She has had no fat for weeks; is living on what she had stored in that plump little body of hers; and that's gone. She is starving for fat; it is death, be quick!

Scott's Emulsion of Cod Liver Oil is the fat she can take; it will save her.

The genuine has this picture on it. If you have not tried it, send for a sample. Its agreeable taste will surprise you.

—The bar of Fond du Lac county has appointed a committee to go to Madison and work for a bill creating the Eighteenth judicial circuit to include the counties of Fond du Lac, Washington and Ozaukee. Rosenheimer's Store Burglarized. Last Thursday night the store of L. Rosenheimer was entered and a lot of clothing, furnishing goods, etc., stolen. The thieves entered through a rear window of the office and succeeded in escaping with all of their plunder. The firm cannot exactly tell how much was taken, as upon opening the store the next morning they found their entire stock turned over. However, they know that an overcoat and two suits of clothes were stolen, also a lot of handkerchiefs, rubbers and razors.

A couple of tramps, who loafed about here Thursday afternoon, are suspected of having committed the burglary, and consequently telephone messages were sent to all neighboring towns yesterday morning with a view of effecting their capture, which would seem easy in view of the fact that they left their old clothes in the store and evidently are wearing the stolen suits.

Fatally Hanged on Wind-Mill at Ashford. Thursday last Barthol Hall was accidentally hanged to death on the shaft of a wind-mill on his father's farm in the town of Ashford. He had mounted a ladder to oil the mill, when the high wind suddenly blew the ends of his scarf into the moving gearing, which dragged him off the ladder and left him hanging 25 feet above the earth.

The boy's father, Wm. Hall, was near by and tried to rescue the victim, but the gearing soon drew the scarf in until the lad came in contact with the cog-wheels, where he choked to death before the clogging stopped the machine.

The boy, who was 17 years of age, had previously been warned against ever wearing a scarf about his neck when oiling the mill.

The funeral was held last Tuesday at 10 a. m., with services in the Reformed church at Wayne and interment in the adjoining cemetery. Rev. Lienkemper officiated in the obsequies, and the attendance was the largest ever witnessed at the aforesaid place on a like occasion.

The death of Geo. Abel removes one of the most popular young men of this vicinity. He was a model young man and the friend of all who knew him. He clerked in A. G. Koch's general store here for 2 1/2 years, during which time he not only proved to be a trustworthy and faithful servant but made some very intimate acquaintances, whose respect and esteem he held ever afterward. He left the employ of Mr. Koch about two years ago to engage as a traveling salesman for one of the leading shoe houses at Milwaukee, in which position he served with bright prospects for success until 18 months ago, when he was taken sick with primary sarcoma and thus compelled to give up his position. His parents did all they could for him and enlisted the help of the best medical aid obtainable, but without avail.

Geo. Abel was born at Wayne on Jan. 17, 1873, and therefore had reached the age of 28 years and 8 days at the time of his death. He carried a life insurance policy of \$1,500. He leaves, besides his parents, a brother and two sisters to mourn his early demise. The bereaved relatives have our sympathy.

Resolution of Condolence. WHEREAS, In his infinite wisdom our Heavenly Father has seen fit to take from our midst our esteemed and beloved friend and companion, George Abel; and

WHEREAS, In the demise of the departed the young people of the village of Kewaskum have lost a trusting and faithful associate, his parents a loving and dutiful son, and his friends a valuable companion; therefore, be it

Resolved, That the young people of the village of Kewaskum and vicinity, while bowing in obedience to the will of the Almighty, deeply deplore the demise of their beloved friend and associate; and be it further

Resolved, That their sympathy be extended to the parents and relatives of the deceased; also

Resolved, That a copy of these resolutions be published in the KEWASKUM STATESMAN, and another sent to the parents of the deceased.

Ins. in force Dec. 31, '99, No. 267, \$851,900.13; Written during 1900, No. 625, 715,519.82; Total, 1,567,419.95; Expirations and cancellations during 1900, No. 516, 594,167.13; Bal. in force Dec. 31, 1900, No. 884, 963,252.82; Losses paid since organization, \$2,302.12; Total, \$2,302.12; Average amt of insurance in force per policy, 1,085.22; Policies issued since organization, No. 287, \$372,500.84.

The Company has done business only five and one-fourth years, and has during that time received in premiums \$2,982.19 from its members for insurance, which would have cost them \$50,977.33 in stock companies, thus saving to its members \$29,995.14, which they would have been obliged to pay for their insurance in stock companies at full rates. The net reserve fund now on hand, \$2,908.00, added to the amount saved the members in premiums, \$29,995.14, makes a total saving to the members of this company of \$32,903.14 during the comparatively short time of five and one-fourth years, besides paying out for losses to its members \$2,302.12. We desire to especially call the attention of our members to the fact that since the organization of the mutual insurance companies the old stock company rates have been reduced fully 25 per cent. Truly, this is a remarkable showing, and it proves that MUTUAL INSURANCE is a benefit to the people. The rates of our company are one-half of the stock company rates, and the Company insures only village and city property.

H. A. WACKS, Secretary.

Mosaic Work by Peter Glass.

The late Peter Glass, who died at his home in the town of Scott, Sheboygan county, on the 25th inst., undoubtedly was the greatest of mechanics in his line. His many products of inlaid work in the shape of tables, some of which took him a year to complete, gave him a worldwide reputation, as evidenced by numerous comments clipped from eastern newspapers and preserved by Mr. Glass.

In 1855-6 he exhibited some of his work at various cities in the east, where they created much interest, crowds of people paying for admission and pronouncing the exhibits as the finest specimens of mosaic art. During the same time Mr. Glass exhibited his work at the Mechanics' Exhibition in Boston, where he received a premium medal and diploma. He also sold several pieces of his inlaid work there, and received as high as \$2,000 for a single specimen.

While living at Barton he made a table and desk for the express purpose of presenting them to President Lincoln, but the latter's assassination thwarted the original intention, so the articles were sent to the Lincoln family, from whom Mr. G. received the following letter in acknowledgment: CHICAGO, July 27, 1865.

My Dear Sir:—I had the pleasure of receiving your letter this morning. I desire to return to you my mother's and my own sincere thanks for the beautiful presents. The tables are splendid specimens of skill and patience, and will be highly valued by us, not only for their own beauty but as evidence of the love which my father inspired, even in one who did not know him personally. Very sincerely yours, ROBERT T. LINCOLN.

This table presented is composed of 20,000 pieces of wood—holly, ebony and blackwalnut, the latter having been taken from some of the rails split by Abraham Lincoln. The holly is stained in 21 shades exquisitely wrought into birds, flowers and portraits. There are 17 different kinds of birds, beautiful wreaths, roses, etc. There is a portrait of Mr. Lincoln on one section, while that of President Johnson appears on the opposite also portraits of Lieut.-General Grant and Gen. Butler on sections opposite each other. Over each portrait, and supporting it, is an eagle, with the shield and olive branch. It took nine months to make the table and two months to make the desk, both of which are now among the Lincoln relics in the Smithsonian institute at Washington.

Mr. Glass did not follow up the work after he moved upon the farm in Scott, though at leisure times he made some specimens which his family treasure with great care.

CHAPTER VII. WERE WATTIE AN EMISON. As Mrs. McQuhir rested from the labor of carrying the pails of water to the farm from the well, she looked with a certain luxuriant complacency at the boy who had a curly head hilariously under a white apron, and was engaged in roving hand through the sacred recesses of the roomy housewife's "pooch."

CHAPTER VIII. THE BOY WHO WAS TAKEN FOR A GIRL. The boy was taking a walk round her house as if he were a circus tent. He stopped abruptly in his stride, and he uttered an exclamation across his face, and he said, succinctly: "She's risin'!"

STATE INSTITUTIONS. Gov. La Follette Receives the Report of the Legislative Visiting Committee.

Madison, Wis., Jan. 31.—[Special.]—The report of the legislative visiting committee, consisting of Senators McGinnis, Judge Orth and Mr. Johnson, submitted to the Legislature by Gov. La Follette this morning will be interesting to all who know what the state is doing for its defective classes. The report bears witness by its commendable recommendations for the improvement of the state institutions and the institution as follows:

The health and sanitary conditions of the institutions are good, notwithstanding the unwholesome conditions of the patients in the hospitals and the home for the feeble-minded. This condition is caused by the unwholesome and faithful labor on the part of the officers and attendants. There is a class of the inmates who are very troublesome and annoying. This is the criminal, vicious and noisy class of patients who are sent to the hospital from the state prison at Waupun. The hospitals are not made strong enough for inmates of this kind, besides they are dangerous in the same building with other patients.

Home for Feeble-Minded Inadequate. The committee has recommended the construction of a new building for the feeble-minded.
