Protesting Against Rate Reduction.

The recent proposition of J. Pope

Brown, Chairman of the Georgia Rail-

cents per mile was protested against

by the Brotherhood of Locomotive En-

machinists, telegraphers, boilermakers,

railway train men, carpenters and

joiners, clerks and car men. These or-

that such a reduction would work

against the prosperity of the State and

lead to reduction in the number of

wages. The Travelers' Protective As-

Thomas A. Edison, The Man Who Thinks and Does Things, Turns Philosopher

Says Satiety and Stuffed Stemachs Stupety

"I know men and women," said Thomas A. Edison, the great inventor, the other day, "who are food drunk all the time."

The unique expression requires no Interpretation. It is self-explanatory. It applies to folks you and I know-lots of 'em. Folks who "live to eat," seemingly, rather than eat to live. When a person-man or woman-is

only content and happy when gorged with a conglomeration of food, he is a food "drunkard," as surely as the whis key guzzler is a whiskey drunkard. And it is not necessary to see one eat in order to tell the victim of the food debauch. He carries the sign in his complexion and in his figure. Ruddy and oily, apoplectic and paunched, he is marked of men.

And how much worse such symptoms appear to us in womankind, just as the liquor habit, bad enough in man, is doubly, trebly offensive to decency in the daughter of Eve. When the "fair" ones become the fat ones, with coarse complexions, discolored features and portly figures from the stuffing of ent of romance is lost, food, the ele and the greed for the good things sup-plants the higher and nobler elements that make for the things we love in woman.

Fortunately, there is relief for the man and woman addicted to the platter, as truly as there is relief, now, for the one addicted to the cup. The clear complexion, the return to shapeliness. the relief from obesity resulting from over-eating, will again bring joy to the intemperate eater who will but visit the nearest drug store and invest a Quarter or fifty cents in Camp's Curawe Remedy, powder or tablets, and take it as directed.

This simple, vegetable, sixty-year old family remedy has proven its value in thousands of cases of food drunkenness long before Thomas A. Edison invented the expression. So great is the maker's faith in his herbal remedy that he guarontees every claim he makes for it, or the druggist from whom you purchase authorized to refund your money. You will find Camp's Curative Remedy on sale at your druggist's, guaranteed for all stomach and digestive ills.

Fatal Riot Early in Day.

Fatal Riot Early in Day. Chicago, Ill., May 4.-With employers preparing to press a demand for troops, violence in the teamsters' strike showed no signs of cessation today. The very first outbreak resulted in a fatality. The riot took place near the barns of the Employers' Teaming company, in Eighteenth street, near State. Charles Riebling, a white man, who resides in the vicinity, received a fractured skull and is expected to die. He was standing in a crowd which started to jeer a non-union colored teamster, who was guarded by five detectives. The negro suddenly picked up a stone and threw it into the head and sank to the ground uncon-scious.

Police Pacify Crowd.

The crowd chased the negro into the stables of the teaming company, but were driven back by private detectives wielding "billies" and pieces of gas pipe. Police reinforced the detectives and pacified the crowd by demanding that the negro be surrendered. The po-lice entered the stable, but were unable to find Riebling's assailant. Riebling, unconscious, was taken to the People's hospital.

The police today announced that they were prepared to escort 800 wagons for the wholesale and retail strike-bound stores and 350 express wagons. This, it was stated, would be the greatest numof wagons moved in one day since beginning of the strike. Commercial Houses Busy.

A. M. Compton, chairman of the ways and means committee of the Chicago Commercial association, has issued special notice to members with reference orders and shipments. The notice reads:

Exaggerated reports are being circulated throughout the country to the effect that the commercial facilities of Chicago are handicapped by reason of a strike of union

The police accompanied an increased number of wagons of the boycotted wholesale and retail stores and express companies today and there was less in-terference with deliveries by strikers and their sympathizers. This was possibly due to the general presence of the munici-pal guardians. It had been claimed by the police that the private detectives and hired guards were responsible in large close to camp.

Dyspepsia of Women ABSOLUTELY NEEDLESS AGONY

Caused by Uterine Disorders and Cured by Lydia E. Pinkham's Vegetable Compound

A great many women suffer with a form of indigestion or dyspepsia which does not seem to yield to ordinary treat-ment. While the symptoms seem to be similar to those of ordinary indiges-tion, yet the medicines universally pre-scribed do not seem to restore the pa-tient's normal condition. tient's normal condition.

Mrs. Pinkham claims that there is a kind o. dyspepsia that is caused by a be without it. (Signed) Ada C. Smith, derangement of the female organism, 309 Grand St. Jersey City, N. J." and which, while it causes a disturb

ance similar to ordinary indigestion, cannot be relieved without a medicine which not only acts as a stomach tonic. but has peculiar uterine-tonic effects

As proof of this theory we call at Wright, Brooklyn, N. Y., who was completely cured by Lydia E. Pink-ham's Vegetable Compound after every-thing else had failed. She writes:

"For two years I suffered with dyspepsia which so degenerated my entire system that I vas unable to attend to my daily duties. I which so de elt weak and nervous, and nothing that I ate tasted good and it caused a disturbance in my stomach. I tried different dyspepsia cures, but nothing seemed to help me. I was ad-vised to give Lydia E. Pinkham's Vegetable Compound a trial, and was happily surprised to find that it acted like a fine tonic, and in a few days I began to enjoy and properly digest my food. My recovery was rapid, and in five weeks I was a well woman. I have rec-ommended it to many suffering women." No other medicine in the world has received such widespread and underslip.

received such widespread and unquali-fied endorsement, or has such a record of cures of female troubles, as has Lydia E. Pinkham's Vegetable Compound.

ITCHING SCALP HUMOR.

Suffered Tortures Until Cured by Cuticura-Scratched Day and Night. "My scalp was covered with little imples and I suffered tortures from the itching. I was scratching all day and night, and I could get no rest. I washed my head with hot water and Cuticura Soap and then applied the Cuticura Ointment as a dressing. One box of the ointment and one cake of Cuticura Soap cured me. Now my head is entirely clear and my hair is growing splendidly. I have used Cuticura Soap ever since and shall never

Nerve of a wounded Soldier.

One day an army surgeon was dress-ng the wound of a soldier who had been ot in the neck near the carotid artery. Suddenly the bloodvessel gave way, and just as quickly the surgeon thrust his finger into the hole to stop the flow. "Doctor," said the soldier, "what does that mean?"

It means death," said the surgeon "How long can I live?" said the sol-er, whose mind was perfectly clear. "Until I remove my finger," said the

etor. The soldier asked for pen and paper, rote his will and an affectionate letter his wife, and when the last thing was "Let it go."

The surgeon withdrew his finger, the blood rushed out, and in a few moments the man was dead.—Cleveland Plain Dealer.

Too Many Prisoners.

Too Many Prisoners. A cuirious state of affairs exists in the army post on Governor's island. New York bay. The number of prisoners confined in Castle William exceeds by more than 100 the number of men gar-risoned on the island. The military prisoners from all the posts of the de-partment of the east are confined in Castle William, and lately the prison of the department of the lakes in Chicago became so crowded that many western prisoners have been sent here. Castle William holds 332 prisoners, 112 more than the number of men garrisoned on the island.

Those who lead very active lives, like athletes, with good muscular de-velopment, find the spring months especially trying.

Athletes everywhere praise Peruna because they, of all men, appreciate the value of a tonic that dispels physical depression.

The vocation of some men may allow them to endure the depressing feelings incident to spring weather, but the athlete must never allow himself to get "under the weather."

He must keep in the "pink of condi

tion" all the time. In order to do this he must avail himself of a spring tonic upon which he can rely.

Therefore athletes are especially friendly toward Peruna. Peruna never fails them.
