FOND DU LAC NEWS.

MRS. RICHMOND PROSTRATED. Fond du Lac, Wis., Mch 9.-[Special.] Mrs. George Richmond, whose husband ended his life yesterday by shooting himself, is confined to her bed today, suffering from nervous prostration. Further investigation shows that Richmond became angry at his wife when she asked him to go home with her from the party they were attending, because the hour was late, but it is hardly believed that this could have excited him to commit such a deed. Mrs. Richmond is 18 years old. -Mrs. George Richmond, whose husbane

The report which has been circulated about town that Maurice McKenna, president of the bar association, had decided to become a candidate for judge of the new judicial circuit was denied this morning by Mr. McKenna. "Under no circumstances will I become a candidate for judge." he said. "I signed the call for D. D. Sutherland and I expect to stand by it. Mr. Sutherland has practiced law here for twenty years and is one of the ablest lawyers in the district. He is well qualified in every way for the office and I should like to see Fond du Lac get it." Words of support are coming from leading attorneys in all parts of the circuit.

of Gen. Kuropatkin's position excites the liveliest interest and concern among the officials and military critics here. The officials and military critics here. The official advices are meager, but the unofficial reports received are accepted as showing that the battle of Mukden has resulted in the most serious land defeat Russia has suffered during the war. The military critics, however, continue to maintain that Kuropatkin will be able to execute a masterly strategic retreat.

During the night the Japanese attacked the village of Santiaitse, north of the imperial tombs. The fight continues as this dispatch is filed.

The Japanese outposts have reached Hirantchan, on the south front, and a heavy cannonade is in progress there.

Oyama's Victory Complete.

Mukden, March 8.—9 p. m.—The torn and shattered divisions of Kuropatkin's army, which ten days ago numbered 400,000 men, are retreating.

Oyama's victory is complete. His strategy has outmatched Kuropatkin's stubborn endurance.

Mukden is still in Russian hands, but the victorious army is already knocking at its gates with its cannon, and Oyama's entry into the city is only a question of Russian Losses and of the staff admits that the carnage in the battle will probably exceed anything in modern warfare, although the staff officers insist that the Japanese must have sustained the heaviest losses. Oyama Respects the Sacred Tombs at Mukden.

Tokio, March 9.—Field Marshal Oyama in an order directing the pursuit of the retreating Russians yesterday, prohibited his troops from entering Mukden in masses, in order to preserve the respect of the tombs and sacred places of the imperial Chinese household and to protect the welfare of the inhabitants.

The peril of the whole army, especially of the rear guard, is admitted, and Mukden may have been evacuated during last that Gen. Kuropatkin, having no alternative, will probably be forced to surrender within a week.

The Russians have not been reinforced from the direction of Harbin since March 1.

Try to Stop Nogi.

All day yesterday and last night wounded, munitions, baggage and stores streamed northward. The railroad and the Mandarin road were almost blocked at the last moment, notwithstanding the fact that an immense amount of stores, etc., was removed last week. The Russo-Chinese bank removed to Tie pass Sunday. The trains were run under the day. The trains were run under the Japanese guns westward, some projec-tiles reaching the railroad.

Closing the Iron Ring. Gen. Nogi, according to the latest au thentic Russian reports, has already reached a point opposite the station of Soubalia, half way between Mukden and Tie pass, but it is believed his left is swinging still further north for a blow at the line of communications which would realize Field Marshal Oyama's plan for closing the iron ring.

The Tokio report that the railroad is actually cut is not confirmed here, the telegraph office on the contrary declaring that communication with Gen. Kuropat-kin is still open.

THE COUPONS. —South Africa exports about \$26,000,-000 worth of diamonds to London every year.

The rich British banker, Mr. Miller, who arranged a splendid festivity in honor of the British officers on their re-cent visit to Madrid, has been informed

A HEALTHY OLD AGE Moorish palace discovered a glass vessel which contained a great number of coins. These were sold immediately, almost any price offered for them being accepted. But it has now been discovered that the coins were gold, of the period of Almora Yussuf Benismail Abuben-Yasia.

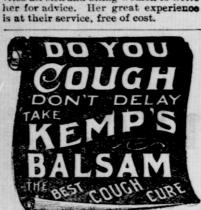

Change of Life

Providence has allotted us each at east seventy years in which to fulfill our mission in life, and it is generally arrown fault if we die prematurely.

Almora Yussuf Benismail Abuben-Yasia. The current gold value of the treasure would be about 100,000 pesetas, but their value from an archaeological standpoint is quite inestimable. The owner of the property whereon the money was unearthed was successful in recovering only some 200 coins out of a total of at least 600. The discovery serves to call to remembrance Washington Irving's celebrated Alhambra tales. least seventy years in which to fulfill our own fault if we die prematurely.

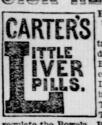

Nervous exhaustion invites disease. This statement is the positive truth. Large Dry Goods House.

Investigations have revealed, says a Boston dispatch, that within the last few years the large dry goods house of the Jordan-Marsh company, of which Eben D. Jordan, who recently leased Inverary castle in Scotland from the Duke of Argyle for the hunting season, is the head, has been robbed of nearly \$100,000 by employes. D. A. Carroll, a young employe, has been arrested. Four men who were considered among the most trustworthy of the firm's employes will be arrested if the police can find them. Carroll is not charged with having stolen \$5000, but other charges will probably be made. The lost money is said to have been paid to firms which really do not exist. Their names were created, it is alleged, so that the money could be obtained from the Jordan-Marsh company.

> Creates a New Department. The measure creates a new departdistinguished educator, Dr. Albert Salisment of the state government, which, it is claimed, will bring into the state no less than \$300,000, which state no less than \$300,000, which

Will Save State \$300,000.

Mr. Winch claims that if the bill becomes a law no less than \$300,000 belonging to the state will be unearthed inside of a year. The cost of the department is not to exceed \$10,000 a year. He claims that many of the counties keep back from the state the penal fines which ought to be turned over to the state treasury. In Milwaukee country, for instance, he says, only about \$300 was turned in on this account last year whereas in fact over \$10,000 was collected in fines which ought to go to the state. In the matter of inheritance taxes, too, he says, the state is losing a great deal of money which belongs to it.

Another bill which will be favorably acted upon is that requiring all warrants upon the state treasury to be acted upon is that requiring all war-rants upon the state treasury to be countersigned by the state treasurer, the secretary of state or the deputy of e ther. It will take two signatures t make a check payable.
