PROFIT

The matter of feed is of tremendous importance to the farmer. Wrong feeding is loss. Right feeding is profit.

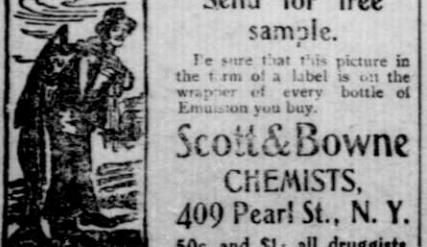

The up-to-date farmer knows what to feed his cows to get the most milk, his pigs to get the most pork, his hens to get the most eggs. Science.

But how about the children? Are they fed according to science, a bone food if bones are soft and undeveloped, a flesh and muscle food if they are thin and weak and a blood food if there is anemia?

Scott's Emulsion is a mixed food; the Cod Liver Oil in it makes flesh, blood and muscle, the Lime and Soda make bone and brain. It is the standard scientific food for delicate children.

Send for free sample. Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

Most Cheese Made in 1908.

The year drawing to a close has been a remarkable year in the cheese business. Record prices unattained in December and January in other years were obtained in June and July when the pasturage was ideal for a large production of milk and dealers' lost their heads apparently in buying up every pound of cheese offered, at enormous prices. A prominent dealer says that the bulk of the cheese in the cold storage houses of Sheboygan county were purchased at figures that if sold at obtaining figures today would lose thousands and thousands of dollars.

This season the market was not the one to profit from high prices. He makes cheese only and sells it as the agent for the farmer. For his work and investment the farmer pays him from 1 to 1 1/2 cents per pound, regardless of what the market value of the cheese is. It is generally conceded that good cheese cannot be made for less than 1 cent and for this reason a good many went into the manufacture of whey butter.

The farmer, on the other hand, when bottles with which to stow his cheese was being picked up by the dealers, put all his milk into the cheese factories and more cows were purchased to increase the supply. There was more cheese sold this year on the boards than at any time in the history of Sheboygan county.

Another feature that was made this year was the largely increased business done by the big packing houses which have gone into the market more heavily than ever before and indications are that every succeeding year they will become stronger factors in the market. A short time they will control the cheese market.

Prominent cheese dealers in Sheboygan county agree that if present conditions continue, but few dealers will be doing business in that county, owing to the fierceness of the competition. A few favored ones will exist by the grace of the packers, as accredited representatives.

Before I began its use I had chronic indigestion, like many persons of sedentary habits, and dreaded social functions of which eating was a feature, but the use of two bottles so strengthened my digestion, that I felt like a new man; it disposed of all dyspeptic troubles effectually. I have since taken pleasure in recommending its use to others, invariably proving beneficial. I consider it an invaluable medicine. Sold by all druggists."

On Sunday evening while two of our young people were out for a sleigh ride some young gentlemen stationed themselves along the road as sentinels, out of view. Either the horse went to fast or it must not have been interesting at all, for they soon abandoned their stunts; however the next day they tried to talk smart but the lady was brave and soon checked their words, though she smilingly said the ride was fine; then again with a serious air she remarked "We didn't even tip."

The doctor insisted on an operation as the only way to get well. I, however, strongly objected to an operation. My husband felt distressed as well as I, for home with a sick woman is a disconsolate place at best. A friendly druggist advised him to get a bottle of Wine of Cardui for me to try, and he did so. I began to improve in a few days and my recovery was very rapid. Within eighteen weeks I was another being. Ceelia Stowe. Mrs. Stowe's letter shows every woman how a home is saddened by female weakness and how completely Wine of Cardui cures that sickness and brings health and happiness again. Do not go on suffering. Go to your druggist today and secure a \$1.00 bottle of Wine of Cardui. WINE-CARDUI

A STORY OF ST. VALENTINE'S DAY.

## CHAPTER I.

It was the morning of St. Valentine's day, and Rose Darnell stood with a cloud upon her usually bright face, looking at the valentine she had just received from the only being in the world besides her father and mother who she loved, and she really loved. The card was pretty enough—just a spray of spring flowers and two hands clasped, and underneath, "From your sincerely, Jack Faulkener."

Rose read the words over and over again, as that was the way she had seen him a few days before, when she had seen him in a way that she had never seen him before. She had seen him in a way that she had never seen him before. She had seen him in a way that she had never seen him before.

mean to hear it without a sign to harden herself against everyone. She looked once more at her valentine, smiling at the words of the old lover had written, then, crumpling it up in her hand, she threw it into the fire, and ran up the stairs to her room. If her dress was quite ready for the ball.

News that the Faulkener's hall room looked more beautiful than it did that evening. Never had the castle or the grounds been so charmingly decorated. Fairy lights and Chinese lanterns were to be seen everywhere in the park, while within the castle, lighted up as never before, the most lovely flowers and ferns that could be procured.

Jack Faulkener had asked his parents to do this to celebrate his return home, and they had agreed to his wishes. Very proud they felt of their son as he stood beside them, welcoming their guests, and his bright eyes looked upon his handsome face.

Presently the Darnells were announced, and Jack's heart beat faster as he imagined that the happiest moment of his life had arrived. How he had expected to meet with Rose that night; in fancy he had felt her hand tremble in his, as he looked into her eyes to see if she loved him as he loved her. He had longed to clasp her to his breast and bid her shiver with delight.

He stepped forward to greet her with outstretched hand, but, to his amazement, she recoiled, touched his fingers, and turned to pass him. Of course she must be coquetting, he told himself. These things were not new to him, and he turned to her side.

"Rose, come in here," he said, with such a tone of authority that she obeyed, and he led her into a small ante-room and closed the door. "Rose," he continued, "what is the matter? You are not yourself. Do you not understand me yet? Surely I have not offended you, dear, after these years."

"You have not offended me in the least," she replied. "I perfectly understand you, and I did receive your valentine."

"Then what did you do with it?" he asked in a low voice. "I have not seen it," she replied. "You really want to know?" she returned, with heightening color.

"Well, then, I threw it into the fire. Is there anything else you would like to know?" Jack Faulkener looked at her with the most astonishment depicted on his face. He had never seen her so angry. He had never seen her so angry. He had never seen her so angry.

# PE-RU-NA PROTECTS THE LITTLE ONES

## Against Winter Catarrh in Its Many Phases.

### Neglected Colds in Children Often Bring Disastrous Results.

Peruna should be kept in the house all the time. Peruna should be kept in every house where there are children. Don't wait until the child is sick, then send to a drug store. Have Peruna on hand—except no substitute.

### Pe-ru-na Protects the Entire Household Against Catarrhal Diseases.

As soon as the value of Peruna is fully appreciated by every household, both as a preventive and cure of catarrhal affections, tens of thousands of lives will be saved, and hundreds of thousands of chronic, lingering cases of disease prevented. Peruna is a household safeguard.

Be Sure to Have Pe-ru-na on Hand During the Inclement Months of Fall and Winter. Croup, capillary bronchitis, and articular rheumatism are the special dangers of childhood. These all alike result from catching cold.

Another child catches cold and develops a stubborn cough that will not yield to ordinary remedies. The parents are filled with forebodings. Still another child catches cold and develops a cough that will not yield to ordinary remedies. The parents are filled with forebodings.

Water for the Stomach. Copious Draughts Are Useful to Cleanse System. The habits of people in general do not seem to lead when one considers the average individual's limitations as to knowledge and thought. The fact is that most people do not know what is good for them, and they do not know how to get it.

Indian Sugar Making. Sweetening Extracted from Birch, Ash and Maple. One of the pleasant chapters in Dr. Egan's "Indian Boyhood" deals with the making of sugar from the birch and maple trees.

Mud of Lake Has Value. Expert Says Fuel May Be Had from an Iowa Trench. A mud lake covering 180 square miles in Hamilton county, Ohio, is reported to contain 22,000,000,000 tons of fuel.

Armistice Smoking Cigarettes. In the Paris "tribune" they have been excitedly talking about the best cigarettes. These are called with iron on the outside, and have very neat fittings in the windows.

Fair Warning. The following notice was recently found tacked to the door of a local church: "There will be preaching in the church on Wednesday evening, Feb. 14, 1901, at 7:30 o'clock. Preaching by Rev. J. H. Skirvin, D.D., on the subject: 'He that believeth and believeth not shall be damned at 3:30 in the afternoon.'"—Chicago (Mo.) Record.

Mrs. M. J. Brown, Dunnean Springs, Mo., writes: "My little daughter three years old was troubled with a very bad cough and remained after an attack of catarrhal fever. She has taken one bottle of Peruna through which she has obtained a complete cure. She is now as well and happy as a little girl can be. When her friends say how well she looks I tell them Peruna did it."

In a later letter she says: "Our little daughter continues to have good health."

Mrs. Schaffer, 436 Bove Ave., St. Louis, Mo., writes: "In the early part of last year I wrote to you for advice for my daughter Alice, four years of age. She has been a puny, sickly, ailing child since her birth. I had concluded and given up, but since you were always doctoring until we commenced to use Peruna. She grew strong and well. Peruna is a wonderful tonic; the best medicine I ever used."

"I was in a very weakened condition when I commenced to take Peruna. I had catarrh all through my life, but thank God, your medicine set me all right. I would not have any other medicine."

"Peruna cured my baby boy of a very bad spell of cold and fever. He is a big healthy boy fifteen months old. I think that why he is so well. I cannot praise Peruna enough. We have not had a doctor since we began to use Peruna—all praise to it."—Mrs. Schaffer.

articular rheumatism is the result. Ankles, knees, wrists and elbows become suddenly swollen and painful. A long, slow, and painful process of the child may live and become convalescent, a miserable invalid of valvular disease. The heart is the most important of the direct result of neglected cold. Peruna is the safeguard of the family. If a child is cold, Peruna should be used immediately.

A few doses of Peruna and a child's cold is gone. The apprehensions of the parents are free from fear once more. If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address: Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

And yet another child catches cold

Mrs. L. C. Glover, Vice Pres. Milwaukee, Wis., Business Woman's Association, is another one of the million women who have been restored to health by using Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM: I was married for several years and no children blessed my home. The doctor said I had a complication of female troubles and I could not have any children unless I could be cured. He tried for several months, but after experimenting for several months, my husband became disgusted, and one night when we were sleeping together, he said to me, 'I am tired of this life. I am tired of this life. I am tired of this life.'"

Women should not fail to profit by the experience of these two women; just as surely as they were cured of the troubles enumerated in their letters, just so surely will Lydia E. Pinkham's Vegetable Compound cure others who suffer from womb troubles, inflammation of the ovaries, kidney troubles, nervous excitability, and nervous prostration; remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.

An Indiana Lady Tells of a Wonderful Cure: "DEAR MRS. PINKHAM: It is a pleasure for me to write and tell you how your wonderful medicine has done for me. I was sick for three years with change of life, and my physician thought a cancerous condition of the womb. During these three years I suffered untold agony."

"I cannot find words in which to express my bad feelings. I did not expect to ever see another well day. I read some of the testimonials recommending your medicine, and decided to write to you and give your treatment a trial."

"Before I had taken half a bottle of Lydia E. Pinkham's Vegetable Compound, I began to feel better. I have taken now six bottles and am so well I can do all kinds of work."—Mrs. LIZZIE HINKLE, Salem, Ind.

If there is anything in your case about which you would like special advice, write freely to Mr. Pinkham. She can surely help you, for no person in America can speak from a wider experience. Her address is Lynn, Mass.; her advice is free and always helpful.

FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove the genuineness of our medicine. Lydia E. Pinkham Med. Co., Lynn, Mass.
