SEIZED BY AN OCTOPUS

Terrible Battle of a Diver With a Monster Devil Fish.

Not long ago a Malay diver off the coast of New Guinea was drawn down with his boat by an enormous devil-fish, but was rescued, half dead, after a frightful battle, by other divers.

The devil fish is about the most loathsome monster of the deep, but has its counterpart in Calatrach, which seems to clutch with unerring aim at head, throat, stomach, lungs and bowels, and when it's grip is secure it drags its victim down to death.

It was a great sufferer for a long time from blurriness of the head and stomach. I would almost choke at night with mucous matter falling into my throat. My bowels were very constipated, and my kidneys very much affected. Sometimes I was not able to stand on my feet. When I had paid nearly all my money to the best doctors I was no better than at first. At last I was advised to try Dr. King's New Discovery and New Life Pills; one bottle of the Discovery and one half box of the pills wholly cured me. I would not be without these grand medicines at any cost.

The glorious, soothing, healing virtues of this remedy are felt at once on inflamed and diseased mucous membranes. It's the grandest Throat and Lung cure in the world. Price 50c and \$1.00. At all druggists. A trial bottle free. Every bottle guaranteed.

A YOUTH ASTRAY. A young lad about 10 years old, giving his name as Jos. Yankowsky, arrived here shortly before 6 p. m. last Wednesday, with a horse and buggy, which he claimed to have driven from his home near Pt. Washington. Upon arriving here he tied his horse to the hitching post in front of H. J. Lay's store, and then hung around the depot until the arrival of the 5:45 south-bound train, which he tried to board but was prevented from doing when the conductor learned that he had no ticket or money.

The youngster appears to be a bright fellow, speaking both English and German quite fluently, but when questioned as to the exact location of his home and time of departure therefrom, he fails to tell, though closely cross-questioned. However, he says that he dined at home last Wednesday noon, and that soon after his father hitched up the horse and sent him to the store to buy a pair of mittens for himself; that he lost his way and finally arrived here. He does not know what direction he came from, nor can he give the name of any neighbor to his folks or other information to definitely locate his home.

The horse which the lad has is a fine beast, about 3 years old, but appears to have been over-driven. LATER. The sheriff of Ozaukee county arrived yesterday, accompanied by Sheriff Schoenbeck of West Bend, and identified the rig as one which the boy's father hired of a Pt. Washington liveryman last Wednesday. The balance of the affair is still somewhat hrouded in mystery, however, as when the sheriff called at the place indicated by the boy's story, he found nobody home but a girl about 13 years old and a boy younger than the one who was here, and neither of them could give the officer the information which he desired.

The sheriff left for Port Washington yesterday, with rig and boy. Pepsin preparations often fail to relieve indigestion because they can digest only aluminous foods. CHAPTER LV.—(Continued.)

Here the poor woman breaks down, and bursts into a passion of tears.

Evelyn, as if she were a child, motions her to sit at her feet, and she goes over to Mrs. Vandrey, and kneeling down beside her, lays her head against her shoulder.

"Poor, poor fellow!" sobs Mrs. Vandrey. "Oh, my dear, what a godsend to me! You are my only comfort now. I am all out for you. It is to me he leaves it, in trust for the children. He loved Reginald—oh, how he loved him! He was well aware that if he left the money to Reginald it would drift away, sooner or later, and he loved him, and was determined to make him comfortable in spite of him."

"What a heart!" says Evelyn in a low tone. Her own tears are falling fast.

"I don't know," says Mrs. Vandrey, "I don't know, but I have never appreciated him half enough, though you and I, Evelyn, always saw the sweetness of his disposition. He had a heart that was just to him even in my thoughts would have broken my heart."

"I was not unjust, but I might have been more loving."

"My dear, I really don't think you have anything to reproach yourself with. He was a different man from the day you accepted him. It is certain that you made his last days entirely happy. That he should leave his money to you is a reasonable thing, because we could see how he cared for you; but that he should think of us!"

There is a long pause, during which the two women cry in a tender, reverential thought to the dead man.

"It lifts us out of poverty," says Mrs. Vandrey at length. "It is a blessing, and I shall be able to look down upon my life with a certain amount of satisfaction. There will be no sneers at him in future."

IN every country of the civilized world the Sisters of the Good Shepherd are known. Not only do they minister to the spiritual and intellectual needs of the charges committed to their care, but they also minister to their bodily needs.

With many children to take care of and to protect from disease and disease these wise and prudent Sisters have found Peru-na a never-failing safeguard.

Gentlemen—A number of years ago our attention was called to Dr. Hartman's Peru-na, and since then we have used it with wonderful results in grippe, colds and catarrhal diseases of the head and stomach.

"For grip and winter catarrh, especially it has been of great service to the inmates of this institution."—Sisters of the Good Shepherd.

The following letter is from Congressman Mackenzie, of Napoleon, Mo.

The Peru-na Medicine Co., City.

Gentlemen—I have used several bottles of

Peruna and feel greatly benefited thereby from my catarrh of the head, and feel encouraged to believe that its continued use will fully eradicate a disease of thirty years' standing. I am, Sir, your obedient servant, DAVID MECKLEN.

Dr. Hartman, one of the best known oculists and surgeons in the United States, was the first man to formulate Peru-na. It was a combination of the best of the old and a perseverance that it was introduced to the medical profession of this country. # GREAT BRITAIN LEADS IN WAR

The English are the Champion Campaigners of All the Nations.

Few people will be surprised to learn that Great Britain has been a long way ahead of other European nations in the great game of war during the present reign.

The wars, great and small, which this country has been engaged in, number in the neighborhood of sixty—or almost one for every year of the Queen's reign.

They include big wars, such as that on which we are still engaged—the Crimean war, the Indian war, the Egyptian war, the Sudan, China and Burma, besides such miscellaneous expeditions as the expedition in Chirral, the Black Mountain, Tochi and the Miranz valley.

There have been wars during the present reign which few people ever think of. Who now remembers that we once had a war with Persia? And yet it is comparatively not so long ago.

There have been three Chinese wars, these are startling facts and bring home to all of us the warlike character of the English race.

It is hardly an exaggeration to say that British guns have hardly ceased to thunder and British bayonets to strike terror into the enemy's ranks.

### TAKES OATH OF OFFICE.

Inauguration of Robert M. La Follette Witnessed by a Large Number of People.

Madison, Wis., Jan. 7.—[Special.]—Robert M. La Follette took the oath of office as governor of Wisconsin at 12 o'clock today. The inauguration of the governor and the other state officers took just two minutes.

When the official party entered the University boys gave their college yell. Mr. La Follette occupied the first seat at the right of the center aisle, opposite Mrs. La Follette and next to Gov. Scofield. The other state officers occupied seats in the front row.

The official party entered the chamber just a few minutes before 12 o'clock. Chief Justice Cassoday occupied the speaker's chair, with Judge Ryan of the state board of control and Senator R. M. Bashford on either side of him.

Mr. La Follette was the first native of Wisconsin to be elected governor, and that he had been elected by the largest vote ever given to a public officer in this state. He announced that he would present the new governor. The two men stepped into the clerk's desk, and Gov. Scofield said: "I now

present Robert M. La Follette, who holds the fullest confidence in his honesty and integrity, and who is now, as I understand it, prepared to take the oath of office."

He then took his seat with the band playing and the choir singing.

The governor's suite of rooms was elaborately decorated with large bunches of American Beauty roses and bowls of flowers, which outlined every doorway.

Mr. La Follette was accompanied by a few friends, and the procession arrived at the home of the governor-elect at about 11:45.

At five minutes to 12 Mrs. La Follette, accompanied by all her children, including the youngest, entered the capitol and was escorted to seats in the first row, by an usher with an immense cardinal badge.

Judge Siebeck came with Mrs. La Follette. The governor's suite of rooms was elaborately decorated with large bunches of American Beauty roses and bowls of flowers, which outlined every doorway.

# FRANCE THE TEUTONIC.

## Parts of the Republic Are as Much German as the Fatherland.

The northern third of France and half of Belgium are today more Teutonic than the south of Germany. This should not occasion surprise when we remember the incessant downpour of Teutonic tribes during the whole historic period. It was a constant procession of Goths—from all points of the compass—Franks, Burgundians and others.

France was entirely overrun by the Franks, with the exception of Brittany, by the middle of the sixth century. It was through the Middle Ages this part of France was German in language and customs as well. The very name of the country is Teutonic. It has the same name as the Teutonic north of Germany. In 812 the Council of Tours, away down South, ordained that every bishop should preach both in the Romance and Teutonic language.

The Franks preserved their German speech 400 years after their conquest. Charlemagne was a German. He lived and governed from outside the limits of modern France. The Abbe Sieyes entered an ethnological truism when, in the course of the French Revolution, he cried out against the French aristocracy: "We send them back to their German marshes where they came!"—London Express.

These are the words of the Hon. Moses R. Crane, Secretary of Odin Lodge, No. 123, I. O. O. F. of this city. The Hon. Mr. Crane is also Senior Vice-Commander of G. A. R. Post No. 5, Tacoma.

Those who know Mr. Crane have the fullest confidence in his honesty and integrity, and know that he would not give his unsolicited testimonial unless he had actually experienced the relief which he indicates in his letter. Dadd's Kidney Pills are having a wonderful sale among Mr. Crane's friends—and their name is legion—in this part of the country. There does not seem to be a single case of Heart Disease, Kidney or Bladder Weakness, or Rheumatism, that Dadd's Kidney Pills do not permanently cure.

In the Interest of Accuracy.

At a meeting of the Mansfield House settlement last night E. Allen, the warden, told a story of the mother of Robert Louis Stevenson. The widow of the novelist was telling how, in the island of Samoa, the old lady had taken walks with a native chieftain "who had killed thousands and eaten hundreds of men."

"Oh, Fanny!" exclaimed the novelist's mother in horror, "you know it was only a native!"—London Chronicle.
