The ladies of the chorus choir of the First Baptist church of this city announce that in the future they will remove their headgear when taking their places in the choir on Sundays, and it is thought the move may be imitated by the women of the audience and that hatless audiences will be the rule in the church. "The innovation," one member of the choir said, "has found great favor in the East, and why shouldn't Fond du Lac women adopt it? No lady thinks of keeping her hat on in a theater, why should she in church?"

Louisville, Ky., Aug. 29.—By an election said to have been unprecedented for celerity, Frank M. Thomas, past grand commander of the District of Columbia, was today elevated by the grand encampment of Knights Templars to the office of junior grand warden. This was the only contest, the other officers being elected perfunctorily as forecasted, each officer advancing one grade, as follows:

The office was much desired, as it means that eventually the holder of it will become the head of the Templars' organization. H. MR. SHAFFER'S DENIAL. Not Trying to Force Arbitration

Through the Courts. Pittsburg, Pa., Aug. 29.—President Shaffer officially denied several stories printed in the papers today. He said there was no truth in the report that the Amalgamated association was making efforts to effect a settlement of the strike by trying to force the United States Steel corporation into arbitration through the courts. The report that the Amalgamated lodges were voting on a peace bership question precipitated a hot fight at the meeting of the grand encamp-ment. It ended with the encampment sustaining the ruling of Grand Master Lloyd.

Briefly, Sir Knight Lloyd holds that to be in good standing a Knight Templar must maintain his standing in both chapter and lodge.

The committee brought in a majority report accepting the grand master's gamated lodges were voting on a peace proposition was also denied by Mr. Shatfer, who said: "There has been not vote of any kind taken by us. FLOAT CATCHES FIRE

Two Participants in Fond du Lac Carnival Parade Injured.

THE HORSES RUN AWAY

Historical Pagent-Floral Parade is Beautiful.

Fond du Lac, Wis., Aug. 29 .- [Special]-Greater crowds, but more orderly than those of the opening night of the carnival, thronged the business portion

pageant. It was followed by a sham battle at the courthouse square between Co. D of Ripon and Co. E of this city.

An accident occurred during the preparations for the parade. Mephisto's float, in charge of Charles S. Hill, moving on West Second street, was set on fire by a Roman candle ignited by one of the young men of the float, setting fire to forty pounds of flashlight powder and in a second the entire float was a mass of flames. The four horses attached to the float stampeded, breaking through the crowds at the corner of Main and Second streets, but miraculously none of the hundreds around the Woodman's band at the corner were injured. One of the horses fell just across Main street and stopped the wagon. The fire department, which had been called, getting a stream on the burning float, soon extinguished the blaze.

C. S. Hill, who had jumped from his elevated position on the wagon, was found in an unconscious condition a few minutes later at the corner of Macy and Second streets, where he had evidently struck the curbing. After recovering consciousness he was removed in the ambulance to his home. His injuries, besides slight bruises, are of an internal nature and are serious. The other six Mephistos an the float all escaped by jumping, suffering only slight burns and bruises.

Ed Schaar had his hands badly ourned in the fire.

The patch of light in the east had increased and broadened, and the sky was mottled with little pink feathers of cloud. As we passed over the low hills by Chandler's Ford and Romsey we could see the smoke of Southampton to the southeast, and the broad, dark expanse of the New Forest with the haze of morning hanging over it. A few horsemen passed us, pricking along, too inquire ours. A couple of carts and a long string of pack-horses, laden principally with bales of wool, came straggling along a by-road, and the drivers waved their broad hats to us and wished us God-speed. From Dean to Salisbury is all straight road, with moor, morass, and feelland on either side, broken only by the single hamlet of Aldersbury, just over the Wiltshire border. Our horses, refreshed by the short rest, stepped out gallantly, and the brisk motion, with the sunlight and the beauty of the morning, combined to raise our spirits and cheer us after the depression of the long ride through the darkness, and the incident of the murdered traveler. Wild duck, widgeon, and snipe flapped up from either side of the road at the sound of the horses hoofs, and once a herd of red deer sprang to their feet from among the ferns and scampered away in the direction of the forest. Once, too, when passing a dense clump of trees, we saw a shadowy white creature, half hidden by the trunks, which must, I fancy, have been one of those wild cattle of which I have heard the peasants speak, who dwell in the Wiltshire border. Mr. Berkout, formerly forester in the Mr. Berkout, formerly forester in the Dutch East Indies, recently gave some facts not generally known concerning india rubber and gutta-percha, which are often confused, says the Youth's Companion. The quality of elasticity distinguishes india rubber from gutta-percha. The latter is derived from one percha. The latter is derived from one plant only, while india rubber is pro-duced from more than sixty plants. Three-fourths of the gutta-percha of commerce comes from Sumatra and Borneo.
