FOND DU LAC NEWS.

ANOTHER CROSSING ACCIDENT.
Fond du Lac, Wis., May 14.—[Special.]
Another serious accident, which came near ending in tragedy, occurred this morning at 6:55 o'clock at the Western avenue crossing of the Chicago & North Western tracks.

REVISED LIST OF VICTIMS.

Official Report Puts Number of Dead at 30,000.

MANY ARE HOMELESS.

United States Consul Ryme at Gaudelonne Writes Washington Concerning Martiniques Disaster.

Official reports place number of dead at Martiniques at 30,000.

It is estimated that 50,000 are homeless. It is reported from St. Lucia that the island of St. Vincent may have been destroyed by the eruption of Mont La Soufriere.

The news of the death of United States Consul Prens and his family is confirmed. United States Government has sent the Cruiser Cincinnati to Martinique.

United States Consul Ryme at Gaudelonne appeals to America to send aid to survivors.

Those who have entered St. Pierre report the disaster complete and say that the dead are piled in heaps too numerous to be counted.

L. Carbet, La Mara and Le Precheur, small cities near St. Pierre, were engulfed by the streams of lava and 14,000 people perished.

Fort de France reports that the survivors are nearly starving and have no food or water. Help is being sent. One thousand survivors have died since Thursday.

Washington, D. C., May 12.—Secretary Hay has received the following cablegram, dated May 11, from United States Consul Ryme at Gaudelonne, French West Indies: "The disaster is complete. The city wiped out. Consul Prens and his family are dead. Governor has 30,000 homeless. Estimated 50,000 are homeless and 14,000 perished. 50,000 are homeless and 14,000 perished. He suggests that the Red Cross be asked to send coffee, flour, beans, salt, meat and biscuits as quickly as possible. Visits of war vessels valuable."

An important feature of Consul Ryme's cablegram is the reference by him to the governor as an authority for the estimated loss of life. Preceding dispatches, including the official message received at the French consulate, had given the number of deaths as 10,000. The military commander at St. Pierre, had reported 10,000.

The navy department this morning was informed of the departure of the cruiser Cincinnati from St. Domingue, City of Martinique.

The navy department has been informed that the French government is going to Potomac from San Juan, Puerto Rico, for Martinique. She probably will arrive here on Monday night.

President Orders Relief Sent. The president, after a conference this morning with several members of his cabinet, has ordered that the treasury department to co-operate in the adoption of steps for the relief of Martinique and St. Pierre.

French Journalists Tell Story of the Horrible Destruction. Fort de France, May 12.—M. Franca, a French journalist of this city who went to St. Pierre last Thursday, wires as follows: "I have just landed from the ship Port-au-Prince with 150 persons from the city of St. Pierre. It is impossible to describe the devastation of the city and country. The north of the great volcano has been buried in a mass of lava. Everywhere in the fields, on the quays, the corpses are mingled with the debris of burned buildings."

IN THE RUINS OF ST. PIERRE. "I did not see a single live soul. The city is entirely demolished. The victims of the catastrophe number about 30,000."

Mont Pelee, which has several kilometers in length, is covered with lava, emitting clouds of smoke for some weeks before the eruption which destroyed the city. The lava is now about 200 feet high. A catastrophe might be expected. Parties of tourists went to view the spectacle.

On May 5 a violent eruption of smoking lava overpowered the Guerin factory, causing the death of 25 persons. The lava flowed in an expert toward the north of the island. An expert commission appointed by the government reported that the eruption was normal, and that St. Pierre was not endangered thereby.

A Rain of Fire. "Thursday morning at 8 o'clock a thick column of smoke was seen to rise from the mountain of St. Pierre. It fell immediately by a rain of fire which fell along the whole coast from the bay of St. Pierre to the bay of Le Corbel (the bay)."

A stream of lava, heated to incandescence, covered the city and the stretch from the coast-streets to the devastated area. Finally the ship set adrift and the lava covered the houses rescued from sailing vessels, which had been burned by the fall of fire. Most of them were horribly injured by the falling lava.

On Friday it was possible to land again on the island. The lava, which had been in the extension of St. Pierre and Mouton are in ruins. Not a single living soul was seen in the town. The lava, which is placed at 30,000 or more, most of them stricken down as they fled, entirely naked, through the lava on the street.

Bodies are Buried. "The stretch of the carbonic and sulphuric gases and that of the burning corpses was horrible beyond description. It was necessary to create the bodies dead as fast as possible, and to carry supplies to any refugees who may be found on neighboring islands."

The cable ship has brought here 450 persons who escaped at different points along the Martiniques coast.

The colony of French Guiana has sent help and started a subscription for the relief of the victims.

The cable ship is supposed to have been lost off the harbor of St. Pierre. It is in the north of the island and the crew are forming and the eruption continues.

The governor of Martinique and Mme. Mouton are among the victims. At Fort de France the sky is obscured by thick clouds of smoke. Stones as big as hazelnuts have fallen here, but there are no victims.

OTHER CITIES DESTROYED. Engulfed in Flow of Lava from Mont Pelee. Fort de France, Martinique, May 12.—Three smaller cities in addition to St. Pierre have been overwhelmed by the lava from Mont Pelee. They are Le Carbet, with a population of 6000, Le Precheur, with 4000, and La Mara, with 4000.

The whole northwestern part of the island, from Le Carbet, three miles south to the north of the island, six miles north, has been ravaged by the flow of fire, saving only the tops of the higher hills.

Flight of Refugees. On these hills 5000 refugees are gathered, as nearly as can be estimated. The lava has been burning for several days. Few of them have had a drink of water since the eruption began Thursday morning, and they are without food. Their sufferings must be a thousand-fold more awful than those of their fellows who were killed by the fire. It is recognized, so great is the mutilation and distortion.

Searching parties have found 3000 bodies on the site of the cathedral. All appear to have been asphyxiated at first. Not a soul was found alive in the whole town.

Progress of Volcano Appalling. Describing the destruction of the island city, the correspondent says that a stream of molten lava twenty feet high and half a mile wide, its progress was accompanied by a terrific roar, and a shower of Riviere Blanche, it reached the sea. The force of the impact was such that the sea receded for 200 feet for miles along the western coast. Loud detonations followed at short, irregular intervals. The lava was seen to flow over the mountain, while all the time the accompanying wind was. It continued to flow on Tuesday and Wednesday. On Thursday morning it was relatively still.

It sweeps over St. Pierre. St. Pierre was partly going on about

KILLED BY A SNAKE.

Little Girl Finds Reptile in Carriage with Baby.

GIVES LIFE FOR HIM.

She Attacks a Rattler and It Colls Itself Around Her Neck, Inflicting Death.

Little Grace Dickson, the 3-year-old daughter of Mr. and Mrs. C. Dickson, living across the river, was killed by a rattlesnake while trying to save her 3-year-old baby brother from a like fate.

The little girl was taking care of the baby, who was in a buggy on the front porch. She went into the house for a bunch and upon returning she brought rattlesnake in the buggy with the child.

She was trying to get it away with a broom when the snake coiled around her and she fell on her back, the snake striking and sinking its fangs in the flesh near the jugular vein. She rushed to her father who pulled her from the reptile's embrace and killed it.

The little heroine died in awful agony. The father, for whom she gave her life, was saved.

The story is told by the father, who came to Milwaukee for a coffin today.

Blood. SMITH BROS.

We live by our blood, and on it. We thrive or starve, as our blood is rich or poor.

There is nothing else to live on or by.

When strength is full and spirits high, we are being refreshed, bone muscle and brain, in body and mind, with continual flow of rich blood.

This is health.

When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutrition in it.

Back of the blood, is food, to keep the blood rich. When it fails, take Scott's Emulsion of Cod Liver Oil. It sets the whole body going again—man woman and child.

If you have not tried it, send for free sample, its agreeable taste will surprise you.

Don't Start Wrong. Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season.

One Minute Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it.

"One Minute Cure" is the best cough medicine I ever used," says J. H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly." All druggists.

Like a Drowning Man. "Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes Geo. S. Marsh, well-known attorney of Nocona, Tex. "I took quantities of pepsin and other medicines but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. All druggists.

Even where delay has aggravated the injury DeWitt's Witch Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Hartly, Yankeeetown, Ind. Don't Follow Advice After Paying for it. In a recent article a prominent physician says, "It is not impossible for the physician to get his patients to carry out any prescribed course of hygiene or diet to the smallest extent; he has but one resort left, namely, the drug treatment." When medicines are used for chronic constipation, the most harmful results obtainable, such as Chamberlain's Stomach & Liver Tablets, should be employed. Their use is not followed by constipation as they leave the bowels in a natural and healthy condition. For sale by L. Rosenheimer.

OBITUARY.

Died—Saturday, May 10, at 5:00 p. m., Mr. Edw. Assmann Sr., at his home in Kewaskum. Deceased was born in Derschan, Germany, April 2, 1842. He came to America in 1882 and has resided in the town of Kewaskum ever since, where he followed his trade. In 1889 his wife died leaving him with six little children to shift for themselves. He was advised to put them into an orphan asylum but he loved them too much for that so he took upon himself the responsibility of a mother, besides following his trade, and succeeded in bringing them up as respectable men and women. Coming home from his week's or day's labor you would see him mending old clothes or at the sewing machine making new ones. In the home he was always known for his cleanliness and order. In short he was a kind and loving father. After nearly three years of this labor he married his third wife who with three children also survives him. The funeral was held on Tuesday, Rev. Erber officiating. He was laid to rest at Gage's cemetery. Those from abroad in attendance were: Aug. Draheim and wife, of West Bend; Jacob Zoch and wife, of Richfield; Miss Hannah Assmann, of Milwaukee; Edward Assmann and wife, Fred and Ernest Assmann, of Plymouth, Wisconsin.

WHOOPIING COUGH.

A woman who has had experience with this disease, tells how to prevent any dangerous consequences from it. She says: Our three children took whooping cough last summer, our baby being only three months old, and owing to our giving them Chamberlain's Cough Remedy, they lost none of their plumpness and came out in much better health than other children whose parents did not use this remedy. Our oldest little girl would call lustily for cough syrup between whoops.—JESSE H. PRAXY HALL, Springville, Ala. This Remedy is for sale by L. Rosenheimer.
