police were busy Saturday looking The police were busy Saturday looking for a holdup man, but they didn't get one. The reason for their failure in this instance was that the story was a bluff "huig" by a traveling man for the purpose of obtaining a loan of money. On the strength of his story he borrowed \$10 from a fellow drummer and in the parlance of the crooks "flew the coop." The man gave his name as Arthur T. Wedge and claimed to be in the employ of the American Sponge Company of Chicago. It was discovered after his departure that he had lost money in several parture that he had lost money in several gambling places and had been compelled to work a fake game in order to get enough cash to get out of town with.

Boy Burglar Arrested Again. Carl Marske, the 13-year-old boy who recently completed a term in the reform school on the charge of burglarizing the ongdin & Brugger store on Second street, was again arrested last week on the charge of stealing two revolvers from a member of the Grace Hayward Com-pany stopping at the Lewis House. The lad had worked a clever scheme where-by he disposed of the revolvers to a local pawnbroker. The lad was arrested and the property located and returned.

the evening of October S she was found by Officer Green sleeping in the Bassett barn on Macey street. She was taken into custody and on the following day was confronted with the charge of being drunk and disorderly, and under the name of Lily Farr was sentenced by Justice Blewett to twenty days' imprisonment in the county jail.

She was released from jail Saturday and Saturday evening applied for employment at the residence of Emil Miller at North Fond du Lac. Mr. Miller states that he had agreed to give her employment, but that she came to his place in a badly intoxicated condition and he acceptable was insane and that it rightfully belonged to her.

Mrs. Broecker became insane and was placed in an asylum. A year later Mr. Broecker died. William O. Thomas was named as the executor. Under orders of the couple which has lived together without quarreling, the prize would undoubtedly go to Mr. and Mrs. John lams of Washington county, Ia. They have been married for seventy-four years and protest that he believed the money was placed in the mattress by Mrs. Broecker while she was insane and that it rightfully belonged to her.

Another club woman, Mrs. Haule, of Edgerton, Wis., tells how she was cured of irregularities and uterine trouble, terrible pains and backache by Lydia E. Pinkham's Vegetable Compound.

"A while ago my health began to fail because of female troubles. The doctor did not help me. I remembered that my mother had used Lydia E. Pinkham's Vegetable Compound on many occasions for irregularities and uterine troubles, and I felt sure that it could not harm me at any rate

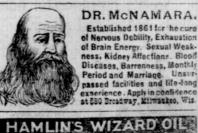

"I was certainly glad to find that within a week I felt much better, the terrible pains in my back and side were beginning to cease, and at the time of menstruation I did not have nearly as serious a time as hereto-fore, so I continued its use for two months, and at the end of that time I was like a new woman. I really have never felt better in my life, have not had a sick headache since, and weigh 20 pounds more than I ever did, so I unhesitatingly recommend Vegetable Compound."-MBS. Discovery of Coal. It is just a century ago that Daniel Fell made the first successful test of hard coal in Luzerne county, Pa., for heating purposes. It is said that the Indians knew of the "black stones" and made pipe bowls of them. Moravian missionaries early came across the strange mineral in their long jonrneys through the woods. Even after the coal the hall that evening. It was like most Kursaal concerts; the performers were worse than mediocre.

"Oh, come, Miss Wilkinson" protected the first successful test of kursaal concerts; the performers were worse than mediocre.

Yet Maimie listened with rapt attention to a haggard-looking woman, who sang worse, if possible, than any who had preceded her.

"Here I am, Lady Musgrave," announced. "Capt. Scrope sai wanted me." strange mineral in their long jonrneys through the woods. Even after the coal had begun to be mined it was difficult to sell any. The people did not understand how to use it and asserted that it would not burn. Signed certificates that "stone coal will burn" had to be sold intending purchasers. Even as late as 1821 the Lehigh and Navigation Company sent but 265 tons to Philadelphia. Hard coal was first successfully used at the wire mills of White & Hazard. Falls of Schuylkill, through an accident in December, 1814. The coal cost \$28 a ton. But the men could not ignite it. In exasperation they pitched a quantity of coal into a furnace, shut the doors and went about some other work. Some hours later the furnace doors were found to be red hot and the interior a mass of fire. William Henry, a manufacturer of muskets near Nazareth, had secured muskets near Nazareth, had secured some of the coal in 1798 for his forges. His blacksmith told him the neighbors called him a fool for trying to burn the "black stones." In 1808, however, he built a mill and successfully used hard coal in it.

Cost of Shah's Tour.

An inference as to the cost of the Shah's tour in Europe may be drawn from the fact that in February, before leaving Teheran, he arranged for a new Persian lean of \$5,000,000. His Majesty's holiday in 1900 is said to have cost \$2,000,000 apart from large purchases of real estate and artificial jewelry. But the father, the Shah Nasred-Din, spent \$10,000,000 during his 6-months' progress through Europe in 1873.
