POPE LEO IS NO MORE.

Aged Pontiff Succumbs After a Long Struggle. HIS LIFE EBBED AWAY.

Confided the Affairs of the Church to Cardinal Gregia in His Last Breath.

Rome, July 20.—At 20 p. m.—The Pope died shortly after 4 o'clock this afternoon. His last moments were comparatively peaceful and painless and were preceded by a period of insubstantiality.

Kiss Dying Pontiff's Hand. The day was one continual one of distress and mourning. When it became known shortly before 11 a. m. that the Pope's journey through the Valley of Death was almost finished, Cardinal Vanutelli hurried to his bedside and was followed shortly afterwards by what is known in the Vatican phraseology, the "papal see" or "papal family."

Scene in Death Chamber. The aged pontiff was lying prone and unconscious, propped up to assist him in breathing, one hand laid on the red silk coverlet, the heavy pontifical ring being in danger of falling from the pontiff's finger, while the other hand clutched his rosary and crucifix.

American Government's Tribute to Pope Leo. Washington, D. C., July 20.—The state department, upon learning of the death of the Pope, immediately telegraphed to Cardinal Rampolla, the Vatican.

Retorted a bystander to the cardinal who spoke, the latter being considered very likely to be the next Pope.

ARRANGE SERVICES IN AMERICA. Mgr. Falconio Will Issue Instructions to the Clergy.

President Expresses His Profound Regret. Oyster Bay, L. I., July 20.—President Roosevelt was deeply touched by the death of Pope Leo.

Confides Church to Gregia. A wonderful thing about Pope Leo is that every time he becomes ill he seems to grasp the fact that it may be the last and he makes the highest use of it.

His Last Greeting. Then Mgr. Bisleti, the master of the chamber, asked for the Pope's benediction for the court, which the pontiff granted, adding: "Be this my last greeting."

Weekly Crop Bulletin.

[For the week ending Monday, July 20.]

The week was almost ideal for harvesting and considerable grain was cut. The temperature conditions for the week were about normal.

The weather was mainly favorable to corn, although the nights were too cool for very rapid growth. Some damage occurred on low land as a result of the excessive rains, but generally the crop has continued to improve and in some localities is promising.

The harvesting of winter wheat and rye is in progress, and the yield will be satisfactory except in those sections where the frost of the early part of June was most severe.

There is more than the usual number of complaints of oats being rusted, and some damage is reported by lodging, but generally a fair to good crop is anticipated. Barley and spring wheat in the southeastern counties were badly beaten down and lodged by the heavy rain and high winds, but elsewhere these crops are in excellent condition.

Potatoes have continued to make good growth and are generally in excellent condition. Early varieties of good quality are in the market.

Ayer's Hair Vigor is certainly the most economical preparation of its kind on the market. A little of it goes a long way.

It doesn't take much of it to stop falling of the hair, make the hair grow, and restore color to gray hair.
