JOB WORK...

How to Celebrate the Fourth. There is some talk current at the present time regarding the feasibility of holding a Fourth of July celebration here this year. A great majority of the merchants along Main street seem to favor the project and think that rather than see all the people pack up and move out of town that day, the occasion might be converted in one of a grand, old-fashioned blowout and that would bring hundreds of people in this direction. Others aver that with all the conventions and other attractions which are coming here this summer there is no need of booming the Fourth. To an old veteran it would seem that people in Fond du aLc are loosing the spirit which was an erstwhile stimulant to the celebration of the nation's birthday. "It is deplorable," said one venerable citizen, "to see the present generation holding out for the pecuniary gains of such an event. The day is not far past when such apathy would have been considered most disloyal." There is some talk current at the pres

The defendant, who is released on bail from the previous charge, was formerly of Oshkosh, and a well-known high school athlete. The Stevens family once lived at Sheboygan.

Weak **Stomach**

Indigestion is often caused by over-eating. An eminent authority says the harm done thus exceeds that from the excessive use of alcohol. Eat all the good food you want but don't over-load the stomach. A weak stomach may refuse to digest what you eat. Then you need a good digestant like Kodol, which digests your food with-out the stomach's aid. This rest and the wholesome tonics Kodol contains soon restore health. Dieting unnecessary. Kodol quickly relieves the feeling of fulness and bloating from which some people suffer after meals. Absolutely cures indigestion.

Attempt Made to Kill Man Held for Murder of J. Marcum.

Louisville, Ky., May 20.—Persons who procured the assassination of J. B. Marcum, one of Kentucky's prominent lawwas sparsely occupied here, and there cum, one of Kentucky's prominent lawyers, are suspected of an attempt on the
life of Curtis Jett, the alleged assassin,

A stranger appeared at the jail on

Another evidence of the desperate de-termination of Jett to get back to Jackhe mourned deeply for him now; but yet, in the midst of his sorrow, there was a wild eagerness at his heart.

His son was coming. Reginald, the only offspring of his darling Winifred, was alive, and would yet be heir of Fernleigh.

He would not give heed to the idea that his boy would be arrested and put to public shame for a crime he could never have committed; and so, being only human, he found his grief tempered by this thought.

Water Lily Seeds for Food. Water Lily Seeds for Food.

The use as food of seeds of a variety of water lily indigenous to Oregon was discussed by Dr. F. V. Coville at a meeting recently of the Biological society. The speaker stated that the Kiamath Indians parch this seed for food. By means of an oil stove he parched a bowlful of the cereal, which he passed around for the members to sample. The seed had a peculiar though by no means unpleasant taste. The question of utilizing this seed as an addition to the white man's food supply was discussed by the members.—Washington Star.
