The Admiral Makes a Statement Before Senate Committee.

DEWEY AND FILIPINOS.

Considered Aguinaldo an Unimportant Person and Uprising of Na-

tives as a Joke.

Washington, D. C., June 26.—Admiral Dewey made a statement before the Senate committee on Philippines today concerning the early operations at Manila, when he was in command of the American naval forces in the Philippine waters. The admiral's statement contributed an important addition to the history of the surrender of the city of Manila. This consisted of a positive statement by the admiral to the effect that the city had been surrendered to him at the time that the Spanish fleet was sunk and that when the city did surrender it was in when the city did surrender it was in the Spanish fleet was sunk and that when the city did surrender it was in pursuance of a definite understanding between himself and the Spanish governor-general.

The admiral was questioned by Senator Lodge. He said he had first heard from Aguinaldo and his friends about April 1. 1898, a month before the battle in Manila bay, when it became certain that there was to be war.

"I then heard that there were a number of Filipinos who desired to accompany the fleet to Manila," he continued. "All of them were young and earnest. I did not attach much importance to them or to what they said. The day before we left Hong Keng I received a them or to what they said. The day before we left Hong Kong I received a
telegram from Consul General Pratt,
located at Singapore, saying that Aguinaldo was at Singapore and would join
me at Hong Hong. I replied all right;
tell him to come aboard, but I attached
so little importance to the message that
I sailed without Aguinaldo and before he
arrived. There were then many prom-I sailed without Aguinaldo and before he arrived. There were then many promises as to what the Filipinos would do, but I did not depend upon them. Consul Williams assured me that upon our arrival and the firing of the first gun 30,000 Filipinos would rise. Noue did rise, and I frequently joked him on this point."

Admiral Dewey told about Aguinaldo's arrival, saying that he put him ashore and told him to organize his people. Aguinaldo came back discouraged, and Aguinaldo came back discouraged, and wanted to go to Japan, but the admiral told him to continue his efforts. The admiral said he paid no attention to Aguinaldo's first proclamation of independence of the Filipinos. Speaking of Aguinaldo's military operations he said he did wonderfully in whipping the Spanish.

Admiral Dewey said emphatically that he never had recognized Aguinaldo's gov-

The admiral said that when Aguinaldo was at the height of his power the British admiral. Seymour, had advised the Filipino chief to tie to the Americans, as they were his best friends. He said that when he let the Filipinos have guns and ammunition he thought it was a military necessity. Looking backward he could see that they were not needed. He considered them very ungrateful in turning against the United States. The admiral said he and not the Filipinos had captured Subig bay and he had taken possession because a German man-of-war was preventing Aguinaldo from passing.

CHASED BY A BEAR.

Elmer Beebe, Bayfield Cyclist, Has Exciting Time with Bruin While Riding His Wheel. Bayfield, Wis., June 26 .- [Special.]-Elmer Beebe, a homesteader living ter niles from here, had a thrilling experience yesterday while on his way to town, with a couple of cub bears and their mother. While riding along on a bicycle the two cubs came out into the road just ahead of him and spying him, started down the road on the run. Mr.

Beebe, seing that they were afraid of him, undertook to give them a chase. He had not gone far when he heard a crash behind him. He lo. bed around just in time to see the mother of the cubs emerge from the brush and take after him. As the road was rather double of him. As the road was rather dough at this point, Mr. Beebe had a hard time to keep out of the bear's way, and had not the cubs turned off into the woods and the old bear followed them just as they did Mr. Beebe would probably have not been here to tell the tale, as he was

about ready to give up. A short time ago a little child was chased into the house by a bear. The bear was shot and brought to town and FALLS FROM RAILROAD BRIDGE WHILE ASLEEP

ROCHAMBEAU'S CROSS.

It Stands for "Honor and Native Land" -Sentiments He Always Followed. The Rochambeau celebration has revived the charming story of how the

great man was admitted into the Legion

The order was instituted by Napoleon The order was instituted by Napoleon 100 years ago. The first great council of the legion unanimously decided to send the old hero a letter of admission, but Rochambeau by a gesture refused it, begging that it might be conferred on his son, Gen. Rochambeau, who was defending at that time Martinique against the English.

Time passed. When Napoleon was crowned Emperor he recalled the great charges of the ancient court, and distributed several grades of the legion.

He remembered the marshal and sent him a brevet of grand officer with a letter informing him that by his rank of ancient marshal of France he con-ferred on him this grade without mak-ing him pass by the inferior grades. The old marshal was obliged this time to accept. He was for that matter in bed on cept. He was for that matter in bed on his property of Rochambeau, and he wrote on this occasion these beautiful and simple words: "The device of the cross is 'Honor and Native Land.' I have always professed these sentiments with loyalty during my military career."

Progress of the African Railway. The Cape of Cairo railway has been completed as for as the Zambesi, where a great steel bridge, having one span of 500 feet, will carry the line across the river at the Victoria falls. The whole section from Bulawayo to the Zambesi, 275 miles in length, or nearly 1700 miles from Cape Town, is expected to be open next year.

Hand-Made Marbles. In the city of Tacoma some scientific sharps have discovered a way to do in two days what it has heretofore taken two days what it has heretofore taken nature a million years to accomplish, according to geologists. Gypsum is what has been called for convenience "young marble"—that is, if left to itself some thousands or millions of years it would become marble. These Tacoma sharps are now shaping their gypsum with lathes and chisels—it is soft and easily worked—and then subjecting it to a se-cret treatment which makes it really marble of a very high quality. The gypsum is brought from mines in Alaska. It is said to be exactly the same substance as goes to form marble.—Savanuah News.

She Suffered for Years and Felt

Her Case Was Hope-

"I suffered for years with a pain in the small of my back and right side. It interfered often with my domestic and social duties and I never supposed that I would be cured, as the doctor's medicine did not seem to help me any. "Fortunately a member of our Or-der advised me to try Peruna and gave it such high praise that I decided to try it. Although I started in with little faith, I felt so much better in a week

"I took it faithfully for neven weeks and am happy indeed to be able to say that I am entirely cured. Words fail to express my gratitude. Perfect health once more is the best thing I could wish for, and thanks to Peruna I enjoy that now."-Minnie E. McAi-
