SATURDAY, JULY 19, 1902.

The United States army is the only one in the world which has a regular organized female nurse corps. The nurses wear a prescribed uniform of white with the Geneva cross in green with gilt edges on the collar and left sleeve.

There is in use, in Springfield, Mass., a "trolley car" which conveys fire engines to fires. The platform of the car is only 9 inches above the street level and by detaching one truck, which is placed at the end, the platform becomes an inclined plane on which the engine is quickly rolled.

It is announced that an engineer in the Canary Islands has discovered a method of extracting electricity from the atmosphere without the use of chemicals, dynamo or motive force. This is what Franklin did with his kite, but the question arises, is the newly discovered method commercially practicable?

The President gave to Senator Lodge the pen with which he signed the Philippine bill and later the Senator gave it to Senator Buencamino who begged him for it. When complimented on his generosity, by a newspaperman, the Senator said, sotto voce, "I was afraid he would weep if I didn't let him have it."

SCIENTISTS are constantly discovering hygienic value in old-time customs. The lenten fast, presumably adopted for religious reasons, has been declared to be most beneficial to health and now the physicians are prescribing the extensive use of knitting needles as a remedy for rheumatic fingers and those liable to digital cramp.

RECENT statistics have been compiled which prove that homicidal crimes are far more prevalent in isolated districts than in what are generally referred to as congested centers. It is a well known fact that cases of insanity, particularly among women, are most numerous in sparsely settled districts. "It is not good for man to be alone" or woman either.

PERHAPS English conservatism never took a more amusing form than recently, when a British coroner held an inquest over a mummy because the owner could produce no death certificate. After the inquest the corpse was pronounced dead "because the coroner sat on it" and as he ruined the mummy the owner has brought suit for heavy damages.

ACCORDING to the provisions of a bill passed during the closing hours of Congress, \$100,000 will be expended in erecting on Lafayette Square, in Washington, statues of Count Pulaski and Baron Steuben. This square is opposite the White House and on the two corners nearest to the White House stand the statues of Lafayette and Rochambeau.

The erection of statues to the foreign heroes who rendered assistance to the United States in her military necessities is not without its commercial aspect. As these monuments serve to promote good feeling between this country and the lands from which the heroes came, so they serve to facilitate commercial relations and they also make for universal peace.

Vacation Days. Vacation time is here and the children are fairly living out of doors. There could be no healthier place for them. You need only to guard against the accidents incidental to most open air sports. No remedy equals DeWitt's Witch Hazel Salve for quickly stopping pain or removing danger of serious consequences. For cuts, scalds and wounds, "I used DeWitt's Witch Hazel Salve for sores, cuts and bruises," says L. B. Johnson, Swift, Tex. "It is the best remedy on the market. Sure cure for piles and skin diseases. Beware of counterfeits. All druggists.

Cut this out and take it to L. Rosenheimer's store and get a box of Chamberlain's Stomach & Liver Tablets. The best physic. They also correct disorders of the stomach. Price 25 cents.

The Best Liniment for Strains. Mr. F. H. Wells, the merchant at Deer Park, Long Island, N. Y., says: "I always recommend Chamberlain's Pain Balm as the best liniment for strains. I used it last winter for a severe strain in the side, resulting from a strain, and was greatly pleased with the quick relief and cure it effected." For sale by L. Rosenheimer.

"I am using a box of Chamberlain's Stomach & Liver Tablets and find them the best thing for my stomach I ever used," says T. W. Robinson, Justice of the Peace, Loomis, Mich. These Tablets not only correct disorders of the stomach but regulate the liver and bowels. They are easy to take and pleasant in effect. Price 25 cents per box. For sale by L. Rosenheimer.

Acts Immediately. Colds are sometimes more troublesome in summer than in winter, it's so hard to keep from adding to them while cooling off after exercise. One Minute Cough Cure cures at once. Absolutely safe. Acts immediately. Sure cure for coughs, colds, croup, throat and lung troubles. All druggists.

The Mayville Marble & Granite man was here Thursday and erected a fine monument in the St. Paul's cemetery for Peter Ross. A barn dance was held at Wm. Wesenberg's place last Saturday evening which was largely attended and a royal good time was had by all who attended.

A Cure for Summer Complaint. Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of every family. This is not intended as a free puff for the company, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer time.—Lansing, Iowa, Journal. For sale by L. Rosenheimer.

ASHFORD ACTIONS.

Katie Straub is visiting the J. Straub family this week. A. Mueller and wife, of St. Kilian, were callers here last Sunday. Freda Strobel, of St. Kilian, was a caller in our burg last Sunday.

Mother Always Keeps it Handy. "My mother suffered a long time from distressing pains and general ill health due primarily to indigestion," says L. W. Spalding, Yeroma, Mo. "Two years ago I got her to try Kodol. She grew better at once and now, at the age of seventy-six, eats anything she wants, remarking that she fears no bad effects as she has her bottle of Kodol handy." Don't waste time doctoring symptoms. Go after the cause. If your stomach is sound your health will be good. Kodol rests the stomach and strengthens the body by digesting your food. It is nature's own tonic. All druggists.

Long Hair
"About a year ago my hair was coming out very fast, so I bought a bottle of Ayer's Hair Vigor. It stopped the falling and made my hair grow very rapidly, until now it is 4 1/2 inches in length."—Mrs. A. Boydston, Atholton, Kans.
There's another hunger than that of the stomach. Hungry hair needs food, needs hair vigor—Ayer's. This is why we say that Ayer's Hair Vigor always restores color, and makes the hair grow long and heavy. \$1.00 a bottle. All druggists.
If your druggist cannot supply you, send one dollar and we will agree you a bottle. Be sure and give the name of your nearest express office. Address, J. C. Ayer & Co., Lowell, Mass.

APPLE BLIGHT. Numerous inquiries have recently been received at the Station regarding injury to apple and pear trees. Affected twigs have usually been enclosed which were black and shriveled, the attached leaves being browned as if by fire. The injury in every case was caused by "blight."
WHAT IS BLIGHT? The disease known as "blight, pear blight and fire blight," is a contagious bacterial disease attacking the apple, pear, quince and allied fruits. It frequently attacks the wild crab and is occasionally found on the Mountain Ash.
WHAT IT DOES. Blight assumes two different modes of attack known as twig blight and blossom blight, the cause of the two being the same. In the case of the new shoots, growth of the current season, are affected; in the latter the blossoms and fruit spurs are destroyed and commonly a portion of the adjoining main branches.

THE CONDITIONS THAT FAVOR BLIGHT. A wet season favors blight; a dry season hinders it; a very dry season entirely checks it. The blight microbe survives in the buds and in the latter the blossoms and fruit spurs are destroyed and commonly a portion of the adjoining main branches. Heavy pruning during the dormant period induces a strong growth of new wood and thus the development of the blight germ. Trees heavily manured with barn-yard manure are apt to be more affected than those not so well fed. Trees that are well cultivated often blight more than those growing in soil.
HOW DISTRIBUTED. Blossom blight is undoubtedly distributed by bees and other insects that collect honey and pollen. The blight germs find lodgment in the nectary where they multiply rapidly and are carried from tree to tree at blossoming time. The blight microbes are held together by a sticky substance and are not therefore readily disseminated by the wind.

REMEDIES. As the blight organism works wholly in the inner tissues of the plant, it is not possible to control it by spraying. The only remedy at present known, is to remove and destroy, by burning, the affected twigs. As the blight does not, presumably, live over winter in the ground, it may be checked if not eradicated by this method. Usually the blight progresses more rapidly during the period of most rapid growth of the trees and generally stops at the end of the growing season. At this time there is usually a distinct line of separation between the live and dead wood. All parts below this line are healthy and may be preserved. In some cases, however, especially those that appear late in the season, the line of demarcation is not distinct, and the field of injury blends gradually with that of un-injured bark. It is probably that the blight is carried over winter by these insects as the germs are not susceptible to cold and receive sufficient moisture for their maintenance from the sap of the tree. It is essential then to exercise great care in cutting to remove these cases of "hold-over" blight. In removing blighted twigs it is advisable to cut far enough back to insure the removal of all affected tissues. The removal of six inches of sound wood below the line of separation is not too much. This work is best done in the fall before the leaves have fallen as the blighted twigs may then be cut and readily preserved. The shears or other cutting instruments should be dipped frequently in an antiseptic solution to guard against transferring the disease to unaffected branches. A five per cent. solution of Formalin will answer the purpose. A cloth moistened with this may be carried and used to wipe the shears. In the case of blossom blight on old trees nothing of value can be done as the disease extends through the fruit spurs to the main branches. It does not follow that such trees will be killed as the disease may not progress far enough to girdle the main branches only affecting the portion adjoining the spurs, in which case recovery may be expected with no further damage than the loss of the fruit spurs.

The rate to Fond du Lac has been fixed at 10 cents for messages by the Theresa Co. —Jeweler Mat. Bruhy has had a wonderful clock on exhibition at his store for the past week, which is owned by John Harter, and was brought to Mr. Bruhy's store for repairs. The clock is of the old Schwartz-walder style and is run by weights. Besides striking the hours of the day it rings the Angelus at 5 a. m., 12 m., and 6 p. m. The dial represents a church and in the belfry is the figure of a monk who pulls the rope that rings the Angelus.

—Chas. J. Fleischmann, the butcher, had the misfortune of breaking his leg above the ankle last Saturday evening. Mr. Fleischmann was going up a ladder to look in his ice box when the rung on which he stepped broke and he fell to the ground in such a way as to break his leg. Mr. Fleischmann is certainly having his share of hard luck lately. He is also suffering with a very sore hand which he injured a few weeks ago and blood poison has set in since. —Quite a number of base ball enthusiasts accompanied our team to Fredonia last Sunday where the latter proceeded to do up the team from that place by a score of 16 to 2. The Fredonia boys considered themselves pretty strong until they ran against our aggregation and now they are wondering how it happened. Miller was in the box for our boys and did some excellent work, striking out fifteen men and allowing only five scattered hits. The whole team were in the best of shape and put up a good grade of base ball. Following is the score by innings: Kewaskum.....2 1 6 0 2 1 0 2-16 Fredonia.....0 0 0 0 0 0 2 0-2 —Last Sunday I. H. Heller, of Chicago, whose family is now spending the summer at Cedar Lake, had his coachman, John Larsen, take a fine road mare from Chicago to their summer home. He was met near Richfield by three men in a rig. They stopped in front of Mr. Heller's man and after a short conversation with the driver grabbed him and it is thought drugged him. They took the horse and disappeared. Larsen recovered his senses the next morning and reported the case to Sheriff Schoenbeck. Later reports state that a farmer in the vicinity of Richfield had found the horse owned by I. H. Heller, the Chicago packer, which John Larsen, his groom, claimed had been stolen from him while driving it from Chicago to Cedar Lake. The police always were of the opinion that Larsen went to sleep the night he claimed to have been chloroformed by the three masked men and that the horse, unhitched, strayed away. They believe that Larsen concocted the hold-up theory in order to protect himself. —BEECHWOOD BEAMLETS. J. Glander Sundayed with Wayne friends. Golda Stahl is visiting her grandparents. Dr. E. A. Miss Ida M. Snyder, Treasurer of the Brooklyn East End Art Club. "If women would pay more attention to their health we would have more happy wives, mothers and daughters, and if they would observe results they would find it is the doctor's approach to do not perform the many cures they are given credit for. "In consulting with my druggist he advised McEler's Wine of Cardui and Thedford's Black-Draught, and so I took it and have every reason to thank him for a new life opened up to me with restored health, and it only took three months to cure me." Wine of Cardui is a regulator of the menstrual functions and is a most astonishing tonic for women. It cures scanty, suppressed, too frequent, irregular and painful menstruation, falling of the womb, whites and flooding. It is helpful when approaching womanhood, during pregnancy, after childbirth and in change of life. It frequently brings a dear baby to homes that have been barren for years. All druggists have \$1.00 bottles of Wine of Cardui. WINE OF CARDUI. Don't be persuaded into taking something said to be "just as good" as Madison Medicine Co.'s Rocky Mountain Tea. SURGICAL OPERATIONS

How Mrs. Bruce, a Noted Opera Singer, Escaped an Operation. Proof That Many Operations for Ovarian Troubles are Unnecessary.

DEAR MR. PINKHAM:—Travelling for years on the road, with irregular meals and sleep and damp beds, broke down my health so completely two years ago that the physician advised me to take complete rest, and when I had gained

insufficient vitality, an operation for ovarian troubles. Not a very cheerful prospect, to be sure, but my friends advised me to try Lydia E. Pinkham's Vegetable Compound and Sanative Wash. I did so, fortunately for me. Before a month had passed I was cured, and I have been in perfect health since. I did not lose an engagement or miss a meal.

My friends and I are all well. I am now in perfect health. I did not lose an engagement or miss a meal.

SPLIT IN RACINE CHURCH.

Members of St. Rose Congregation are divided. The trouble is caused over the selection of site for the new building to be erected.

Racine, Wis., July 16.—[Special.]—There is a fight being carried on among the members of the St. Rose Catholic Church of this city, all on account of the purchase of a site for a new church building.

The church property will be split in two, one part being sold to the church congregation and the other part being sold to the school board.

Some months ago the priest, Rev. Father Thomas Johnson, informed the people of his parish that a new church was needed and asked them to contribute to the purchase of a site.

Every man should read one good newspaper each day. I do not mean, of course, that he should read everything in it; but he should go over the entire contents, carefully making his selections and reading attentively the articles which interest him.

The Greatest Machine Shops in the World

are now being built at West Allis, Wis., by the Allis-Chalmers Company. Besides this mammoth plant, which will employ 5000 men, the following other industries are already located at West Allis: Milwaukee Electric Co., 500 employees; Fred M. Prescott Steam Pump Co., 250; Kearney & Trecker, 150; Shaw-Gerlinger Steel Casting Co., 100; West Allis Malleable Iron & Chain Belt Co., 250. With 6500 men at work in these great shops West Allis will be a city in Wisconsin. This will be the nucleus of a city of 75,000 to 100,000 population.

A CHANCE TO MAKE MONEY. The assured future of West Allis as a great industrial center means that real estate values will increase rapidly. Indeed land in this new city affords the safest and most profitable investment that is open to the public. This is no mere booming of a suburban tract of land. The shops built here are those of solid and established companies, forced by increasing business to build larger and more roomy sites than could be had within the city limits of Milwaukee. West Allis has a substantial value in every one of the new buildings now going up means money in the pocket of the early investor. The price of lots will beyond doubt double in a short time.

HON. THEOBALD OTJEN, Member of Congress. W. H. SHENNERS & Co., CHAS. F. PULLEN, Cashier of German-American Bank. C. S. OTJEN, architect selected by the Allis-Chalmers Company. They have plotted this tract, in the excellent streets, laid sidewalks, and as fast as possible are building houses for workmen employed in the great shops. Nowhere else can certain employment be secured so easily as at West Allis. Choice lots are being sold at prices ranging from \$25 to \$500, with very liberal terms of payment. Beyond question these lots will be worth from \$500 to \$1000 a piece in a year from now. You can make no other investment so safe, sure and profitable. Titles are perfect and every purchaser receives a complete abstract. A postal will bring full details and a booklet giving an interesting account of the greatest machine shops in the world.
