The two men were locked up and the Milwauke police notified in hopes that they will be identified.

The village marshal notified the sheriff and he and a deputy organized a posse to go after the third man. The men are scouring the country and it is thought that the man will be captured before nightfall.

The satchels which the men carried so carefully were examined and found to contain complete burglar outfits, drills, saws, nitro-gycerine and dynamite. From saws, nitro-gycerine and dynamite. Washington, D. C., Feb. 1.—An agreement whereby China gives any corporation or rompany the exclusive right or privilege of opening mines, establishing railroads, or in any other way industrially developing Manchuria can but be viewed with the gravest soncern by the government of the United States. It constitutes a monopoly which is a distinct breach of the stipulations of the rights of American citizens. It restricts their rightful trade, exposing the being discriminated against, interested with, or otherwise jeopardized, and strongly tends to permanently impair thina's sovereign rights in this part of the strongly tends to permanently impair China's sovereign rights in this part of the empire, while it seriously interferes with her ability to meet her international obli-

Furthermore, such a concession on China's part would undoubtedly be followed by demands from other powers for similar equal extensive advantages elsewhere in the Chinese empire, and the inevitable result must be the complete wreck of the policy of absolute equality of treatment to all nations respecting trade, navigation and commerce within the empire's confines.

On the other hand, the attainment by one power of such exclusive privileges for the commercial organization of its nationality conflicts with the assurances repeatedly conveyed to this government by the imperial Russian Ministry of Foreign Affairs of the imperial government's intention to follow the policy of the open door as advocated by the government of the United States and accepted by all the treaty powers having commercial interests in the empire.

Washington, D. C., Feb. 20.—It has been understood here from the outset that the terms of the British-Japanese China was submitted in advance to President Roosevelt and Secretary Hay and approved by them. Following out the traditional policy, however, of avoiding entangling alliances, the United States positively declined to become a party to any actual agreement concerning China.

When Lord Cranborne in the British Parliament last week declared there was

Parliament last week declared there was no doubt the British-Japanese agreement would command the full approval of the United States, he spoke by authority. The agreement between Great Britain and Japan was dated January 30. There is, therefore, deep significance that on February 1, two days after the treaty was signed, this country sent to Russia a note practically adopting the principle of the treaty as the policy of the United States. The agreement between Great Britain and Japan is largely a military one and provides for a joint use of force

Must Redeem Pledges. Secretary Hay's letter, of course, could ot go to that extent, but the substance of it as telegraphed leaves no doubt that Russia has been notified of the fact in strong diplomatic language that the mor-al support of the United States is with Great Britain and Japan and that this country will necessarily resent any failure on the part of Russia to redeem the pledge it made to President McKinley that the open-door policy should be applied to Manchuria.

Apparently Secretary Hay waited until the British-Japanese treaty was public so that the note of the United States might have all the weight of n indorsement of that treaty.

It is believed here also that German wrote a similar note to Russia and that while the Emperor was unwilling to par-ticipate in an alliance with England and Japan, he was not averse to letting the Czar know that Germany's commercial

interests in the Orient would be jealously It is expected, in fact, that Germany and the United States will be found to be occupying almost the same position, and thus the result will be that Russia and France will be arrayed on one side and Great Britain, Germany, Japan and the United States on the other.

BEAUTIFUL WOMEN WHO ENDORSE PERUNA.

Miss Lenore Allen, 407 Dowell street, San Francisco, Cal., writes

"I consider Peruna an infallible remedy for catarrhal diseases. For several years I have been troubled with influenza, especially during our rainy season. I used to catch cold so easily that I was afraid to be out when the weather was the least bit inclement, or in the evening air. But since I have used Peruna I have nothing whatever the matter with me.

"I am in perfect health, and find that Peruna acts as a tonic, and seems to throw all sickness and disease out of the body. I go anywhere now and in all kinds of weather, seem to have an iron constitution and enjoy life because I enjoy perfect health." LENORE ALLEN.

Miss Mattie Douglass, 138 Thomas ave., Memphis, Tenn., writes:

"From my early womanhood I have been troubled with occasional headaches. I took different powders and drugs, at times getting to myorary relief. One of the cures point of some severe pelvic derangement, causing much pain and suffering.

Every woman needs a remedy upon I took different powders and drugs, at times getting temporary relief. One of my friends advised me to try I'eruna, which I did. I soon found that my general health improved, and my entire system was toned up.

"I felt a buoyancy of body and lightness of mind I had not known before and my headaches have completely disappeared, and I have enjoyed perfect health for over a year. I gladly indorse Perruna."

ARE OWNERS OF A FINE MINE

There was an air of quiet elation prevalent yesterday in the offices of the Alta Mines company, in the Germania building, because of the constantly improving tenor of the reports received daily from Resident Manager Albert C. Koch, who has made his home in Telluride, Cole, within easy touch of the big Alta mine.

The company's principal stockholders, says the Milwaukee Sunday Sentifiel, are almost all citizens of Milwaukee, and the list includes such well-known names as those of former Mayor John C. Koch, who is vice-president of the John Pritz-laff Hardware company; Albert C. Blatz, president of the Blatz Brewing company; Postmaster Ellicott R. Stillman, Congressman Theobald Otjen, E. A.
