RUMOR IS DISCREDITED Report of Naval Fight Near Au-

LOOKING FOR JAPANESE That Rojestvensky Is Eager to Meet

Togo Is the Opinion of English

Experts. London, April 13 .- The rumor of a battle between the Russian and Japanese fleets near the Anambas islands yestertained in a dispatch to an Amsterdam

newspaper. The rumor, it transpires, was started by two Russian officers on board a Ger-man yacht, which arrived at Batavia, accompanied by four colliers. Their ver-sion was that the Japanese had lost four

Against the rumor is the fact that the British cruiser Sutlej, which arrived at Singapore yesterday, reported that it had passed the entire Russian fleet at daybreak Tuesday morning 550 miles northeast of Singapore.

Togo May Be in Pursuit. A cablegram from Victoria, island of Labuan, six miles northwest of Borneo, says it is reported there that a large fleet been sighted south of the island of

has been sighted south of the island of Borneo.

This fleet, perhaps, may be one of Togo's squadrons that has been lurking in the Java sea, guarding the numerous straits. If so, doubtless it has been informed of the passage of the Russian fleet and is in pursuit.

The naval forces of the other powers are well disposed to get the earliest news of a battle. The American cruiser Raleigh is watching off the island of Labuan, northwest of Borneo, and will be joined by British cruisers.

Five Dutch warships, equipped with wireless telegraphy, are at the Anambas islands.

islands.

Several French cruisers are waiting off the coast of Cochin China.

Five British cruisers from Hong Kong, equipped with the wireless telegraph, are cruising the China sea, watching for the clash of the hostile fleets. Several United States cruisers are patrolling the waters west of the island of Palawan.

News to Be Quickly Reported. With so many cruisers patrolling the whole field of the China sea it is believed that a naval battle will be promptly reported at one of the numerous cable stations in the Philippines or on the

Looking for Togo. London, April 13.—Birtish naval men comment on the lack of secrecy regarding Admiral Rojestvensky's movements since his arrival in far eastern waters. The fact that he is keeping to the main trade routes, although knowing his squadron would constantly be sighted and reported by passing vessels, they consider clearly shows that the Russian admiral is keenly anxious to meet Admiral Togo and fight it out to a finish.

All Peace Talk Ceases. St. Petersburg, April 13, 5:59 p. m.-The news of the northward movement of Admiral Rojestvensky's squadron and his evident intention to accept battle whenever Admiral Togo chooses to offer it, has for the present stilled all activi-ties in the direction of peace and the for-eign dispatches relating to the voyage of the squadron are followed with the most

Russ May Seize Base.

The admiralty volunteers no information regarding Rojestvensky's plans, whether his immediate destination is or is not Cape Padaren (on the east coast of Cochin China), but in naval circles the impression prevails that the squadron will continue northward to the straits of Formosa, where, if Admiral Togo does not elect to give battle, or is defeated, Admiral Rojestvensky may seize a temporary base in Japanese territory and if it is considered advisable he could there await the arrival of Admiral Nebogatoff's division.

riflemen on board the Russian transports which could be landed for the purpose of co-operating with marines in the same fashion that the United States established a base at Guantanamo, Cuba, in 1898. Other naval men think that Vlad-ivostok is the only base the Russian admiral has in view.

Vladivostok Is Silent. There is an embargo on news from Vladivostok concerning the Russian cruisers Rossia, Gromoboi and Bogatyr and it is supposed, though the admiralty does not confirm the supposition, that they have put to sea to effect a diversion and prevent mine laying.

Considerable irritation is manifested in naval circles at the activity of Privice.

naval circles at the activity of British ships in Chinese waters which are re-ported to be steaming from Hong Kong to Singapore and the action is attributed to a desire to keep in touch with the Russian squadron and report the movements to the world at large and to Great Britain's ally in particular as happened in the case of the British armored cruiser Sutlej which arrived at Singapore. Straits Settlements, vesterday and re-Straits Settlements, yesterday and reported having passed the Russian second Pacific squadron at daylight, April 11 steaming north.

American Cruiser Near. Washington, D. C., April 13 .- The washington, D. C., April 15.—The navy department was advised of the departure today of the cruiser Raleigh from Labuan, on the north coast of British Borneo, where she was dispatched by Rear Admiral Train to observe the movements of the hostile fleets, for Cuyo in the Philippings a point about 400 or in the Philippines, a point about 400 or 500 miles to the northeast, between Pala-wan and Panay islands. It is indicated

that the Raleigh's commander obtained information as to what he believed to be accordingly. It is about a two-days' sail Not Heading for Saigon. Not Heading for Saigon.

Singapore, April 13.—The Russian fleet was in latitude 8 degrees north, longitude 108 degrees, 55 minutes, east, at noon April 11. The Peninsular & Oriental steamer Wubia, which has arrived here, reports having passed no less than forty-two vessels there. They were steering north northeast at a speed of eight or ten knots.

eight or ten knots.

The position of the fleet was then about 300 miles northeastward of the Natuna islands (which lie between the Malay peninsula and the west coast of Borneo, and more than 200 miles southeast of Cape St. Jacques. This course indicates that the fleet was not going to Saigon, French Cochin China.

German Coal Released. The German collier Hindoo (at this port loaded with 4200 tons of Cardiff coal for the island of Tanjong Pandan, between Borneo and Sumatra, and which

was refused clearance papers for Saigon sul there), was released today, her cap-tain agreeing to deliver his cargo through the British consul at Saigor Has Gathered Fuel.

Paris, April 13.—Herr Bekel, who is charged with the duty-of gathering together supplies of coal for the Russian second Pacific squadron, has, according to a statement made to the St. Petersburg corespondent of the Matin, 70,000 tons at Saigon and 50,000 tons at Shanghai, which he expects the Russian squad-

KIRKMAN DISMISSED

Sentence of the Court-Martial Which Investigated Scandal in Army-He Was Found Guilty.

Washington, D. C., April 13.-Judge Advocate General Davis of the army has received the record of the court martial ceedings in the case of Capt. G. W. Kirkman of the Twenty-fifth infantry, stationed at Fort Niobrarra, Neb. That officer was charged with conduct growing out of a series of alleged scan-dalous actions. It is charged that he compromised the wife of a brother officer and as a result the woman commit-ted suicide. Capt. Kirkman was found guilty and sentenced to be dismissed.

After the record has been reviewed at the war department, the case will be submitted to the President for final ac-

from Jeffersonian Simplicity.

Charlottesville, Va., April 13.—Dr. Edward Anderson, alderman, was installed president of the University of Virginia today. This is the first change in the government policy of the institution established by Thomas Jefferson eighty years ago. Jeffersonian simplicity of government for the institution did not contemplate a president. Jefferson wrote into its charter that government should be administered by a board of regents, a chairman for which should be annually elected from among the professors. Along these lines the University of Virginia grew to its place as a potent factor among the higher institutions of learning of the south. The recent development has rendered its efficient administration. from Jeffersonian Simplicity. has rendered its efficient administration impracticable under the old methods, and the change is made to meet the larger

pany for several years. He immediately joined the Division Street Methodist church and from the start took an ac-

church and from the start took an active part in religious work in the city.

He has been a close student of the Bible for twelve years, and while at work on the bench at St. Louis read through the old and new testaments during the noon hour and while lunching.

His success in leading church meetings in St. Louis interested the authorities and he was made a local preacher, meeting with much success in street gatherings and labors among young men.

He is a speaker of much force and has a remarkable memory of the scripture, quoting passages for any occasion. He is 31 years old and married.

Rockefeller's Poverty

Is His Offer-Riches Cannot Always Buy Health

A Million Dollars For a New Stomach

Woes of the Wealthy Worse than Poverty When you are inclined to envy the rich, remember that John D. Rockefeller, multi-millionaire, one of the very known, has troubles for which all his wealth cannot compensate. Mr. ROCKefeller has a diseased stomach that the doctors pronounce incurable. Instead of being permitted to enjoy life to its full, to eat what he likes without distress, to partake of tempting viands and the delicious dainties of the epicure and the gourmet, Mr. Rockefeller is obliged to subsist on a diet of tepid milk and lime water, such as you would feed to a colicky baby. Is it much wonder that he offers a million dollars of his many millions for a new stomach that shall perform its duties without distress and

danger?
If Mr. Rockefeller would spend fifty or Camp's Curative Remedy, he might secure the relief he seeks, promptly and permanently. But the price is too small in the millionaire's eyes. He would spend a million, but would hesitate to spend half a dollar. Thus the price of wealth, in his case, is perpetual suffering, while those of us possessed of less money and greater perspicacity profit by the truth and take the road to health that thousands have

traveled before us.

There is no question about the efficacy of Camp's Curative Remedy in all cases of stomach and digestive disorders. It is guaranteed to cure, and in any case of failure to do so the purchaser's money will be promptly refunded. All druggists sell it, giving you your choice of powder or tablet form at the low prices of 25 and 50 cents. Under such liberal terms and at such a small price, the man, woman or child who continues to suffer with any illness of the stomach has only himself to blame.

Creates a Reading Habit. The local newspaper should be found n every home. No children should be brought up in ignorance who can be brought to appreciate home pa pers. It is said to be the stepping stone to intelligence in all those matters not to be found in books. Give your children a foreign paper which contains not one word about any person, place or thing that they ever saw or perhaps heard of, and how do you expect them to be interested? But let them read the home paper and hear of people whom they meet and of places with which they are familiar and soon an interest is overland. iar and soon an interest is awakened which increases with the arrival of every local paper. Thus a reading habit is formed, and those children

There is a vegetable remedy which is to the lungs just what bread is to the system-food, strength. It is Dr. Bell's Pine-Tar-Honey

If your lungs are weak

they need food-strength.

In the first place, this remedy cuts out phlegm which may be present on the lung tissues. Then comes its healing and soothing effect. It stimulates the blood to an active circulation through the lungs, and the germs of disease are destroyed by the antiseptic properties of this scientific remedy. It enables the blood to receive and retain its natural supply of oxygen, lung

remedy is so helpful. All good druggists sell it. 25c, 50c and \$1 per bottle.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from expesing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great. Mrs. Pinkham's Standing Invitation: Women suffering from any form of female weak-

ness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance. — Lydia E. Pinkham Medicine Co., Lynn, Mass.

We were walking on the beach—the But, bad as it was. I found it could be worse, for the very next Sunday the perfume dealer, taking his cue from the shoe manufacturer, came out with an advertisement displaying my little encomium in bold type and referring to me as "president of the largest club in the country." Whereupen I fled to Judge Henry, who threatened legal proceedings if they used my name again without permission. At last I had begun to learn of the folly of accepting gifts from advertisers and to realizez most uncomfortably my value in the economic world.

The affair blew over after many weeks. But it was a bitter, if an enlightening, experience.

We were walking on the beach—the identical path Philip and I had so often taken together—when he spoke of it.

"Tomorrow night we shall all be flying away from here," I said. "What a pity these poetic instances of life cannot last. This motion was heartily seconded, and I hastened to put it. Three women refused to vote, but the remainder were counted in the affirmative. A committee was appointed and a recess was taken while they prepared the document. When the meeting came to order again, every member of the board signed the following letter:

"To John A. Biggs—Dear Sir: At a meeting of the executive board of the Nota Bene club this afternoon, it was unanimously voted to request you not to use the name which we have made famous by our beloved club, as the title of your shoes. We will help you to select a suitable one in its place."

New Geyser 'Skyrocket." **EXCURSIONS**

New Geyser 'Skyrocket.'

Reports from officials of the Yellowstone Park association indicate that the new geysesr in Norris basin is permanent additional attraction. It has been named the 'Skyrocket' because of its peculiar appearance when it spouts, and its coming has, it is believed, proven the death of the "Constant" geyser, located in the same basin. The "Skyrocket" plays at regular intervals, three times a week, and spouts boiling water to an immense height.

The Present Rate Law. The duties of the present Interstate Commerce Commission are to correct all discriminations in railroad rates. If it finds that an unjust rate is in effect, the railroad is notified. If it declines to change it, the Commission can bring

suit in court, and if the court decides in favor of the Commissioners' finding, the railroad must obey, or its officers may be brought up for contempt of court and summarily dealt with. Anxious for Information.

Gives Pearl to Escort.

The supreme court of Hamburg, Germany, rendered a decision in the case of the pearl valued at over \$750 found in her mouth by a woman who, accompanied by an escort, was eating oysters, in a restaurant. The woman claimed the pearl and her escort supported her claim, but the proprietor of the restaurant who took the pearl oyster from its bed.
