HE HAS ENOUGH OF WAR. * Fond du Lac News. *

Fond du Lac, Wis., May 21.—[Special.]—Fire broke out in the Huber Bros,' drug store at about 4 o'clock this merning in the oilroom underneath the sidewalk, and something over \$2000 worth of goods were destroyed. The flames, which are supposed to have originated by spontaneous combustion, first discovered by a stranger, who stood in front of the Richelieu saloon a half block distant, smoke being seen issuing from the basement. The night police-man on the beat was notified and turned in the alarm.

in the alarm.

The men's furnishing stock of M. L. Collins in the building immediately south of the drug store was damaged by smoke and offices in the second stories of the buildings were badly smoked up.

Alvin Joslyn, the night prescription clerk, who occupies quarters in the second story at the rear end of the building, was almost suffocated by smoke. When he awoke the room was filled with heavy turpentine fumes, and believing heavy turpentine fumes, and believing the cutire building to be on fire he hastily donned a portion of his clothes and made his escape through a window in the rear.

Buried by Divorced Wife. Mrs. K. L. Anderson of Pulcifer, the divorced wife of the late John Hale, who diverged wife of the late John Hale, who died at the county insane asylum a few weeks ago and whose body was buried in the potters' field, had the bo'y exhumed yesterday and buried at Rienzi cemetery. Hale was formerly a wealthy man here but drink got the best of him and he went through his fortune and became in-sane. His wife secured a divorce from him but on leaving the city left funds with local parties to have his body bur-ied at his death in Rienzi. For some reason the parties failed to carry out the arrangements and yesterday she came to Fond du Lac to personally carry them out. She had just learned of her former husband's death.

Picked Up by the Police.

A man giving his name as Jack Sten-son, who besides having a jag had his head and one hand covered with cuts that head and one hand covered with cuts that looked as if they might have been inflicted by a beer bottle, was picked up by the police in Scott street last night and taken in the patrol wagon to the station. He could give no clear account of himself or the manner in which he had received his infjuries. Dr. Gavin was called to dress the fellow's head and hand. Insurance on Gurney Plant.

The adjusters of the Gurney Refrigerator factory fire loss returned to Fond du Lac yesterslay afternoon to finish the adjustment. The loss on the building has been adjudged total, with no salvage. The adjusters are now going over the inventory of the company's stock and machinery in the building, and expect to complete their work by tomorrow night. The total amount of insurance was \$75,000.

Await Mr. Gurney's Decision. The committee of business men which had in hand the task of raising the money needed for the purchase of the additional land desired by the Gurney Refrigerator company waited on the company and submitted its report. It is expected that Mr. Gurney will be able to make definite answer this evening or to-markey norming as to whether or not the

Gen. Cailles will Give Up if His Men will Not be Punished.

DECLARED AN OUTLAW.

Declares Through Intermediary that He Has Never Violated Any of the Laws of War.

Manila, May 23 .- Senor Dancel, an accredited intermediary, has returned here after having had a satisfactory interview with the rebel commander, Gen. Cailles, who has been declared an outlaw. Seno Dancel says Cailles is anxious to surrender with his entire command, provided his men are liberated as soon as they take the oath of allegiance. Cailles says that personally he is not afraid of an investigation of his various acts.

He says that he never violated the laws of war, and that he always showed consideration for prisoners. Cailles is with a view to facilitating the surrender with a view to facilitating the surrender of all his forces. He is also taking vig-orous action to prevent any stragglers from escaping and becoming ladrones. Senor Dancel asserts that the surrender of Cailles will cripple Gen. Malavar, who has been relying on the former to make diverting raids. It is announced from the headquarters

Greene apparently was of the same opinion for after hearing their story he proposed to Secretary Root to employ the young men in the service of the asphalt company. Secretary Root promptly responded that the war department had no objection, and that it was from there was represented that the war department had no objection, and that it was from there was represented the service of the s war department had no objection, and that it was true there was no charge touching the integrity of the boys, but only a technical violation of discipline. So one of the young men will go immediately to Venezuela, on Greene having taken them into his service, and the others will be disposed of according to the engineering needs of the company.

Contrary to general expectations, Cadets Sheridan and MacArthur, who were implicated in the trouble at the academy.

implicated in the trouble at the academy, were not disciplined, and they will not be punished in any way unless there is another outbreak.

The cadets were dismissed and suspended peremptorily. They were not given an opportunity to defend themselves before a courtmartial. In their cases, the superintendent acted upon the report of a board, which had investigated the affair thoroughly, and which received the prompt approval of the secretary of war. Only once before, during the administration of Gen. Merritt, was there punishment inflicted upon the corps approaching in severity that which has now fallen. Gen. Merritt dismissed three cadets at once. That was considered severe, but the punishment the corps has brought upon itself this time is a record-breaker.

It is even more than that. In the opin-on of all those who know the institution best it means the end, definite and con-clusive, of that tradition of hazing which for years has been the bane of academy ife. The cadets, as the result of the investigations last fall, voluntarily drew

During the war he was a private in the Ninety-eighth Illinois and Sixty-first Illinois regiments, from 1863 to 1865. He was a farmer in Clay county since 1805; sheriff from 1870 to 1872, clerk of the circuit court, 1871-5; state senator, 1881-3; United States marshal, Southern district of Illinois, 1883-4; state treasurer, 1887-9; railroad commissioner, 1891-3; assistant United States treasurer Chicago, 1892-3; chairman of the Republican state committee of Illinois, 1894-5, and was elected governor of Illinois for the term of 1897 to 1901.

AFFECTED BY STRIKES. Consumption of Pig Iron Reduced by Walkout of Machinists-

Trade Review, Cleveland, O., May 23.-The Iron Trade Review this week says:

The machinists' strike may have an important influence on the iron and steel situation, though at this writing it cannot be measured. Reports given out from the union machinists' headquarters at Washington indicate only temporary interruption at maby points, but at Cincinnati, Miiwaukee, Philadelphia, Dayton, O., San Francisco and at the machine tool centers of New England a very considerable number of men are on strike, and the prospects are that at some of these points the snutdowns may be drawn out.

Foundry operations will be curtailed if the product of the foundries cannot be finished, and to that extent there will be a reduction in the consumption of pig iron while the struggle lasts. Coupled with the recent disturbance in Wall street, the machinists' strike will accent the quietness that has come upon the iron market in the Trade Review this week says:

Amalgamated association agreement will be matters of conference between manufacturers and men. Demands for increased wages are in the air and the immediate future of the iron trade will turn upon the spirit in which the wage situation is met. If advances are made in rolling will wages manufacturers will be inclined to-hold present market prices, but, as always, consumption and production will be the arbiters of prices, unless consolidations and pools should be unwise chough to attempt to make the market by main strength. Leaving out the contingencies referred to, the situation at the moment finds its strength in the enormous consumption in the progress, having at its base the unusual prosperity of the railroads and agricultural implement manufacturers. Both these industries bid fair to have a continuance of the large demand now upon them, in view of the excellent character of crop reports up to this time. Car orders continue to be of large volume and there is no sign that the railroads can lessen the scale of their equipment purchases for months to come.

SUICIDE OF ASSASSIN.

Bresci, Who Shot King Humbert, Makes Rope of Blankets and Hangs Himself.

Rome, May 23.-Bresci, the assassin of the late King Humbert, has committed suicide at the penitentiary of Santo Stefano.

Bresci recently had been suffering from extreme excitement, declared to be from remorse. Tuesday night he made a rope from his blankets and strangled himself.

On the wall of Bresci's cell the word "Vengeance" was scratched with his bloody thumb-nail. Bresci's violence last week culminated in his attacking a jailer, in consequence of which he was placed in a straight-

order to secure an opportunity to commit suicide, which he accomplished by hanging himself with an improvised rope attached to the ceiling. In the earlier days of his imprisonment Bresci resented orders to keep silent and threatened to kill himself.

The number of bidders was, on the other hand, large, and an interesting part of the sale was a turn of the tables on Mrs. Kate Pier of Milwaukee, who is always a prominent figure on these occasions.

The first piece of property on which a certificate was to be sold was a strip of land in the town of Auburn on which P. G. Van Blarcom holds a number of certificates. For some reason not known, Mrs. Pier entered the bidding and forced Mr. Van Blarcom down to a small piece of the property. It was about the only piece he was interested in, but he remained at the sale and when he found Mrs. Pier bidding for a certificate, he immediately entered the race. Other bidders took the cue and in a short time Mrs. Pier was completely routed and indignantly left the building.

PERIODS OF PAIN

How Three Women Found Relief.

While no woman is entirely free from periodical suffering, it does not seen have been the plan of nature that woman should suffer so severely. Lydia E. Pinkham's Vegetable Compound is the most thorough female regulator known to medical science. It relieves the condition which produces so much discomfort and robs menstruation of its terrors.

The three letters here published should encourage every woman who suffers:

Aug. 6, 1898. "DEAR MRS. PINKHAM: — I have suffered since the age of sixteen with painful menstruation. I have been treated for months, and was told that the womb had fallen a little. The doctor says that is now in place again, but I still have the same pain. Please tell me what to do," - Mrs. EMMA KURHL, 112 Trautman St., Brooklyn,

Jan. 19, 1899. "DEAR MRS. PINKHAM: - After re ceiving your reply to my letter of Aug. 6 I followed your kind advice, and am glad to tell you that I have been cured of the severe pain at time of menstruation through the use of Lydia E. MONTE CARLO'S PENSION LIST. show that the men rank closely in point Gambling House Supports Those Who

Monte Carlo, the most famous gambling place in the world, has a very curious pension list. Here are inscribed the names of the men and women who pionship. have lost their fortunes at the tables and who are allowed small sums daily for the rest of their miserable lives. This practice, which was inaugurated by Pere Offshoot of the Mormons, Who Ruled Blane in his paternal care for the decaves, is also being dropped as the pensionnaires die out. The pensions now paid range from one dollar to eight dollars a day, according to the amount which has been lost at the tables and the social position of the recipient. For instance, a tall Scotchman who is a familiar figure upon the Promenade des Anglais in Nice receives two louis (about eight dollars) per day. He lost a millian and a quarter at roulette. He has still a small income, and the bank, therefore, considers his pension sufficient to keep this broken vessel from coming to

closed—not even during the summer—but if people would only restrain their passion for gambling for another five years, as they showed themselves capable of doing during the winter of '96 and '97, the dividend will come out zero, and the bank will be broken, not in name only, but also in deed.—Ledger Monthly.

Uncle Sam's Noble Soldiers.

A writer in Ainslee's Magazine tells this story: "Our government allowed several transports with returning volunteers to stop at Yokohama, and so hundreds of American soldiers visited that city and Tokio. One of them hired a bicycle, and was taking a ride about the streets of Yokohama when he ran down an elderly Japanese man. The soldier rang his bell several times, but the Japanese apparently paid no attention to it, and the American found himself promptly arrested and taken to court, where he was fined 10 yen (\$50\$). For a number of mornings past the men who keep the approaches to the white house clean have observed a bunch of feathers under a large tree that hangs over the walk. They were swept up with the other trash, but regularly every morning the ground at that spot would be covered again with small feathers. Occasionally there was a leg or a piece of a wing of a sparrow. The attention of the employes was finally attracted to the singular collection of feathers, and an effort was made to solve the mystery. After considerable search, a good-sized owl was located in the tree above the spot where the feathers appeared every morning, and still clinging to his claws were several of the tell-tale pieces. The could be desired, and their prospects are of the colony.
