**Two severe cases of Ovarian Trouble and two terrible operations avoided. Mrs. Emmons and Mrs. Coleman each tell how they were saved by the use of Lydia E. Pinkham's Vegetable Compound.**

"DEAR MRS. PINKHAM:—I am so pleased with the results obtained from Lydia E. Pinkham's Vegetable Compound that I feel it a duty and a privilege to write you about it.

"I suffered for more than five years with ovarian troubles, causing an unpleasant discharge, a great weakness, and at times a faintness which would come over me which no amount of medicine, diet, or exercise seemed to correct. Your Vegetable Compound from an operation—however, within a few weeks—and saved me from an operation—all my troubles had disappeared, and I found myself once more healthy and well. Words fail to describe the real, true, grateful feeling that is in my heart, and I want to tell every sick and suffering sister. Don't buy with medicines you know nothing about, but take Lydia E. Pinkham's Vegetable Compound, and take my word for it you will be a different woman in a short time."—MRS. LAURA EMMONS, Walker-ville, Ont.

**Another Case of Ovarian Trouble Cured Without an Operation.**

"DEAR MRS. PINKHAM:—For several years I was troubled with ovarian trouble and a painful and inflamed condition, which kept me in bed part of the time. I did so dread a surgical operation.

"I tried different remedies hoping to get better, but nothing seemed to bring relief until a friend who had been cured of ovarian trouble, through the use of your compound, induced me to try it. I took it faithfully for three months, and at the end of that time was glad to find that I was a well woman. Health is nature's best gift to woman, and through Lydia E. Pinkham's Vegetable Compound I feel that all suffering women should know of this."—MRS. LAURA BELLE COLEMAN, Commercial Hotel, Nashville, Tenn.

It is well to remember such letters as above when some druggist tries to get you to buy something which he says is just as good. That is impossible, as no other medicine has such a record of cures as Lydia E. Pinkham's Vegetable Compound; accept no other and you will be glad.

Don't hesitate to write to Mrs. Pinkham if there is anything about your sickness you do not understand. She will treat you with kindness and her advice is free. No woman ever regretted writing her and she has helped thousands. Address Lynn, Mass.

**\$5000 FORFEIT** If we cannot forthwith produce the original letters and signatures of above testimonials, which will verify the above testimonial, we will pay \$5000 to the person who produces the original letters and signatures. Lydia E. Pinkham Medicine Co., Lynn, Mass.

When a Man Is Poor.  
Much of what is called success is but the result of a man's character. It is the success of the brute faculties, at the expense of the divine. To develop a few of these faculties, a man must be willing to sacrifice, by everlasting digging and grinding for money, to cultivate one huge grain of success, which he will then use to buy the rest of the world. **BREADTH IN EDUCATION.**

Methods in United States Not Subject to Criticism for Pettiness.

Education methods in the United States and in other parts of the world, particularly in Germany, have been discussed at a reception given by the Society of Educational Research in New York a short time ago in honor of Dr. Von Seeberg, Duncker and Knapp. Dr. Von Seeberg and Dr. Duncker are privy councilors of the German government and members of the German ministry of education, while Dr. Knapp is superintendent of schools at Dusseldorf. In the last six weeks they have been in this country, and Dr. Von Seeberg has observed the methods of our schools. He has discovered, he said, that our instructors teach pupils not to depend too much upon their own powers, but to depend upon the methods of their teachers. "I don't find in America anything like 'Kleinheit' (pettiness), as we call it in Germany," observed the doctor. "Smallness or pettiness seems to be entirely absent from your nature."

Dr. Knapp was greatly impressed with the desire of American teachers to perfect themselves in their profession, and especially as they were in their profession only for a short period. He said he could not understand how many attractive women teachers could be induced to stick to their work and thought it was an excellent thing that they should do so. He said that he and them to interest their husbands in education.

Dr. Von Seeberg complimented the American teachers for their enthusiasm and said he was glad to see that the nation here was regarded as a prime means of Americanizing foreigners.

Dr. Fabst, a prominent industrial training in Germany, defined education on this side of the ocean as a system of systematic work. He said that he found, he said, that the most insignificant endeavor in this country was respected and honored.
