A Letter From Oklahoma. A letter received this week from Frank Dickman who left here about 3 weeks ago for Oklahoma Territory speaks very highly of the territory as a rich farming country. He says that a lot of good farm land is for sale at from \$15 to \$40 per acre and that crops there are looking splendid. Wheat is already grown up as high as 12 inches and corn is also up, although the season there is rather late this year. Oklahoma City, he says, is crowded with people from all parts of the country, waiting for the government strips of land which are to be opened. Wages for common labor therefore is low, but mechanics, such as masons, carpenters, etc. are receiving from 50 to 55 cents per hour. Frank advises his friends to come there but in such case they should beware of real estate sharks and look for information from reliable parties only.

CARD OF THANKS. We desire to thank our many kind friends for their expressions of sympathy and our late bereavement in the loss of our beloved daughter Florence. MR. AND MRS. JULIUS ICKSTEDT.
