A GOLDEN FUTURE.

Consumption Will Have Disappeared From Michigan By 1950.

Dr. Baker, Secretary of the State Board of Health of Michigan, says that the death rate in the state from Consumption shows an average annual reduction of 11 per cent since 1891, and at this rate of decrease will entirely disappear by 1950. This report is not at all surprising to one who knows what a vast quantity of Dr. King's New Discovery for Consumption is sold in Michigan yearly. The lives it saves lowers the death rate. This marvellous medicine is made to cure Consumption and all maladies of throat, chest and lungs which lead up to it. How grandly it does the work is shown by the splendid report from Michigan and by such wonderful cures as that of Mr. J. E. Lilly, of Hannibal, Mo., who writes: "I suffered a severe attack of Typhoid Fever, followed by Pneumonia. My lungs became badly affected. I was so weak I couldn't even sit bolstered up in bed. Nothing gave me any relief and I expected to die of Consumption. Then I saw Dr. King's New Discovery advertised and bought a 50c bottle. It gave immediate relief and continued use wholly cured me." This glorious medicine is the best on earth for Coughs, Colds, Bronchitis, Asthma, Hay Fever, Croup, and Whooping Cough, and is a powerful remedy for Consumption, La Grippe, Pneumonia, Hemorrhage and Pleurisy when all doctors and other medicines failed. Price 50c and \$1.00. Every bottle guaranteed. Trial bottles free. At all druggists.

Perhaps the boldest and most sensational robbery ever committed, was the looting of the wholesale stamp department of the Chicago postoffice, early last Monday morning. The burglars succeeded in tunneling underneath the building for a distance of three hundred feet and after boring a hole through the steel floor of the vault, succeeded in escaping with about \$74,000 worth of stamps. So quietly was the robbery committed that the employees working right near them had not the slightest knowledge of the daring robbery which was taking place right underneath their very noses.

The plant of the Menominee Falls Sugar Company opened last Thursday, as the shipment of sugar beets the past week has been large enough to warrant the starting of the machinery. There are at present over 3,000 tons of beets in the warehouses of the company and on an average of forty cars and 200 wagon loads are being received daily. Mr. Wagner, the manager of the company says: "As near as I can estimate there are about 5,000 acres in this section of the state given up to the culture of the sugar beet." The first shipment of sugar beets raised here this season, was made last Wednesday, when two car loads were sent to the Menominee Falls Sugar Factory. The shippers say the yield is far below what they expected; that they will not average over 10 tons to the acre, and as the price they are to receive for them is only \$4.50 per ton; providing they will test no less than 12 per cent, of sugar, they do not think the culture of the sugar beet is a profitable one.

Lawrence Kelly, of the town of Erin, was arrested Monday by undersheriff Weddig, charged with having, on the night of October 7th, deliberately set fire to one of Barney Serres' buildings which resulted in a serious conflagration and the destroying of Mr. Serres' store, dwelling house and saloon. The prisoner was taken before Justice Robinson late in the afternoon and received a hearing. The evidence given by witnesses was of such a nature that the justice deemed it advisable to bind him over to the circuit court and fixed his bail at \$500. Being unable to give bail he was committed to jail to await trial next spring. Kelly is a young man aged about 25 years.—PILLOT.

Attention Farmers. Three smooth young men have succeeded in working a number of rich farmers in La Crosse county out of various sums by "selling" them the right to sell and act as agents for a wire fence machine. Bert Smith, a farmer near West Salem, put up \$144 for an agency, and many others put up smaller amounts. It turned out that when the farmers signed the contract they were in reality signing a note for a large amount of money on the bank. Later the smooth trio disappeared with the money. Many farmers have a large stock of the fence machines which, by the way, are almost worthless, and the men have escaped.—HARTFORD TIMES

Change of Firm at West Bend. Mr. Jacob Merten sold his interest in the department store at West Bend last week to Henry Oppenhorst for \$9,000. The latter and Mr. A. Grau, the former partner of Mr. Merten, have associated themselves with Mr. Henry Fellenz, a former clerk in said store. These three gentlemen will continue to run the business under the firm name of A. Grau & Company. We are informed that the new firm has a larger amount of available assets, thereby enabling them to carry a larger assortment of goods. The location of the store is the choicest in the city of West Bend, and it is also the largest store building in Washington county. A great many of our readers are, no doubt, acquainted with the gentlemen composing the firm. A few words concerning them however, will not be out of place here. Mr. Grau, a graduate of Milwaukee Business College, has had not only a theoretical, but also a thorough practical business training. He has worked in the capacity of both salesman and buyer in city and country stores before he entered into partnership with Mr. Merten. Mr. Oppenhorst, the second member of the firm, can look back upon a long and successful career as a teacher, a dealer in books and school supplies and an insurance agent. This together with the fact that his insurance business has brought him into prominence before the people of Washington and surrounding counties, should make him a desirable partner in business. Mr. Fellenz, the third partner, is also a graduate of a business college, and has been for the past two years, head clerk in the business of which he is now a partner. He has, therefore, had an opportunity to thoroughly familiarize himself in all its details. The success of the new firm therefore, seems assured.

WOMEN COME TO THE FRONT IN TRADE.

The prevalence of the woman buyer is many other innovations in the world of trade, chiefly attributable to the development of the woman's sense of individuality and her desire for a more universal supply of goods. These changes of the great cities alone, every feature of modern life is being transformed. These changes are being conducted by a separate business. One establishment of this character in the West had seventeen years from its various branches registered in New York a week ago. Most of them were women, and were conducting their business without the slightest indication of regard for what the rest were doing.

MILWAUKEE PEOPLE.

Could Hardly Believe It. A Prominent Woman Saved From Death by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM—I suppose a large number of people will hardly believe it; I had not experienced it myself, I know that I should not."

Mrs. Sadie E. Koch. "I suffered for months with troubles peculiar to women which gradually broke down my health and I was nearly insane with pain at times, and no human skill I consulted in Milwaukee could bring me relief."

"My attention was called to Lydia E. Pinkham's Vegetable Compound; the first bottle brought me relief, and the second bottle an absolute cure. I could not believe it myself, and felt sure it was only temporary, but blessed fact, I have never been troubled since, and cannot in words express my gratitude. Sincerely yours, SADIE E. KOCH, 154 10th St., Milwaukee, Wis.—\$5000 for best medicinal fruit given."

Such unquestionable testimony proves the power of Lydia E. Pinkham's Vegetable Compound over diseases of women.

Women should remember that they are privileged to consult Mrs. Pinkham, at Lynn, Mass., about their illness, entirely free.
