PROPOSAL IS REJECTED.

Proposition that Union be Given Five Additional Plants Refused.
MR. MORGAN DECLINES MAGNATE ADHERES TO POSITION TAKEN AT THE NEW YORK CONFERENCE.

Pittsburg, Pa., Aug. 1.—The conference was still in session at 3 p. m. Nothing can be learned of the proceedings. It is believed they are still waiting to hear from New York in reference to another conference with the combine officials.

Pittsburg, Pa., Aug. 1.—The Amalgamated Association of Iron, Steel and Tin Workers' national executive board met here today for the purpose of replying to the proposition that five additional plants be allowed the union.

Mr. Morgan said he stood upon his proposition, made to President Shaffer at the meeting in New York, Saturday, that the plan, sheet and work combine would sign the amalgamation scale for the month of July on July 1. This did not include Clark's plant and Lindsay & McClellan's plant.

Plunger Phillips Makes Trausfer of His Entire Business.
DEFALCATION RUMOR.
Attorney Declares that Company is Solvent and that All Trades will be Protected.

Chicago, Ill., Aug. 1.—Board of trade and business circles generally were startled today by the announcement that the George H. Phillips company, which became famous through its pool operations in the Chicago corn pit during the past year, had transferred all its operations to McReynolds & Co. It was at first rumored that a large defalcation had been discovered in an examination of the books, but this proved untrue, having its origin in the fact that the company should furnish to each member of the board a detailed account of the company's business.

The expert accountants to make it would be absolutely necessary to make a complete audit of the books of the company, and check every item of the income and expense books.

BOILER OF COFFEE SCALDS A WOMAN.

Mrs. Jensen, Wife of Easting House Proprietor, Injured.
La Crosse, Wis., Aug. 1.—[Special.]—Mrs. Ole Jensen, wife of a former sheriff, now proprietor of an eating house at Savanna, was seriously injured last night by the overturning of a huge boiler of coffee. The fluid was spilled over her body, scalding her from the shoulders to the lower limbs. Her condition is quite serious.

SATURDAY, AUG. 8, 1901.

THOSE murderous Colorado Benders evidently are more treacherous than the benders on bends so much dreaded by intake tunnel constructors.

An exchange says that "every man, woman and child in Holland drinks an average of 45 gallons of beer per year," but there are people in Milwaukee who can make that average look "snitty."

THE convention of the Wisconsin Deaf Mute association created quite a stir at La Crosse, considering that their doings could only be seen and not heard. But then "actions sometimes speak louder than words," anyway.

At least the first half (if not all) of the following stanza, by James Russell Lowell, would seem to be thoroughly endorsed by the present administration at Washington.

New occasions teach new duties; Time makes ancient doers seem; They must appear still, and stand, Who would keep abreast of time.

Of course the Omaha Bee editor's mere announcement that he favors Senator Spooner as the next Republican nominee for president does not cut a great figure in the matter, but John C. is not like a man who could not receive a small favor so thankfully as to make the donor wish it were larger.

THE Waupun editress, who says that Luckow of Baraboo is the handsomest man in the State Press association, must have a Frances Folsom eye for masculine beauty. But then there is no accounting for tastes, anyway; as "different people have different opinions," so "some like apples and some like onions."

In regard to the next Republican nominee for mayor of Milwaukee, such anxiety thus early is entirely unnecessary, especially as any old candidate will serve the purpose if David S. Rose heads the Democratic ticket. This "fling" is nonpartisan, in that it can be construed either way, as one may choose.

HARRY B. SMITH, the comic opera manufacturer, seems to have struck the right chord in offering to write against a New York critic of his lyrics in "The Strollers" for \$1,000 a side and half the gate receipts. As a rule, nothing will make a critic quail so quick as a challenge to create the equal of that which he is pleased to criticize; and, usually, "the man who knows it all" is the fellow who has not made a success of anything.

WITH the metropolitan press now printing large illustrated articles on Kaiser Wilhelm's new beard, and the stork's proximity to Geo. Gould's yacht, the country press may next glow with such items as follow:

Postmaster Penrose leads the fashion this season by wearing his whiskers a la drouth stricken.

Society is now on the quiver as to whether the expected in Editor Emerson's family will prove to be a second edition of himself.

CHARLES CECIL FITZMORRIS, whom the Chicago American management sent out to girdle the globe, made the trip in 60 days, 13 hours, 29 minutes, 42 1/2 seconds. This is the quickest time the tour around the world has ever been made in. But we presume Mr. Fitzmorris' gait was not impeded by a dogging detective or a lovely lady, to say nothing of the slow servant that went around with the Englishman who spent 80 days on the road.

THE striking machinists of Milwaukee have found their employers able to outlive them in idleness, as was to be expected. The orders that meanwhile have lain unfiled at the shops can now be rushed to completion, as they undoubtedly were contracted subject to the usual provision in regard to strikes. This it seems that when the manufacturers in a certain line unite, they may even covertly precipitate a strike and profit by it, if they care to do so.

ANOTHER notable will contest is impending, with the usual allegations of mental incapacity, undue influence and the like. The trouble with our present system of will-writing is that the author can leave his own children or nearest relatives in a very unfavorable light without giving them any opportunity to defend themselves or question his competency to judge as to their worthiness. Hence the unpleasant developments that arise in so many cases after death.

Paul Dresser, who wrote "On the Banks of the Wabash," has gone into training at New York to reduce his weight. Recently he began to feel uncomfortable, so he called at the White Plains training quarters of Wm. Muldoon. The noted wrestler looked him over and advised horseback riding. Dresser accordingly went to a livery stable, only to be advised to hire an elephant. But Paul was determined to follow Muldoon's instructions, so he bought a horse that had been hauling a beer-wagon during the day and an ice van at night. The animal only lasted a week, but the song-writer finds consolation in that he rode the beast enough to reduce his weight from 402 to 365 pounds, and if the society for the prevention of cruelty to animals does not get onto him he may continue the exercise successfully.—X.

Georgia's Giant Sycamore Tree.

Dougherty county now lays claim to the champion big tree of Georgia. It was discovered several weeks ago by employees of the Red Cypress Lumber company, who were engaged in cutting timber. It rears its head from amid a thick swamp, where hardwood trees abound, and to this is due the fact that it was not discovered sooner.

This giant of the swamp is a sycamore. It is on a little knoll, and except in seasons when a great deal of rain has fallen its trunk is not reached by water. A foot from the ground its trunk is 44 feet in circumference. For 20 feet above the ground the body of the great tree is round and symmetrical, but at that point it branches into four sections, any one of which would make a giant tree if standing alone. The four arms of the big sycamore do not spread out as would seem natural, but reach skyward, almost perpendicularly. All who have seen the tree say it is a curiosity that places "in the shade" all the known trees in Georgia.—Atlanta Constitution.

World's Greatest Givers.

Americans Noted The World Over For Their Boundless Liberality.

The large hearted generosity of Americans is the surprise and wonder of the world. When a Rockefeller gives millions to a University, when a Carnegie gives millions to found libraries, they simply illustrate a liberality which is the glory of American character. Among the greatest givers in the world, is an American institution, whose gifts are like those of the sun,—continuous and for the good of all mankind. This company gives millions of trial bottles of Dr. King's New Discovery for Consumption away every year. At the great laboratory of H. E. Buckley & Co. in Chicago a large force of women are employed the year round in filling these trial bottles for sufferers. Such extravagant liberality would bankrupt the wealthiest man in the world, but it is not the towering merit of this glorious cure; but a trial so powerfully convinces a sufferer from any throat, chest or lung trouble of its priceless worth, that he at once buys a large bottle to complete his cure, and becomes a friend of this marvellous medicine for life. It is positively guaranteed to cure Coughs, Colds, Bronchitis, Asthma, Hay Fever, Croup, Whooping Cough and all bronchial troubles, while such results as the world never before witnessed, follow its use in Consumption, La Grippe, Pneumonia, Hemorrhage and Pleurisy. It has conquered these desperate maladies when doctors and all other medicines failed. Price 50c and \$1.00. Money back, if not cured. Nothing fairer. At all druggists.

Helps young ladies to withstand the shock of sudden proposals, that's what Rocky Mountain Tea has done. 35c. Made by Madison Medicine Co.—Miller & Son.

Georgia's Giant Sycamore Tree.

Dougherty county now lays claim to the champion big tree of Georgia. It was discovered several weeks ago by employees of the Red Cypress Lumber company, who were engaged in cutting timber. It rears its head from amid a thick swamp, where hardwood trees abound, and to this is due the fact that it was not discovered sooner.

This giant of the swamp is a sycamore. It is on a little knoll, and except in seasons when a great deal of rain has fallen its trunk is not reached by water. A foot from the ground its trunk is 44 feet in circumference. For 20 feet above the ground the body of the great tree is round and symmetrical, but at that point it branches into four sections, any one of which would make a giant tree if standing alone. The four arms of the big sycamore do not spread out as would seem natural, but reach skyward, almost perpendicularly. All who have seen the tree say it is a curiosity that places "in the shade" all the known trees in Georgia.—Atlanta Constitution.

Nothing is more to be dreaded than aged infancy.

If a dealer asks you to take something said to be "just as good as Rocky Mountain Tea, made by Madison Medicine Co.," ask him if he makes more money.—Miller & Son.

PURITY AND HEALTHFULNESS prevail in Lithia beer. If you are weak or nervous it is due to lack of nourishment in your blood. Your body can not become strong if your blood is not healthy. Lithia beer gives the blood the proper nourishment. We, who know brewing, know the value of purity. You, who drink pure Lithia beer, get the value of its healthfulness. Ask your doctor, he knows it.

The reception held at the local hall Monday evening, in honor of Mr. and Mrs. T. L. Flanagan and Mr. and Mrs. Flood, was the greatest social event of the season. About two hundred invitations were sent out and most all were responded to. All present seemed infected with the spirit of the occasion, and a very good time naturally resulted. The hall was prettily decorated with water lilies and potted plants, while one corner was prettily arched with decorations, illuminated with Chinese lanterns, and reserved for the newly wedded couples.
