It is true that the rate of assessment is low, but as previously stated the amount of assessment wid be very much the same as in previous years, as the city assessors, in accordance with the new assessors, in accordance with the new law, have assessed all property at full valuation, bringing the assessed value up so that it has been possible to reduce the rate. The memors of the common council point with pride to the figures showing the rate of taxation, but they become silent when the matter of assessed valuation and the aggregate of taxes to be collected is referred to. Some will be surprised to find that even with the present low rate they will be obliged to pay larger taxes than in previous years with a higher rate of taxation.

NINE MEN ARE ROASTED JUDGMENT OF THE COURT OF INQUIRY IN THE CASE OF REAR ADMIRAL SCHLEY.

Employes in a Pittsburg Furnace MAJORITY REPORT -- JUDGMENT OF REAR ADMIRALS BENHAM AND RAMSAY. Burned to Death. AN EXPLOSION OF GAS.

The majority judgment of the court of inquiry in the case of Rear-Admiral Schley comprises the opinions of Rear-Admirals Benham and Ramsay. Admiral Dewey, the president of the court, signs the report, but he takes exceptions to many material features, and these are contained in a personal minority report. The majority report follows:

Commodore Schley, in command of the flying squadron, should have proceeded the utmost dispatch off Cienfuegos, and should have maintained a close blockade

Commodore Schley, in command of the flying squadron, should have proceeded with utmost dispatch off Cienfuegos, and should have maintained a close blockade of that port.

He should have endeavored, on May 23, at Cienfuegos, to obtain information regarding the Spanish squadron by communicating with the insurgents at the place designated in the memorandum delivered to him at 8:15 a. m. of that date.

He should have proceeded from Cienfuegos to Santiago de Cuba with all dispatch, and should have disposed his vessels with a view of intercepting the enemy in any attempt to pass the flying squadron.

He should not have delayed the squadron for the Eagle.

He should not have made the reirograde turn westward with his squadron. He should have promptly obeyed the navy department's order of May 25.

He should have endeavored to capture or destroy the Spanish vessels at anchor near the entrance of Santiago harbor on May 29 and 30.

He did not do his utmost with the force under his command to capture or destroy the Colon and other vessels of the enemy which he attacked on May 31.

By commencing the engagement on July 3 with the port battery and turning the Brooklyn around wita port helm. Commodore Schley caused it to lose distance and position with the Spanish vessels—especially with the Vizcaya and Colon.

The turn of the Brooklyn to starboard was made to avoid getting it into dangerous proximity to the Spanish vessels. The turn was made toward the Texas, and caused that vessel to stop and back its engines to avoid possible collision.

Admiral Schley did injustice to Lieut-Commander A. C. Hodgson in publishing only a portion of the correspondence which passed between them.

Commodore Schley's conduct in connection with the events of the Santiago campaign prior to Jane 1, 1898, was characterized by vaciliation, dilatoriness and lack of enterprise.

His official reports regarding the coal supply and the coaling facilities of the flying squadron were inaccurate and misleading.

His conduct during the battle of July 3 was sel

MINORITY REPORT -- JUDGMENT OF ADMIRAL DEWEY, PRESIDENT OF THE COURT. Admiral Dewey's minority report is as follows:

Admiral Dewey's minority report is as follows:

In the opinion of the undersigned, the passage from Key West to Cienfuegos was made by the flying squadron with all possible dispatch. Commodore Schley having in view the importance of arriving off Cienfuegos with as much coal as possible in the ships' bunkers.

The blockade of Cienfuegos was effective.

Commodore Schley, in permitting the steamer Adula to enter the port of Cienfuegos, expected to obtain information concerning the Spanish squadron from it when it came out.

The passage from Cienfuegos to a point about twenty-two miles south of Santiago was made with as much dispatch as was possible while keeping the squadron a unit.

The blockade of Santiago was effective.

Commodore Schley was the senior officer of our squadron off Santiago when the Spanish squadron attempted to escape on the morning of July 3, 1898. He was in absolute command and is entitled to the credit due to such commanding officer for the glorious victory which resulted in the total destruction of the Spanish ships. GEORGE DEWEY, Admiral U. is about \$338,664,649 less than it will be this year, the increase being about 50 per cent. The state board of assessment last year fixed the value of all property at \$630,000,000.

Judge N. S. Gilson, state tax commissioner, saids that the returns of the local assessors would considerably decrease the rate of taxation of sleeping car, express, freight and similar companies whose property is taxed at the average rate of taxation of all property in the state. Revenues from these sources will probably decrease between taken to secure redress for the assault on the representative of the Washington government in China.

The assault took place in one of the husiest localities of the city, and yet there was no interference on the part of state. Revenues from these sources will probably decrease between 40 and 50 per cent. As railroad companies proper are taxed on their earnings per mile of road, they are not affected by the increased valuations. The state board of assessment reviews the returns of local assessors, and this year it may, if it deems proper increase these assessments for state and school purposes. Bold Attempt at Robbery in Railway Yards at Appleton Proves a Fallure.

Appleton, Wis., Dec. 19.-[Special.]-Another attempt at holdup in the switch-yards of the Chicago & North-Western road occurred list night, the ving Frank Graf of Des Moines, Graf on the shoulder and fore arm, causing painful bruises. A lively fight between the two men ensued, Mr. Graffinally putting his assailant to rout. The robber got away without detection.

This is the third attempt at holdup in the switchyards within the past week.

It is thought that Mr. Graf's assailant was an acquaintance, who knew of the was an acquaintance, who knew of the was an acquaintance, who knew of the was an acquaintance.

Elephant is Chloroformed at Ringling Brothers' Quarters at Baraboo.

Narrow Escapes. | elephant was successfully performed here at the winter quarters of Ringling Brothers' circus. About a year ago the animal became afflicted with rheumatism in the left fore leg and suffered much in the left fore leg and suffered much during the winter, although the best of the advent of the warm days of summer the disease would disappear, but the disease would disappear, but this proved to be unfounded for more or less all summer it has suffered from the

difficulty.

Ever since arriving at the winter quarters, four weeks ago, the elephant has grown worse despite the application of all known remedies, and at last it was concluded to end the miseries of the af-flicted beast. With strong ropes it was made secure and the chloroform administered. It was not long until the struggle was over and the descendant of Asiatic jungles had passed into elephant heaven.

PRISON FOR CORN STEALER.

Fond du Lac, Wis., Dec. 18.—[Special.]—The greater part of the "steel gang" which has been at work in the North-Western yards at North Fond du Lac for the past several months will complete its work this week and the force will be reduced from about 350 men, the number now employed, to 50. The "steel gang" has laid the second track of the double-track system through North Fond du Lac and has finished the track No. 3 for about three-quarters the track No. 3 for about three-quarters the distance to the D X tower, where it will join the main track. Work on this track will be discontinued until spring and a temporary switch will be built connect-ing this track with the main line. The crew has also completed about fifteen tracks in the yards. It is expected that the reduced force will be kept at work for the greater part of the winter. The "steel gang" has succeeded in completing a great deal of work at North Fond du. Lac and many miles of track have been constructed. It is expected that between twenty and twenty-five miles of track will have been built when the North Western yards are completed.

The work on the buildings has been delayed a little during the past few days on account of the cold weather, but it is now progressing as usual, a large num-

ber of carpenters and several masons being employed. The foundation for the new office building to be erected at the north end of the roundhouse has been Otto Hein, who has been employed for the past few months as timekeeper for the North-Western road, checking up the

In 1889 it was with great difficulty and by a bare majority that some humane people secured the enactment of a law by the New York State Assembly prohibiting the hunting of deer with hounds. In 1900 an attempt was made to repeal the law as applied to one county, most of which was maintained as a game preserve by an individual owner. The attempt resulted in flooding the assembly with protests and the measure never came to a vote. And yet some pessimists say that the world is growing worse and worse.

The pain I suffered was most severe, and nothing that I used helped me until I applied St. Jacobs Oil, when they immediately be-came better daily, and in a short time I was able to go about, and soon after I was quite cured. I am now determined to advise all persons suffering from pains to use this wonderful remedy, which did

Mrs. Thomas does not enlighten us as to what treatment she pursued during the months she was unable to stand, and during which time she was suffering so much, but we venture to suggest that had she called in any well-known medical man he would have at once prescribed St. Jacobs Oil, for it has conquered pain upwards of fifty years, and doctors know there is nothing so good. The proprietors of St. Jacobs Oil have been awarded twelve gold medals by different international exhibitions as the premier pain-killing remedy of the world. The com-mittees who made the awards were in each instance composed largely of the most eminent medical men obtainable. Mrs. Thomas evidently did not know the high opinion in which St. Jacobs Oil is held by almost every progressive medical

Called the "Garden of Eden" by a former Resident of Reed City, Mich. In a letter to the Reed City, Mich., Clarion, Mr. Jas. G. Armstrong of Meitford, Saskatchewan, says, writing on 27th of May, 1901;

"This is a fine country for a poor man, as he can go out on the hay slews and cut all the hay he needs. He turns his cattle out on the prairie, and when he is not using his horses, he turns them out also. There is such an abundance of food they never wander away.

"A lady, who has lived here eight years, told me that this was the original 'Garden of Eden.' I certainly would believe it, if we could only find the apple trees. But as it is, we have many varieties of fruit-strawberries. cranberries, saskatoons, huckleberries, red and black currants, dewberries, plums, red and black cherries, and red raspberries. All of these fruits grow wild. Then the flowers that dot the prairies, making them look like a real garden. We have eaten of the wild red currants, and they are equal if not superior to those grown in Michigan. We have sweet corn 71/2 inches high. As the western farmers are all done seeding, branding cattle and sheep shearing are now progressing. Wool is only five cents a pound, and many ranchers have on hand last year's clip. I inclose you a potato blossom, slice of new potato, which measured 61/2 inches when cut. This is no fairy tale, if we are so much farther north than Reed City. It is all facts. Come up and see. This has been truly called the 'garden of the West.' With fruits and flowers. lakes and streams, fish and fowl, beautiful rivers, tracts of timber and moun tains, what more does a man want?" Information concerning all parts of Western Canada will be cheerfully given by communicating with the agent of the Government of Canada, whose advertisement appears elsewhere.

Where Painting Never Ceases. Ever since the Forth bridge was opened—eleven years ago—painting has gone on continuously. Beginning at the south end the workinen take three years to cover the entire length of the bridge, and, as three years represent approximately the life of the paint, no sooner are they finished than the men have to begin again. In this way every square inch of steel comes under observation at least once in three years. The staff of men employed varies in number from the maximum of thirty-five.

From my central post by the door I could see the lines of the faces on either side of the board, the solemn, close-shaven Puritans, sunburnt soldiers, and whitewigged, mustachioed courtiers. My cyes rested particularly upon Ferguson's scorbutic features, Saxon's hard aquiline profile, the German's burly face, and the peaky, thoughtful countenance of the Lord of Wark.

Should he wish to fight us upon our own ground, he must needs drain his troops from north, south and east, which is not to be thought of. We may very well march to London by-way of Bristol."

"It think that the advice is good," Lord Grey observed. "but I should like to ask Col. Saxon what warrant he hath for saying that Churchill and Feversham are on their way, with 3000 regular foot and several regiments of horse."

"The word of an officer of the Biues with whom I conversed at Salisbury," Saxon answered. "He confided in me, believing me to be one of the Duke of Beaufort's household. As to the horse, one party pursued us on Salisbury plain with bloodhounds, and another attacked in it.

Senate.

Buring the executive session of the Sente on the 12th Senator Spooner of Wiscontin made a lengthy speech in favor of the day-Pauncefote treaty. The points of insenational law were thoroughly covered. The point that has been raised by the opponents of the treaty that the United Sates would be bound by its terms not to build ortifications in time of war was met by Senator Spooner in early aining the terms of the Clayton-Raiwer treaty and the first Hay-Pauncefore treaty, and showing that he objections contained in the former instruments against fortifying by this nation have been eliminated and do not now ippear to prevent this government not only from building but from protecting and deceding the canal. Senator Spooner had ust concluded speaking when Senator Lodge made an effort to seeve a vote. It leveloped that there were other senators who desired to be heard, the result being that the date for the vote was postponed intil the 16th. The Senate committee on sthmian canals authorized a favorable resort upon Senator Morgan's bill providing for the acquisition from Nicaragua and Costa Rica of the right of way via the Sicaragua route. Senator Morgan later presented this report to the Senate, accompanying the return of the bill with a voluminous report upon the general subject of canal across the Isthmus. Action on the bill providing for the construction of the mani was deferred.

The Senate on the 16th ratified the Hay-Pauncefote isthmian canal treaty by the lecisive vote of 72 to 6. The vote was eached a few minutes before 5 o'clock, after almost five hours' discussion behind closed doors. There were no sensational insiderts during this entire time. The debate was confined exclusively to a discussion of the merits of the agreement and the policy of its provisions. The principal speech of the day was made by Senator Teller, in oposition to the treaty. A hovement was initiagrated by Senator Nelson of Minnesota to put a stop to the dock charges and other discriminations alleged to be imposed by rans-Atlantic transpor

Soon after the Senate convened on the 17th a joint resolution making some amendments to the act, "to establish a code of aw for the District of Columbia" was resported and passed. "Of course it is true that I know Mr. Thompson well," she said, "and that we were out together last night. That is not unusual, however, as I frequently go out for supper with him. You see, there is no wedding ring there," she said, pulling off her glove, "and I must insist that I am not married, and you will have to see the offer party about it."

The Annonneement Cards.

When seen last night, however, Mr. Thompson stated that it was true, and said the reason the matter had been key a secret was on account of sickness in his family. He had intended that an nouncement cards would be issued after the New Year. Now that the story was out, however, he said that himself and wife would start South on a wedding Trip, probably to Plorida, this morning. They expect to be gone about thirty days, and will visit California and will spend ten days at his mines in Oregon before returning.

The news of the marriage of Mr. Thompson came as surprise to his numerous friends in this city. George H. Jenney, who has been an intimate friend of Mr. Thompson for a number of years, said yesterday afternoon that it was news to him and he donbted the accuracy of the report. He said such a story might be started to try and hurt Mr. Thompson's political aspirations, as it was intended that he should move into the First ward and run against "Bathhouse John" in the spring campaign.
