BRITAIN IS IRRITATED.

Angry Over Statements in the Recent Manifesto Issued by the Boer Generals.

London, Sept. 25.—The tone and contents of the manifesto of the Boer generals, which was issued in the form of an appeal for contributions to repair the damage of war has caused indignation here and has caused much sympathy which has hitherto been felt for the Boer people.

The statement that 20,000 homes were burned is declared to be a gross exaggeration. Complaint is made that while the document presents the case against Great Britain in the worst possible light, it dishonors the Boer people.

Nothing Like Oil.

"In dealing with man, remember that a spoonful of oil will go farther than a gallon of vinegar." The same may be said of children. There is nothing so good for children as the old-fashioned castor oil. However much they may abhor it, it is their best medicine for disorders of the bowels. In the more severe cases of diarrhoea and dysentery, however, Chamberlain's Colic, Cholera and Diarrhoea Remedy should be given after the oil operates, and a quick cure is sure to follow. For sale by L. Rosenheimer.

Poorly?

"For two years I suffered terribly from dyspepsia, with great depression, and was always feeling poorly. I then tried Ayer's Sarsaparilla, and in one week I was a new man."—John McDonald, Philadelphia, Pa.

Don't forget that it's "Ayer's" Sarsaparilla that will make you strong and hopeful. Don't waste your time and money by trying some other kind. Use the old, tested, tried, and true Ayer's Sarsaparilla. \$1.00 a bottle. All druggists.

Ask your doctor what he thinks of Ayer's Sarsaparilla. He knows about this great old family medicine. Follow his advice and you will be satisfied. J. C. Ayer & Co., Lowell, Mass.

Fashions change in portraiture as in everything else. In the 16th century literary men were depicted wearing dressing gowns and night caps, in the 17th century their portraits showed them as howling swells with full-bottomed wigs, today they are photographed at mahogany desks with a fountain pen in one hand and a typewriter, or a phonograph, nearby.

Water Cure for Chronic Constipation.

Take two cups of hot water half an hour before each meal and just before going to bed, also a drink of water, hot or cold, about two hours after each meal. Take lots of outdoor exercise, walk, ride, drive. Make regular habit of this and in many cases chronic constipation will be cured without the use of any medicine. When a purgative is required take something mild and gentle like Chamberlain's Stomach and Liver Tablets. For sale by L. Rosenheimer.

A Sad Disappointment.

Ineffective liver medicine is a disappointment, but you don't want to purge, strain and break the glands of the stomach and bowels. DeWitt's Little Early Risers never disappoint. They cleanse the system of all poison and putrid matter and do it so gently that one enjoys the pleasant effects. They are a tonic to the liver. Cure biliousness, torpid liver and prevent fever. All druggists.

Noblesse oblige is a motto to save any aristocracy from abuse. The 400 is mainly an aristocracy of grade wealth, but their immities would do little harm if the newspapers ceased to advertise them.

Dress does not make the person. Nor does a clean exterior indicate a clean interior. To be well all organs of the body must work in harmony. Rocky Mountain Tea does this work. Miller & Son.

Chinese recruits must be between 20 and 25 years old, able to lift 100 pounds with both hands as high as the shoulder, 4 feet 8 inches in height and able to run 7 miles in an hour.

When once liberated within your system, it produces a most wonderful effect. It's worth one's last dollar to feel the pleasure of life that comes by taking Rocky Mountain Tea. Miller & Son.

High School at Kewaskum.

The pupils of the high school department who took examinations, were jubilant Wednesday upon hearing that they had been successful in their undertaking.

The required number of pupils having passed for the establishment of a high school under state regulations. The question of establishing a high school here will be submitted to the voters of the district at a special school meeting held in the school house Thursday evening, October 2nd.

Kewaskum is one of the few towns of the state with a population of 800 that has not a high school, but it is hoped that the people of the district will avail themselves of this opportunity to establish one.

Pupils who had finished the common branches in the graded school here were obliged to go without a high school education because those who desired a higher education were compelled to attend West Bend or some other place.

Everyone is aware of the fact that a law passed by the late legislature provides that pupils who have completed the common school branches, and where there is no high school in the district, may attend one in some other town and the village is obliged to pay their tuition.

By establishing a high school here it will save the tuition of the pupils who would otherwise attend some other high school. It is hoped that every voter interested in education and in the progress of the village will be present.

National Fish Hatchery at Cedar Lake. Congressman S. S. Barney expects at the next session of congress to obtain for Wisconsin a branch of the national fish hatchery.

If he is successful, the hatchery will probably be established at Cedar Lake. At the last session of congress Congressman Barney succeeded in inserting a provision for a hatchery in Wisconsin in the omnibus bill, which provided for branch hatcheries in about a dozen states.

This bill was favorably reported to the house by the committee on marine and fisheries, but congress adjourned before action upon it was taken.

Congressman Barney proposes to take the matter up just as soon as congress meets and endeavor to bring about favorable action. If he is successful he will ask the administration to establish the hatchery at Cedar Lake, where his summer home is located.

The lake is said to be admirably adapted to such a purpose. The bill reported at the last session provided for an appropriation of \$25,000 for a hatchery in Wisconsin.

It would be devoted largely to supplying black bass and brook trout. Wisconsin would not have any more claim to its product than would any other state, but as a matter of fact the intention is to establish a branch of the national hatchery in every state in the country, and eventually the hatchery would be devoted exclusively to supplying the lakes and streams of Wisconsin.

Weekly Crop Bulletin. The frosts of the past two weeks have practically prevented further growth, and while there is a feeling of disappointment over the failure of late corn and potatoes to fully mature, the general results of the season's work are mainly satisfactory.

As threshing progresses the yields, while not quite so large as anticipated from the large amount of straw, are very good and the quality of the grain fair. Hay is plentiful and of good quality.

The week has been quite favorable for cutting corn and this work has progressed rapidly. The frosts of last week did great damage to the crop generally, while the frosts of Thursday and Friday morning practically killed the remainder of the late crop except in a few of the southern counties and along the lake.

There will be very little sound corn secured, and in some sections the value of the stalks as feed has been materially lessened by the frost.

The digging of potatoes is in progress, and the yield is generally satisfactory. The late crop was badly injured by the frosts, and there appears to be more than the usual complaint of rotting in the hill. The early crop is generally very good both in quality and yield.

The preparation of the ground for fall grain has been interfered with to some extent by the dry weather, which rendered ploughing difficult. In some sections where there was sufficient moisture winter wheat and rye was sown about two weeks ago and is now up and presents a healthy and thrifty appearance.

CLOTHING. High grade clothing does not mean high priced clothing, necessarily. Of course one may go to a tailor, be measured, select a piece of goods, decide on the style, the linings and other accessories of high grade clothing. In due time comes a fitting. Perhaps it fits—quite often it does not, certainly it is expensive. In the higher grades of ready-to-wear garments, one may procure the same fabrics, equally good workmanship and usually more striking styles that can possibly be had of any but the best merchant tailors. What is sometimes more important, there is a remarkable difference in price in favor of the ready-to-wear kind. We show a complete clothing stock in our department and will guarantee a perfect fit. Prices \$5.00 to \$24.00.

Mrs. Fred Unrath, President Country Club, Boston. "After my first baby was born I did not seem to regain my strength although the doctor gave me a tonic which he considered very superior, but instead of getting better I grew weaker every day. My husband insisted that I take Wine of Cardui for a week and see what it would do for me. I did take the medicine and was very grateful to find my strength and health slowly returning. In two weeks I was out of bed and in a month I was able to take up my usual duties. I am very enthusiastic in its praise."

Wine of Cardui reinforces the organs of generation for the ordeal of pregnancy and childbirth. It prevents miscarriage. No woman who takes Wine of Cardui need fear the coming of her child. If Mrs. Unrath had taken Wine of Cardui before her baby came she would not have been weakened as she was. Her rapid recovery should commend this great remedy to every expectant mother. Wine of Cardui regulates the menstrual flow.
