Mrs. Emmons, saved from an operation for Ovaritis, tells how she was cured by Lydia E. Pinkham's Vegetable Compound.

"I am so pleased with the results I obtained from Lydia E. Pinkham's Vegetable Compound that I feel it a duty and a privilege to write you about it."
"I suffered for over five years with ovarian troubles, causing an unpleasant discharge, a great weakness, and at times a faintness would come over me which no amount of medicine, diet, or exercise seemed to correct. Your Vegetable Compound found the weak spot, however, within a few weeks—and saved me from an operation—all my troubles had disappeared, and I found myself once more healthy and well. Words fail to describe the real, true grateful feeling that is in my heart, and I want to tell every sick and suffering sister. Don't dally with medicines you know nothing about, but take Lydia E. Pinkham's Vegetable Compound, and take my word for it, you will be a different woman in a short time."
—Mrs. LAURA EMMONS, Walkerville, Ont. —\$5000 forfeit if original or false letter proving genuineness cannot be produced.

Don't hesitate to write to Mrs. Pinkham if there is anything about your case which you do not understand. She will treat you with kindness and her advice is free. No woman ever regretted writing her and she has helped thousands. Address is Lynn, Mass.

CAIRO STREET CRISIS.
Sounds and Voices that Travelers Hear in the Egyptian City.
Take a chair outside a busy cafe near the market place and from center and watch the street. There are no hungry men, no starving, pinched child faces, no finger-worm mothers, for this is a land of plenty, and the people's wants are few and simple. Thus sunshine and laughter spray a welcome fragrance over the noisy and romantic city of the pyramids.

Here is a street melodist twanging a monstrous one-stringed "something," and accompanied by a nose-stringed girl, who taps dextrally on a species of tambourine, while bystanders ejaculate "Allah! Allah!"—the Arabic word for applause. If not quite in accord with your prejudices concerning music, well, malaise (never mind), is not nearly so distracting as a cornet at home, and they will go away if you tell them to. The baboon, the donkey and boy are in evidence, with a score of performing tricks, that are very original and certainly funny, and you console yourself with the hope of a minimum of cruelty in the training.
A fruit seller, basket on head, with luscious grapes and pomegranates singing in a quaint minor: "O grapes, O sweet grapes, that are larger than doves' eggs and sweeter than new cream." O grapes! food, delicious figs, bursting with honey, restorers of health.
There is a drink seller, bent under the weight of the odd-shaped jar slung over his shoulder, a lump of ice projecting from his mouth containing a crust of bread, making a ring around with the rhythmic clasp of two brass saucers: "O refreshment of the weary! O quencher of parched lips! O blessing of heaven!"

The March of Science.
Oolite, Ind., Jan. 12.—That Oolite is right abreast of the times in the use of the most recent discoveries in medical science is shown by recent cases in which the modern remedy, Oolite, has cured complaints that cause so many deaths have been completely cured by the new remedy, Oolite Kidney Pills.
Many people in this neighborhood tell of aches relieved and pains departed because of the use of Oolite Kidney Pills. One of these was W. A. Terry, the well known grocer. Here is his story: "I suffered for four months with Kidney and Bladder Trouble and was so bad that I was almost confined to my bed. I could get no relief until I commenced using Oolite Kidney Pills. I could notice an improvement the second day I took the pills. I would recommend Oolite Kidney Pills to all sufferers from Kidney Complaints."

All in His Eye.
"Hi, there," shouted the customs officer suspiciously. "Why are you holding your handkerchief to your face?"
"There's a bit of cinder in my eye," answered the cunning tourist.
"Ah! foreign substance in the eye! You'll have to pay duty on it."—New York Times.

FISHING FOR CISCOES.
No Longer a Lake Ontario Industry—A Peculiar Fish.

It was thirty years ago this winter that the ciscoes in Lake Ontario suddenly left the waters never to return, says Utica (N. Y.) dispatch to the New York Tribune. Where they went has always been a mystery, but a striking coincidence was their appearance shortly after in large numbers in Lake Erie bay, near Sandusky, O.
The cisco, which belongs to the salmon family, is a peculiar fish as far as its abiding place is concerned. It inhabits only a few lakes in the United States and Canada, and then it moves about with a suddenness that bothers the fishermen who make a living by catching it for the market. The cisco resembles the sea herring, and its head tapers to a point. It runs in weight from 2 1/2 to 10 pounds, and in length from 10 to 12 inches. The flesh has a fine flavor, and many compare it to the brook trout. A few years ago there was a large demand for the cisco, especially in the winter when it was in season. It occurred to see a keg of salted ciscoes displayed in front of a grocery store.

The ciscoes which the fishermen took from the waters of Lake Ontario were far from the market. The fishermen of a little village on Lake Ontario, in Jefferson county, and it was the center of the cisco industry. The ciscoes came into Chautauq bay for the last time in November, 1872. Once in a while they were seen in Chautauq bay, but they are caught in larger quantities in the eastern part of Lake Erie. The fishermen of Chautauq bay have never seen a cisco since. Why the fish should have been taken from Chautauq bay and the most probable one is that some of the fishermen had taken a dose of "Chautauq ciscoes," but the Chautauq cisco is no more. Not a barrel of ciscoes has been taken from Chautauq bay since 1872. Chautauq is now a pretty little summer resort, but the village that was once famous for its fish trade, not only for the enormous quantities taken from the bay each year, but for the remarkably fine quality of the fish, which was of exceptionally good flavor. Chautauq bay was the spawning place for the fish, and early in November they would appear in the bay in large numbers. The cisco fishing began in 1872. The ciscoes were taken from the bay each year, but the fishermen were busy hauling in the fish. The ciscoes were not confined to the men of Chautauq, but residents of other parts of the state went to Chautauq bay to fish and about 20,000 barrels were shipped from Chautauq every year. The ciscoes were taken from the bay each year, but the fishermen were busy hauling in the fish.

HEALTHY WOMEN
Praise Pe-ru-na as a Cure for Colds and a Preventive of Catarrh.

Mrs. M. J. Brink
FIRST STAGES OF CATARRH
A Serious Mistake Which Thousands Are Making.

The first stage of catarrh is what is commonly known as "catching cold." It may be in the head, nose, throat or lungs. Its beginning is sometimes so severe as to cause a chill and considerable fever, or it may be so slight as to not hinder a person from his usual business. In perhaps a majority of cases little or no attention is paid to the first stage of catarrh, and hence it is that nearly one-half of the people have chronic catarrh in some form.
To neglect a cold is to invite chronic catarrh. As soon as you get a cold, or the first symptoms of catching cold he
