#### WANT NEW CITY HALL.

Fond du Lac, Wis., April 20.- | Spe cial.]-Agitation was started last night at a special meeting of the council, for a new city hall, and it is possible that something may develop along this line before another session is held.

The matter was discussed last night.

The matter was discussed last night, following a proposition from Lewis A. Lange, in replying to a request from Mayor Hughes as to how he could care for the enlarged council, the present quarters in the Reporter building being too small. Mr. Lange in a lengthy communication, accompanied by plans, said he will remodel the hall so that it will meet all requirements, provided the council will pay hen annually \$1200 for eight years, following the expiration of the present lease, ten years hence. Mayor Hughes and Aldermen More, Diener, Jagfeld and Lang were appointed to make an investigation and report on the advisability of renewing the contract under the new terms or erecting a building. der the new terms or erecting a building.

The city now owns the site of the police station, which would make a model location for the city structure, it is argued. "I think the majority of taxpaygued. "I think the majority of taxpayers here are in favor of the new city hall," said a leading member of the council. "A lease for eight years on the old hall means nearly \$10,000, the new building would probably cost more than that, but the city would eventually have a structure of its own and in time that would more than pay for the expenditure. Fond du Lac is no longer a village."

Standing committees were appointed, after which bids from Thomas Buckles, W. H. Gill and Thomas Lucia for street sprinkling were opened and all being at the rate of 14 cents per lineal foot, they

Mr. Jones Tells of the Way by Which H Treated Himself Successfully When Doctors Failed. Six physicians, all of them good, one of

them a specialist, had done their best for Mr. Jones at different times during three years, and still he suffered fearfully from the tortures of rheumatism. The rheumatism that had been dormant in his system was suddenly brought to an acute stage by exposure while he was drawing ice in February, 1901. From that time on for a period of more than three years he was a constant sufferer. He tried many kinds of treatment, but the rheumatism wouldn't budge. When regular doctors failed,

and one remedy after another proved

useless, many said: "I should think he would give it up and save his money.' Of his condition at this time, Mr. Jones says: "My rheumatism started in my right thigh, but in time it appeared in every muscle of my body. I lost the use of my left arm entirely and nearly lost the use of my right one. My feet were badly affected, especially the bottoms of the heels. When my right side was affected there was swelling, but the left side didn't swell when the disease settled there. The internal organs didn't seem to be

involved at all. The trouble was all in the muscles and the nerves." Among the few who still encouraged Mr. Jones to think that a cure might yet be found was a friend who had reason for great confidence in Dr. Williams' Pink Pills, and acting on her advice he bought a box of them in September, 1904. The story of what followed is brief, but nothing could be more satisfactory.

When I was on the third box," says Mr. Jones, "I could realize a change for the better. I felt sure then that Dr. Williams' Pink Pills were the right medicine for my case. I kept on with them for several weeks longer and now I am entirely well, and everybody is asking what I took."

Mr. William Jones lives at Oxford. Mich. Dr. Williams' Pink Pills effect wonderful cures in rheumatism, because they work directly on the blood which is the seat of the disease. They are sold by every druggist.

#### Blackbirds in Flight. Last Wednesday army after army of

blackbirds flew over Aline, headed north.

The advance guard was about a half mile long and flying in lines of files reaching from the Rock Island to the Orient track.

The second flew in column formation

and was fully three-quarters of a mile long. At intervals of from fifteen min-utes to an hour all through the forenoon patches and squares of birds followed.

A conservative estimate of the number that passed during the forenoon would be 500,000. The birds flew very low and their wings and chattering could be heard at a great distance.—Kansas City Journal.

### QUEEN OF ACTRESSES PRAISES PE-RU-NA.

N a recent letter to The Peruna Medi-cine Co., Miss Julia Marlowe, of New York City, writes the following:

"I am glad to write my endorse ment of the great remedy, Peruna, as a nerve tonic. I do so most heartily."---Julia Marlowe.

Nervousness is very common among women. This condition is due to anemic nerve centers. The nerve centers are the reservoirs of nervous vitality. These centers become bloodless for want of proper nutrition.

This is especially true in the spring season. Every spring a host of invalids are produced as the direct result of weak nerves.

~ \*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\* This can be easily obviated by using Peruna. Peruna strikes at the root of the difficulty by correcting the diges-

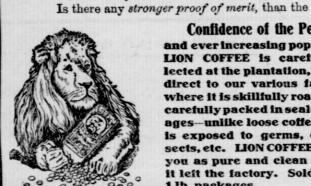

Digestion furnishes nutrition for the nerve centers. Properly digested food furnishes these reservoirs of life with vitality which leads to strong, steady nerves and thus nourishes life. Peruna is in great favor among women, especially those who have vocations that are trying to the nerves.

The Worst of All Adulterations.

Perhaps no species of villainy is more cruel and reprehensible than the adulteration of drugs used in disease, and which may murder the invalid they were supposed to benefit. It is fortunate that the Washington authorities have taken the work in hand and have succeeded in unearthing a gang of these scoundrels in Chicago, by making raids on the places where bogus drugs were made, confiscating four patrol wagon loads of "medicine" and arresting five persons for misusing the mails. It is stated that the evidence upon which the arrests were made was based upon a chemical analysis made by Dr. Virgil Coblentz of Columbia university. He found that a kind of triethylate, sold to druggists as a substitute for trional, a sleep producing medicine, acted as an irritant instead. This doctored drug was being disposed of at 25 cents an homesteads are all taken up within 12

HERBERT ROBBED OF GLORY. Finds Others Paid More for Single Flow

when Victor Herbert paid \$250 for a carnation at Joe Holland's benefit night in New York city it was generally stated that this was the highest price ever paid for a single bud. It is too bad to rob Herbert of his glory, but the fact is that King Edward parted with £75 on one occation for a single American Beauty rose. Joe Leiter paid \$300 in Chicago for a carnation, and James H. Hyde cheerfully gave up the same amount at a recent charity entertainment for a bunch of violets. William E. Corey is said to have parted with a fifty spot for a single flower er Than \$250.

charity entertainment for a bunch of vio-lets. William E. Corey is said to have parted with a fifty spot for a single flower in a similar emergency, and Charles H. Schwab has also gone far above the mar-ket limit on special occasions. It is not so much the flower as the person who offers it for sale. It was Ada Rehan who sold the \$250 carnation to Herbert. King Edward bought his American Beauty from Mary Anderson, and he had great satisfaction in thinking over the compli-ment he had paid to American girls. Her-bert can afford to be royal these days. He is one of the idols in New York city, and managers lie in wait for him.

A Lesson to Advertisers. Thomas W. Lawson teaches busines men a lesson much more important than the manipulation of the stock market—it is the tremendous influence of newspaper advertising. Millions of dollars are wasted annually by otherwise paper advertising. Minors of contains are wasted annually by otherwise shrewd business men in trying to advertise by expensive circulars, which are seldom read and never effective. Mr. Lawson might have sent through the mails hundreds and thousands of copies of his francial finence latters and no of his frenzied finance letters, and no one would have paid the slightest atten-tion to them. He printed his letters in tion to them. He printed his letters in the advertising columns of the leading papers and within a week the whole country was agog, the stock market was upset, a record number of shares changed hands, and a magazine whose previous circulation was comparatively nil had eager demands for more copies than could be printed. Mr. Lawson's ad-vertisements deal with a sensational sub-ject, but it has been handled by other methods without causing any sensation methods without causing any sensation whatever. Tell the public in the right way and in the right papers about the right thing, and it will respond promptly and profitably—that is the moral of the Lawson campaign, and every business man should take it to heart and pocket. -Col. Mann in Town Topics.

From the spirits of the dead Mrs. A.
E. Baker of Des Moines, Ia., claims to
have discovered the cause of the sudden
disappearance of Frank S. Richardson,
a prominent farmer living near Audubon,
six years ago. Through her visions she
claims to have seen a murder and has
actually directed excavations near an old
tree on the Richardson farm which have
resulted in the finding of a human skeletree on the Richardson farm which have resulted in the finding of a human skeleton believed to be that of the missing man. When Richardson disappeared there was quite a sensation, and though many murder theories were evolved no trace of the man could be found. Recently his brother was in Des Moines and met Mrs. Baker. He asked her to see the him in the matter. A few days assist him in the matter. A few days ago she went to Audubon and two days after her arrival the skeleton was found. She is now here and states she will return to Audubon in a few days, to the spot where she believes she may get in communication with the spirit of the man she believes was murdered.

When Robins Come to New England. Do you know that the date on which the robins are due has passed? A friend of mine, who has for years kept record of their coming, says that the day on which they should appear is the 12th, and that the years in which they do not come at that time are the expertions and that the years in which they do not come at that time are the exceptions.

Occasionally they are a day or two earlier, oftener they are a trifle later, but nearly always the 12th sees them in New England. Last year it was very late in the month before they came, and as yet no one has seen or heard them this year. But if other things may be trusted, such as the pussy willows, the bluejays, the golden pheasants, spring and the robins shouldn't be far away. and the robins shouldn't be far away .-Boston Herald.

Birch Hills, Sask, Canada, Feb. 1st. 1905

I take pleasure in dropping you a few lines to let you know how we are getting along up here and how we like the place. We have been here close on to a year now and think the place is fine. We have been out every day this winter working in the bush getting out logs for buildings, etc., getting rails with the cold as much as we did in Chicago. My little boys are out every day with their sleighs having a good time. The lowest the temperature has been this winter is 34 below and it is very still, no wind.

land and engaged in farming, which of land and engaged in farming, which he followed until a few years ago.

Mr. Apple served as a member of the Racine county board for eight years and in 1882 was the Democratic nominee for assembly from the Second district. Although the district was a Republican stronghold, Mr. Apple was elected and served continuously until 1888.

Served as State Senator.

In 1891 he was the Democratic nominee for state senator from the district comprising Racine and Kenosha counties and was elected and served two terms. While in the Legislature, Mr. Apple succeeded in having bills passed which caused a drainage system to be built in property about Wind lake, and thousands of acres of land which had not been used in years became valuable for farming. He also had a bill passed which allowed towns to pay road taxes instead of having the work done by farmers, and the farms were then assessed for the improvement. 1891 he was the Democratic nom farmers, and the farms were then assessed for the improvement.

Mr. Apple was interested in banking institutions of Racine county and was a stockholder and director in the Manufacturers' National and Commercial and Savings banks of Racine. He for years made heavy investments in farms in this and other states and was associated with J. E. Dodge, now justice of the supreme court of Wisconsin.

Mr. Apple is survived by a widow and Mr. Apple is survived by a widow and even children.

RETRIAL FOR STEWART. Supreme Court Decides for Alleged Stanley Murderer-Insanity Plea Is Basis.

Stanley, Wis., April 20 .- [Special.1-Ira Stewart, convicted of the murder of Fred Miller in this city and sent to Waupun in 1901, has been granted a new trial by the supreme court on an insanity plea.

Testimony at the trial said that the crime was committed on January 28, 1901. Fred Miller was the manager of the Stanley laundry. Residing with Miller were his wife's father and mother, Mr. and Mrs. Ira Stewart and sister, Mrs. Hoskins. Stewart assisted Miller in the laundry but was addicted to liquor and made himself disagreeable at times and was ejected from the laundry and from the Miller home by Miller.

Soon after this, on January 28, 1901, Stewart arrived from Eau Claire on the noon train, went direct to the Miller home and shot Miller while the family was sitting at dinner. Stewart immediately gave himself up. by the supreme court on an insanity plea. gave himself up.

he left home to have made him an object of foul play.

Mr. Priebnow, who was 20 years old and not married, recently purchased a farm near Waukau. He spent last summer on the property, and after the fall work was completed returned to his home near Mayville, to remain with his parents over winter. February 27 he went to Waukau to pay his taxes, having at the time \$100 in his pockets. A day or two later his parents received a letter written at Fond du Lac, saying that he had not started for Waukau, but would do so in a few days.

Priebnow's farm at Waukau is deserted. The fact that he had property, which was paid for, and everything to induce him to remain in Wisconsin, seems to give ground for the fear that he has met with foul play.

## Save the Babies.

NFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent., or nearly one-quarter, die before they reach one year; thirtyseven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the
