"Mr. Gompers may bring us a proposition from the employers," was the reply. "If he does we will consider it; just as we are always ready to do. Of course, any settlement would hinge on how many men could be reinstated."

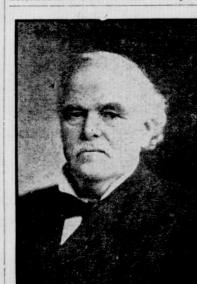

"Does that mean that all strikers must be reinstated?"

"I have never said so," replied Shea. "The joint council will have to act on anything that is done."

EVERY SUFFERER WANTS THE VERY OUICKEST CURE.

Mr. Donovan Thinks the Remedy Used by Him with Such Remarkable Success "Men who have to do difficult and hour of day or night, can't afford to have anything the matter with their health," said Mr. Donovan. You can imagine, therefore, how much I was alarmed one winter's day in 1902, when I was seized by a pain just behind my right hip that made it difficult for me to walk home.

It was so bad by the time I reached the house that I was obliged to go straight " Did that relieve you?" "No, the pain grew more severe and kept extending downward along my leg. I sent for a physician, and he soon decided that I had sciatica. In a few days the whole nerve was affected, and the

least movement brought on terrible agony." "Did your condition improve under the doctor's treatment?" "Quite the contrary. At the end of two months I wasn't a bit better, and at times I feared that I would never be

able to leave my bed." "How did you get out again?" "When I was lying in bed, unable to move and wasting away in flesh, a friend visited me and told me about the won-Army Officer's Friends Will Appeal to derful cures brought about by a great blood and nerve remedy, Dr. Williams' Pink Pills. I noticed a slight improvement before I had quite finished the first box of the pills, I could get out of bed while I was on the third box, and I was entirely cured by the time I had taken five boxes." GRATEFUL TO CUTICURA

For Instant Relier and Speedy Care of Raw and Scaly Humor, Itching Day and Night for Many Months.

"I do wish you would publish this letter so that others suffering as I have may see it and be helped. For, many months awful sores covered my face and neck, scabs forming which would swell and itch terribly day and night, and then break open, running blood and matter. I had tried many remedies, but was growing worse, when I started with Cuticura. The first application gave me instant relief, and when I had used two cakes of Cuticura Soap and three boxes of Cuticura Ointment, I was completely cured. (Signed) Miss Nellie Vander Wiele, Lakeside, N. Y."

They were instructed to overlook all refunds on account of charity, on account of products, on account of overcharges, on account of which it concentration of products, on account of municipalities, on account of the concentration of mileage book covers and for milling and manufacturing in transit.

State Deprived of Money.

The accountants found that the state had been deprived of a large amount of taxes through the failure of the railroads to properly report their gross earnings. S. W. Gilman and E. C. Mason of Madison were added as accountants and the investigation was carried back for seven years, it being shown that back to and including 1897, \$9,739,933.95 in gross earnings had not been included in the gross passenger earnings reported, the amount of such transportation issued during the last year being given as \$133,645.92. The officials of one company readily admitted that Wiscomsin had been overcharged in matters of this nature.

Mr. Thomas closes his report with the statement that the investigation into private, secret and special rates had not yet terminated and he gives examples of "hectograph special rate sheets." intended for special shippers and not posted for the public, as required by law. In other words, the general public is given the printed rate sheets, while the special shipper to be favored is given a private rate on a "hectograph rate sheet."

Madison, Wis., May 17.—[Special.]—
In the Senate Tuesday evening Gov.

Mr. Thomas states that he found that discriminations had been common and had been the custom for many years, that favored shippers had long been in receipt of rebates. He instances several cases where the rebate amounted to one-half of the tariff charge.

Corporations are shown to have bought transportation in quantity for their employes at greatly reduced figures. The investion of "tickets redeemed" in railroad reports represent refunds and discriminations largely, as the tickets have been used and the transportation has been used and asportation in quantity for their
