THE LOCAL STOCK FARM.

The Beechwood Valley herd of Holstein-Friesian cattle was established in 1884 by buying imported stock of which one cow is still in the herd. In the line of bulls for service there are Job Clothilde No. 21320 and Carame 5th Henry Mechtild No. 25405. On March 1, 1893, we commenced separating our milk with a No. 2 De La Val separator. Not once in 8 years have we failed to separate twice a day, as fast as we milk, and before cold the skim is fed to calves and hogs. The first year our cream was received at the Kewaskum creamery, but since then the Beechwood institution has been getting it. During 8 years our herd (young and old) has averaged from 316 to 342 lbs. of butter per head, besides the calves get new milk from 3 to 4 weeks. The average number of cows milked for 8 years is 17; total lbs. of butter obtained in that time, 44,085; or an average of 824 lbs. per cow, young and old. During the last year we sold 17 females (young and old) and 8 males, throughout Wisconsin and as far as Arkansas. We still have a few yearlings for sale. PETER HAYDEN.

A gentleman who has returned from the Texas oil field says there is no room in any of the hotels, owing to the number who have been attracted there. The great deal of money has already been spent in developing the field, he believes that only the beginning of the possibilities has been reached. The whole county of Jefferson must have a vast lake of oil beneath it. The product is not an illuminant, but a first-class lubricant, while as fuel it is such in quality and quantity that inside of a year all the locomotives in that part of the Lone Star state may be using it instead of coal.

A well dressed Auburn-haired young man lolling in front of a Broadway hotel was tapped on the shoulder by an Englishman, who said: "Pardon me, me man but could I trouble you for a match?" After lighting his cigar he continued: "Bah, Jove, this is a remarkable city. This is my first visit to New York, d'ye know? I'm a duced stranger in America, but on the other side I'm known as Sir Francis Duff, Knight of the Garter, Knight of the Bath, Knight of the Double Eagle, Knight of the Golden Fleece, and Knight of the Iron Cross. D'ye mind telling me your name, my dear man?" He of the Auburn hair replied in a deep, rich brogue: "Me name is Michael Murphy, but before last, night before that, last night, tonight and every damn night—Michael Murphy."—New York Evening Sun.

Some of the richest and most staggering remarks addressed to a minister are those spoken with good intention, as when a somewhat consequential Methodist preacher said to an old lady: "I am not one of the regular ministers but a 'supernumary,' the meaning of which I presume you understand," she replied: "Oh, yes; it means one more than's wanted."—Chambers' Journal.

A MOUNTAIN TRAGEDY.

Frightful Avalanche, Started By a Shout, Buries a Family.

On a western mountain snow had fallen to a great depth when James Perchard stopped on the way to his mine at the cabin of some acquaintances. After leaving them he crossed a canyon and, seeing his friends in the distant doorway, he loudly shouted "good bye." Then there was a noise like the boom of a cannon, and an awful avalanche buried the house and family under 50 feet of snow. His shout had started the terrible snow slide that killed his friends. He had done the wrong thing at a critical time and death followed. It is of vast importance that the right thing be done when lives hang in the balance. When a dangerous disease of chest, throat or lungs threatens the life it is a critical time, but a time, also, when the overwhelming merit of Dr. King's New Discovery for Consumption shines like the sun. You couldn't make a mistake in a lifetime by using this glorious cure for Coughs, Colds, Bronchitis, Asthma, Hay Fever, Croup, and Whooping Cough and in countless cases of La Grippe, Consumption, Pleurisy, Hemorrhage and Tuberculosis. It has proved an invincible life-saver. Mr. Jesse Page, of Sherodsville, O., proved its great worth for Coughs, Colds, Bronchitis, Asthma, Hay Fever, Croup, and Whooping Cough. My daughter of a severe lung trouble we gave her two bottles of Dr. King's New Discovery, which completely cured her. All druggists sell this marvelous medicine at 50c and \$1.00 per bottle, refund money if no benefit and give free trial bottles to sufferers.

Cincinnati has an organization of capitalists called The Tropical Company. It has large land holdings in Honduras, on which the cultivation of bananas is conducted on an extensive scale. A member of the company says the republic of Honduras is the largest producer of bananas in the world. He also says the banana has become a staple article of food and is being made into flour of an extra high grade. Rheumatism.
Nobody knows all about it; and nothing, now known, will always cure it.

Doctors try Scott's Emulsion of Cod Liver Oil, when they think it is caused by imperfect digestion of food. You can do the same.

It may or may not be caused by the failure of stomach and bowels to do their work. If it is, you will cure it; if not, you will do no harm.

The way, to cure a disease is to stop its cause, and help the body get back to its habit of health.

When Scott's Emulsion of Cod Liver Oil does that, it cures; when it don't, it don't cure. It never does harm.

The genuine has this picture on it, take no other.

If you have not tried it, send for free sample, its agreeable taste will surprise you.

DESTRUCTIVE WEATHER.

The warm weather of Sunday and Monday reduced the snow banks, spoiled our good sleighing and caused floods in the central portion of the village, where the sewers were not open. Margoles' store, as usual under such circumstances, was flooded for several days, and the river below the dam raised several feet. During Monday night and Tuesday the weather turned to showering rain, while the temperature gradually fell to covering the roads and walks with a coat of ice, which rendered footing very uncertain for pedestrians. As usual in such weather, telephone and telegraph companies suffered most from it. The Wisconsin telephone wires broke down, falling across the railroad crossing north of Miller's brick yard, shortly after 7 a. m. Tuesday, and the passenger train due here at 7:45 ran over the wires and cut them in two, besides tearing down 8 poles in that section. All the poles between Phil. Schlei's and the Five corners are more or less down. Ed. Kahne, who lives near there and carries the mail to Fillmore, had a difficult time getting here Wednesday forenoon, as he had to cut his way through at several places where the heavy poles laid across the road. The Beechwood line was also down Tuesday, but was repaired and out in working order again the next day. Telegraph service was also badly crippled, and consequently trains were run without further orders than those received at starting points.

Both the Western Union telegraph and Wisconsin telephone companies have gangs of men here making temporary repairs on their lines.
