from a cloud, a troop of the Horse guards wheeled out into the open, and, breaking from trot to canter, and from canter to gallop, dashed down in a whirlwind of blue and steel upon our unprepared squadrons. A crackle of hastily unslung carbines broke from the leading ranks, but in an instant the guards burst through them and plunged on into the second troop. For a space the gallant rustics held their own, and the dense mass of men and horses swayed backward and forward, with the swirling sword-blades playing above them in flashes of angry light. Then blue coats began to break from among the russet, the fight rolled wildly back for a hundred paces, the dense throng was split asunder, and the Royal guards came pouring through the rent, and swerved off to right and left through hedges and over ditches, stabbing and hacking at the fleeting horsemen. The whole scene, with the stamping horses, tossing manes, shouts of triumph or despair, gasping of hard-drawn breath and musical clink and clatter of steel, was to us upon the hill like some wild vision, so swiftly did it tome and so swiftly go. A sharp, stern bugic call summoned the Blues back into the road, where they formed up and trotted slowly away before fresh squadrons could come up from the camp. Barnum's Monkeys

"All well-all happy-lots Henry Wittenberg and Chas. Glass of fun". That is the regular report from the monkey cage f Barnum's Circus ever since the keepers began dosing the onkeys with Scott's Emulsion. Consumption was carrying off two thirds of them every year and the circus had

to buy new ones.

One day a keeper accidentlly broke a bottle of Scott's mulsion near the monkey age and the monkeys eagerly apped it up from the floor. This suggested the idea that it might do them good. Since hen the monkeys have received gular doses and the keepers port very few deaths from onsumption. Of course it's heaper to buy Scott's Emulsion than new monkeys-and hat suits the circus men.

Consumption in monkeys ed with it can you take the hint?

Miss Marion Cunningham, the Popular Young Treasurer of the Young Woman's Club of Emporia, Kans., has This to Say of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM: - Your Vegetable Compound cured me of womb trouble from which I had been a great sufferer for nearly three years. During that time I was very irregular and would often have intense pain in the small of my back, and blinding headaches and severe cramps. For three months I used Lydia E. Pinkham's Vegetable Compound, and aches and pains are as a past memory, while health and happiness is my daily experience now. You certainly have one grateful friend in Emporia, and I have praised your Vegetable Compound to a large number of my friends. You have my permission to publish my testimonial in connection with my picture. Yours sincerely, Miss Marion Cunningham, Emporia, Kans."

The last census showed that there were

against 3,224,494 spinsters—an excess of ried women. There was not any state in the Union that did not have more bachelors than single women, even Mas-sachusetts exhibiting a small fractional overplus of unattached males of marriageable age. To account for this situa-tion of affairs it was explained that the ass of the population of each state be ing paired off by marriage evenly as be-tween the sexes only a relatively small fraction of single persons old enough to marry was left over. In most states the male part of this fraction was much in excess of the female part. And it must also be remembered that women marry much younger than men.—Saturday

THE KANSAS PEOPLE ARE IN LOVE WITH WESTERN CANADA.

They Say the Land There Is the Finest on Earth. A great number of delegates have been influenced through the agency of Mr. J. S. Crawford, the Canadian Government representative at Kansas City, to visit Western Canada, and whether from Missouri or Kansas the story is always the same—they are pleased with the new country being opened up. Isaac H. Levagood writes from Dids-

bury, Alberta, as follows: "I met three delegates from Kansas resterday at Didsbury, and took them me with me and took them out in the afternoon and showed them some of the finest land that lays on top of God's green earth. They are more than leased with this country. They stayed th me last night; this morning I took em to Didsbury, and they went on north. When they come back they are coming to my place and I am going to help them to run some lines and they are going to locate in sight of my house. There have been over 1,200 acres of and changed hands here in our neighborhood this spring. When I located here last fall I was the furthest back of any of the settlers; to-day I am in the center of the settlement. We have thirty-six children that are of school age in our district, and we will have our school district organized next nonth, when we will proceed to build our school house. The longer we stay here the better we like the country; that is the way with everybody here, They all seem to be satisfied and doing well. I have talked with a great many men here and they told me that they had less than \$50 when they got here, and to-day they have got 160 acres of good land and five or six hundred dollars' worth of stock. Crops are looking fine here. I think this will be a good winter wheat country. One of neighbors has a small piece and it looks

spection and branding of renovated butter is as follows:
That the secretary of agriculture is here necessary, of all factories and storchouses where butter is renovated, and all butter renovated at such places shall be carefully inspected in the same manner and to the same extent and purpose that neat products are now inspected. The quantity and quality of butter shall be designated as such by marks, brands and labels and the words, "renovated butter" shall be printed on all packages thereof in such manner as may be prescribed by the secretary of agriculture and shall be sold only as renovated butter. No renovated butter shall be shipped or transported from one state to another or to foreign countries unless inspected as provided in this section.

The Grout bill did not go so far as this. It did not interfere with the right of the purchaser of oleomargarine to do whatever he pleased with his purchase.

whatever he pleased with his purchase whatever he pleased with his purchase. All the influence of the dairy union will now be concentrated upon the Senate to secure early action upon the bill, and there seems to be a strong likelihood, owing to the indifference of the oleomargarine manufacturers, that it will shortly become law.

REDUCES DUTY ON PAPER.

anadian Government Satisfies Re-Toronto, Ont., Feb. 13.—On complaint of the Canadian Newspaper association that a combine to raise prices existed among the Canadian paper manufacturers the Dominion government some time ago appointed a Supreme court judge to conduct an investigation. The judge now reports that an illegal combine exists and an order was issued reducing by 10 per cent, the duty on imported paper, with the intimation that should such reduction not have the desired effect the remaining duty will be removed. The manufacturers dispatched a delegation to New York to try and arrange American co-operation and the newspaper men met and decided to ask for free paper. quest of Newspaper Association.

Mules and Were Given a

Middlesboro, Ky., Feb. 13.—Nine are ead and others dying as the re-alt of a battle between officers from Middlesboro and mountaineers. The bat-tle, which was a desperate one, was fought between 4 and 6 o'clock yesterday afternoon at Lee Turner's "Quarter House" saloon, three and a half miles from Middlesboro.

Last month Turner had some mules and other goods levied on for a debt, and a few nights ago he with others went to Virginia, where the property was taken, secured what was formerly his, and returned to the "Quarter House."

House."

Deputy Sheriff Will Thompson summoned a posse of ten or fifteen men for the purpose of arresting Turner at his saloon. The Louisville & Nashville refused to convey the officers to the saloon, and they footed it through the mountains. Turner had heard that an attempt would be made to arrest him, and he and his men, fifteen in number, gave the officers a warm reception. The

Turner's surrender was demanded. His reply was a volley. Charley Cecil of Middlesboro was riding a pony in plain view of the Turner gang. Some one, who is believed to have been Mike Welch, Turner's bartender, raised a window of the log house and shot Cecil, who fell dead. Instantly the murderer fell back, pierced by a half dozen bu

Then the firing began in earnest. The officers, scattering and hiding behind trees and rocks, poured a galling fire into the mountain fortress. In the fight John Doyle, a former railroad man, was badly wounded, perhaps fatally, and Simon Bean, another ex-railroader, shot in the hand. The town men gathered closer around Turner's place while shots whizzed around them. New Yorkers Fear Prince Henry's Arrival will be Delayed by Bad Weather,

Kiel, Prussia, Feb. 13.—Mayor Low of New York has cabled to Prince Henry of Prussia, saying that Herr Wiegand, director-general of the North German Lloyd line, thinks that unless the Kron Prinz Wilhelm sails from Bremen earlier than 3 o'clock Saturday afternoon she will not be able to arrive at New York owing to the rough weather which prevails at this season of the year until late in the afternoon of February 22, too late in the afternoon of February 22, too late for the ceremony of the municipal wel-come and the presentation of the prince tributed to the universal direction with the deep roar of its naval gun.

This lasted some twenty minutes, when gradually the rattle died down until the crack of the single shots was heard. Then all was again quiet.

The Boers' attempt to break the British circle had failed. A few of them succeeded in crossing the line and among them was Gen. Dewet.

EYE'S BLIND SPOT.

Washington, D. C.

A Phenomenon Not Discovered Until the Time of Charles II.

If I wrote an article about the cyc and said nothing about the blind spot, which is where the optic nerve comes through into the retina, about one-tenth of an inch nearer the nose than the centr, I suppose my readers would go to the box office and demand their money back.

What a Woman Photographer Sees. A woman photographer, who gives as much thought to each portrait she makes as any portrait painter, says that she has a peculiar feeling in peering through the camera of looking into the souls of the sitters. Some people are able to stand this, and she likes them better after they have been put to the test, while others she does not like as well. She sees what the untouched photograph often reveals, the true character of the sitter unsoftened by color and with all the lines exaggerated. The portrait Just to be different from other people, though, I will not print a cross mark here and dot over there and tell you how to look at it so that the dot will disappear. I could make a big round spot to look at it so that the dot will disappear. I could make a big round spot more than three-quarters of an inch in diameter realize that it was only Mortal Mind and had no real entity, but I won't. Mind aid had no real entity, but I won't. I know a better scheme. Close your fists with your thumbs outside and held against each other. Extend your arms. Shut your left eye and look fixedly with your right eye at your left thumb. Separate your hands, and when they are about six inches apart the right thumb will go out of business temporarily, for its picture will fall upon the blind spot. Now, here's the curious part of it. Though men have tried all systs of ex-Though men have tried all sorts of ex-periments on themselves for unknown thousands of years, this phenomenon was not discovered until the time of Charles
