STRIKE IN SYMPATHY.

Fond du Lac, Wis., March 2.-[Special.]-The Wells Shee factory is in operation this morning. The forty lasters who went on a strike yesterday 'ANNUAL MEETING OVER for more wages are still out, together with several from other departments who quit in sympathy last night. Herman W. Heinrichs, first vice president of the company, who is in the city from the Chicago headquarters, says there will be no shut down and that the places of the men who walked out will be filled at once by outside labor.

at once by outside labor.

Charles Moul, who has control of the strikers, declares that the end is not yet and unless the demand is granted, serious trouble may follow. Mr. Moul wired for General Organizer Healey of Chicago, and his Wisconsin assistant, A. Zuehlsdorf of Milwaukee, and they arrived this merring to form a local bare beginning to form a local bare and they arrived this merring to form a local bare. Zuchlsdorf of Milwankee, and they arrived this morning to form a local boot and shoe workers' union. The lasters say the best they can do is \$1.40 a day on the existing wage of 9 cents a dozen. Several days ago, when it was decided to present the new schedule, the superintendent. John Schmahl, granted a raise of one cent on the dozen. With this advance, however, the workers say, came a change by which the pullovers, who had their pounding done by boys, were compelled to do all the labor, which brought their wages down to \$1.08.

Late yesterday the lasters were informed that their pay cheeks were ready, unless they wanted to return to work under the old arrangements. The management has called upon the police department for protection in case of violence of these states and they are made to protect on the federal bench. Other officers are:

People with inflamed and aching joints, or painful muscles; people who shuffle about with the aid of a cane or a cratch and cry, Oh! at every slight jar, are constantly asking, "What is the best thing for rheumatism?"

To attempt to cure rheumatism by external applications is a foolish waste of time. The seat of the disease is in the blood, and while the sufferer is rubbing lottons and grease on the skin the poison in the circulation is increasing.

Delays in adopting a sensible treatment are dangerous because rheumatism may at any moment reach the heart and prove fatal. The only safe course for rheumatic sufferers is to get the best possible blood remedy at once.

Mr. Stephenson's experience with this obstinate and distressing affliction is that of hundreds. He says:

"About a year ago I was attacked by severe rheumatic pains in my left shoulder. The pains were worse in weather, and at these periods caused me
