

**Kewaskum Statesman.**

SATURDAY, MAY 27, 1905.

**CORRESPONDENCE.**

**DUNDEE DOINGS.**  
Charles Corbett raised his barn last Saturday.  
L. Schenk made a business trip to Campbellsport Saturday.  
Martin Blackmore and wife are re-joining over the recent arrival of a daughter.  
Laurence Corbett and friend, Arthur Leicht of Milwaukee, were guests of the former's parents here this week.  
John Slattery is improving his house by giving it a coat of paint. Thomas Egan of Plymouth is doing the work.  
Miss VanGroot Heisen, who resides on I. D. Stanton's farm, will spend part of next week with Sheboygan friends.  
Lawrence Hurlgen and wife of Du-plainville and William Hurlgen of Sussex returned to their respective homes last week after having visited relatives here for several days.

**So Years Old.**  
Mrs. Sina W. Platt, of Unity, Wis., a lady of 80 years, was recently cured of rheumatism by Gloria Tonic after many well-known remedies were previously used. This happy result ought to be a great encouragement to many of our readers. Sold by Chas. Miller.

**WAUCOUSTA WHISPERINGS.**  
A. C. Buslaff went to Campbellsport on business last Wednesday.  
Mrs. Charles Mielke of Fond du Lac called on Miss Bertha Mielke Wednesday.  
Miss Dora Andler of Milwaukee is visiting at the home of Mr. and Mrs. A. C. Buslaff.

The May ball held at F. Polzean's Hall last night was well attended and a good time was had by all.  
C. Buslaff and daughter Carrie, went to Fond du Lac last Saturday to visit Mr. and Mrs. C. Schaefer.

The marriage of Miss Linda Pieper, daughter of Mr. and Mrs. C. Pieper, and Mr. Richard Rose of Dodge county, was solemnized at the German Lutheran church Wednesday, May 24, at 4 p. m., the Rev. Motzkus performing the ceremony. A reception followed at the home of the bride's parents. Immediate relatives and friends only were present.

**A Narrow Escape.**  
Mr. Henry St. George, of Elm Grove, Wis., thought that he was permanently crippled. Sciatica rheumatism had such an iron grip on him that he thought that he would never be able to walk again, but through the aid of Gloria Tonic he was completely cured, after high priced Doctors failed. Sold by Chas. Miller.

**NEWFANE NEWS.**  
Annie Krueger spent a few days with friends at Kewaskum.  
John Meilahn of Cascade was a pleasant caller here Sunday.  
Frank Stange of Scott spent Sunday with Philip Schaefer.  
William Jandre of New Prospect was a caller here Wednesday.  
Anton Backhaus hired out to work for George Braun this summer.  
Theodore Fick of Campbellsport called on relatives here Tuesday.  
John Schiltz and family spent a few days with relatives at Port Washington.  
Assessor Peter Uelmen of New Prospect was in this vicinity assessing Tuesday.  
Mr. and Mrs. Pieper of Woodland spent a few days with William Koepke and family.  
Mrs. John Wiese and son John of Milwaukee spent a few days with Mrs. F. Wiese.  
Fred Kuester, the cigar manufacturer of Lomira called on his trade here Wednesday.  
The funeral procession of Mrs. Julius Behnke of Cascade passed through here enroute to Gage's cemetery last Sunday.  
Peter Bruchhausen, agent for the August Guellich Company of Milwaukee, called on his trade here last Wednesday.

**That Hollow Cough**  
can easily be cured by using Gloria Lung Balm. It is a sweet, pleasant and soothing preparation and even the worst cases can be relieved at once. It is made of healing and soothing balms and is best for children. Sold by Chas. Miller.

**For Your Protection**  
We place this label on every package of Scott's Emulsion. The man with a fish on his back is our trade-mark, and it is a guarantee that Scott's Emulsion will do all that is claimed for it. Nothing better for lung, throat or bronchial troubles in infant or adult. Scott's Emulsion is one of the greatest flesh-builders known to the medical world.  
We'll send you a sample free.  
SCOTT & BOWNE, 109 Pearl Street, New York

**BOLOVONVILLE BUDGET.**  
David Mertl spent Monday at the county seat.  
Edward Blau spent last Monday at Random Lake.  
Louis Stern spent last Sunday with friends at Kewaskum.  
Albert Hepp of West Bend called on friends here Monday.  
Our cheese factory receives 6,900 pounds of milk daily now.

Miss Ella Lubach entertained a number of her friends Sunday evening, it being her 14th birthday anniversary. Games and dancing were indulged in until midnight when lunch was served and all departed wishing her many happy returns of the occasion.

**Weekly Crop Bulletin.**  
(For week ending Monday, May 27, 1905.)  
The excessive rains which were general over the state during the week ending the 16th continued until the 18th, thoroughly saturating the soil and flooding low lands. In some sections corn and grain fields were badly damaged by washing, while preparations for corn and potatoes were delayed in all portions of the state. The latter part of the week was more favorable, and work was resumed on sandy upland on Saturday. Heavy soils are still too wet to work.  
Growing crops made very little progress during the first of the week on account of the cold, cloudy weather, but during the latter part of the week the increased temperature, with the much needed sunshine, caused all vegetation to come forward rapidly.  
The soil is thoroughly soaked, and warm weather with full sunshine is needed.  
Winter wheat and rye have made satisfactory progress during the week, although growth was checked by some extent by the cold weather during the early part of the week.  
Reports indicate that oats, barley, spring wheat and rye are generally in excellent condition, there being less complaint than usual of poor germination. The excessive rains caused some damage by washing and flooding low lands in a few localities, but as a whole the prospect is encouraging. The stand is good and the plants present a thrifty appearance.  
Planting of corn has been delayed by the rains and progress has been slow. Practically no work on the land was accomplished during the week until Saturday. Preparations for corn are generally well under way and with favorable weather a large acreage will be planted during the next few days. Early plantings are as a rule not germinating well on account of the cold, wet weather.  
Early plantings of potatoes are coming up nicely, but little was done during the week toward planting the late varieties. Preparations for planting are generally well under way, and a few days of dry weather would put the soil in good condition.  
Clover is reported to be in excellent condition and making very rapid growth while pastures are generally furnishing abundant feed. The outlook for a large hay crop is very encouraging.  
Some sugar beets were sown during the latter part of the week and with favorable weather a large acreage will be put in during the next few days. Gardens are making slow growth, on account of the cold, wet weather.  
Apple, pear, plum and cherry trees show abundant bloom. Strawberries are in good condition and promise a good crop.  
Low Rate Excursion Tickets to Milwaukee, via the North-Western Line, will be sold June 15, 16, 17 and 18, with favorable return limits, on account of Biennial Meeting of Modern Woodmen. Apply to agents Chicago & North-Western Railway.  
Very Low Rates to Milwaukee, Wis., via the North-Western Line. Excursion tickets will be sold on June 5 and also June 6 for trains reaching Milwaukee on or before noon of that date, limited to return until June 9, inclusive, on account of I. O. O. F. Meeting. Apply to agents Chicago & North-Western Railway.

**LOCAL MARKET REPORT.**

**A MATTER OF HEALTH**  
**ROYAL BAKING POWDER**  
Absolutely Pure  
HAS NO SUBSTITUTE

**A Sensible Merchant.**  
A merchant in a small town in Indiana, instead of writing to his local daily, complaining about the roads made upon his business by the large mail order houses, goes about in a sensible way to counteract this competition, and his plan has proved very successful. This merchant notes very carefully the prices on some of the principal articles advertised by his competitors, and once a week he takes a page ad. in his local daily, offering similar articles for less than the prices quoted in the mail order house catalogues. He will take a buggy for instance, that is advertised for \$36.50, to which he will add the express charges, estimating the charges to his city to be about \$4.70, making a total cost of somewhere around \$41.20. This price the country merchant quotes as his competitor's price and in the next column he offers to sell an equally good buggy for \$40 cash, with the further advantage that it need not be paid for until the buggy is delivered and found satisfactory, whereas, he points out, his customer will have to send cash to the distant house before the buggy is sent. The manner in which this small country merchant goes about it offers other merchants similarly situated a sensible solution of the problem of how to retain their trade. -Mail Order Journal.

**RESTORED TO HEALTH.**  
THANKS TO PE-RU-NA.  
Friends Were Alarmed—  
Advised Change of Climate.

Miss Mildred Keller, 718 13th st., N. W., Washington, D. C., writes: "I can safely recommend Peruna for catarrh. I had for years and it would respond to no kind of treatment, or if it did it was only temporary, and on the slightest provocation the trouble would come back."

"I was in such a state that my friends were alarmed about me, and I was advised to leave this climate. Then I tried Peruna, and to my great joy found it helped me from the first dose I took, and a few bottles cured me."

It built up my constitution. I regained my appetite, and I feel that I am perfectly well and strong. —Mildred Keller.

We have on file many thousand testimonials like the above. We can give our readers only a slight glimpse of the vast array of unsolicited endorsements Dr. Hartman is receiving.

**AT BED TIME I TAKE A PLEASANT HERB DRINK**

THE NEXT MORNING I FEEL BRIGHT AND NEW AND MY COMPLEXION IS BETTER.

My doctor says it acts gently on the stomach, liver and kidneys and is a pleasant laxative. This drink is not a medicine, but a pleasant and refreshing beverage. It is called "Lane's Family Medicine."

**LANE'S FAMILY MEDICINE**

One bottle cures the most stubborn cases of constipation, biliousness, indigestion, headache, neuralgia, and all the ailments of the bowels. It is a pleasant and refreshing beverage. It is called "Lane's Family Medicine."

An Easy Test.

Senator W. Murray Crane, at a Thanksgiving celebration in Dalton, talked about turkey.

"From November on through the winter season," he said, "it is his habit to know how to tell a good turkey from a bad one—young and tender from an old and tough bird."

"A farmer once examined his chore boy," he said, "and told me that he had a young one from an old turkey?"

"Yes, indeed, I can," Roger answered.

"How do you tell?"

"By the teeth," he replied.

"Oh, rubbish, nonsense!" said the farmer. "I am ashamed of you, Roger. Turkeys have no teeth."

"No," said Roger, grinning, "but I have." —New York Tribune.

Lockjaw for Forty Years.

John Pero, 75 years old, died at Bay City, Mich., from lockjaw. From his sufferings for forty years. Pero was a veteran of the Civil war. In one of the severest he was wounded and subsequently lockjaw set in. Since that time all his food has been taken in liquid form through a tube. His speech was also destroyed and he has made himself understood by signs. His only relative was a grandchild, with whom he lived. Doctors say this is one of the most remarkable cases of tetanus on record.

Oil Well Found.

The Port Huron (Mich.) bathhouse mineral well has turned into a fountain per day of oil gusher. The pump in the well had not been in use for a month and when started oil was brought to the surface which is said to be 80 per cent. pure crude petroleum.

—Senator Manuel Garcia was appointed an honorary member of the Vienna Laryngological society on the occasion of his 100th birthday.

I have used Pilo's Cure for Cough with good results. It is all right. —John W. Henry, Box 942, Fortonia, Ohio, Oct. 4, 1901.

"The parting words of a barber are 'Which side, please.'"

**FROM WEST HAM TO CANADA.**  
Emigration Called In to Relieve London of Its Suffering Poor.

Last night saw the departure of the fourth batch of families sent from East London to Canada, under the scheme organized in connection with the Relief Loan and the Relief Loan of West Ham. It was the largest party of emigrants that has sailed so far, but it is not the largest party that will be sent. The party consisted of 200 families, 1,000 persons, and 1,000 children, and was bound for the Dominion, and thus early encouraging reports have come to hand of the success of the project in the direction of securing employment for those who have been able to take advantage of it.

Practically, upon landing, the breadwinners of six out of the thirteen families which left this country on January 23 were placed in situations, while for the remainder temporary work was found, pending the provision of permanent jobs. Apart from other reasons, the confidence felt by them as to their future in the new country enabled the emigrants whose departure took place last night to depart with a happy and cheerful face.

As a matter of fact, thanks to the system adopted, the families which were sent to the present emigration under the care of the Self-Help Emigration Society were not sent to a foreign land, but were largely to the fact that the younger people have been tempted in great numbers to go west, where better wages are obtained, and, proportionately, it should not be forgotten, a higher cost of living also.

—London Telegraph.

**RUMOR OF JAPANESE DEFEAT**  
Manila Hears of Clash Between Rival Fleets in Far East.

Russian Squadron of Five Warships Seen on May 20 Near Bataan Islands.

Manila, May 25.—There is an unconfirmed rumor here that the Russian and Japanese fleets have met south of Formosa and that the Japanese were defeated.

Official advice has been received from Nippon that on May 20, 1901, two vessels were sighted off the coast of Luzon in a northeast direction. It is supposed that the vessels were Russian.

The Bataan Islands are about half way between Luzon and Formosa.

Jap Defeat Not Confirmed.

St. Petersburg, May 25.—The admiral has no information contradictory of the Manila report of the defeat of Admiral Togo south of Formosa. While it is considered possible that there may have been a brush between scouts, the idea of an open battle with Togo in the afternoon is not believed.

It is estimated that the Russian fleet should not be far out in the Pacific, at least 1,000 miles from the coast where the battle is reported to have occurred.

Paris, May 25.—The foreign office and the Russian and Japanese legations here are in receipt of information in regard to the rumor from Manila of a naval engagement between the Russians and Japanese.

At Mouth of Yangtze River.

Shanghai, May 25.—It is creditably reported that five volunteer cruisers of the Russian fleet, accompanied by three officers and one Russian cruiser, arrived at the mouth of the Yangtze river this afternoon off the coast of China.

It is estimated that the Russian fleet should not be far out in the Pacific, at least 1,000 miles from the coast where the battle is reported to have occurred.

Paris, May 25.—The foreign office and the Russian and Japanese legations here are in receipt of information in regard to the rumor from Manila of a naval engagement between the Russians and Japanese.

At Mouth of Yangtze River.

Shanghai, May 25.—It is creditably reported that five volunteer cruisers of the Russian fleet, accompanied by three officers and one Russian cruiser, arrived at the mouth of the Yangtze river this afternoon off the coast of China.

It is estimated that the Russian fleet should not be far out in the Pacific, at least 1,000 miles from the coast where the battle is reported to have occurred.

Paris, May 25.—The foreign office and the Russian and Japanese legations here are in receipt of information in regard to the rumor from Manila of a naval engagement between the Russians and Japanese.

**GRIP'S UGLY SEQUEL**  
KNEES STIFF, HANDS HELPLESS, RHEUMATISM NEAR HEART.

Mrs. Van Scoy Experiences Dangerous After-Effects of Grip and Losses Value of a Blood Remedy.

The grip leaves behind it weakened vital powers, thin blood, impaired digestion and over-sensitive nerves—a condition that makes the system prey to pneumonia, bronchitis, rheumatism, nervous prostration, and even consumption.

The story told by scores of victims of the grip is substantially the same. One was tortured by terrible pains at the base of the skull; another was left blind and in every way wretched from anæmia or scurvy of blood; another had horrible headaches, was nervous and could sleep; another was left with weak lungs, difficulty in breathing and acute neuralgia. In every case relief was sought in vain until the great blood-builder and nerve-tonic, Dr. Williams' Pink Pills, was used. For quickness and thoroughness of action nothing is known that will approach it.

Mrs. Van Scoy makes a statement that supports this claim. She says: "I had a severe attack of grip and, before I had fully recovered, rheumatism set in and tormented me for three months. I was in a badly run-down state. Soon after it began I was so lame for a week that I could hardly walk. I kept growing steadily worse and at last I had to give up completely and at most 1,000 miles from the coast where the battle is reported to have occurred."

Paris, May 25.—The foreign office and the Russian and Japanese legations here are in receipt of information in regard to the rumor from Manila of a naval engagement between the Russians and Japanese.

At Mouth of Yangtze River.

Shanghai, May 25.—It is creditably reported that five volunteer cruisers of the Russian fleet, accompanied by three officers and one Russian cruiser, arrived at the mouth of the Yangtze river this afternoon off the coast of China.

**SOLDIERS AWAITING A CALL TO ARMS.**  
CHICAGO STRIKE SPREADING AND MILITIA WILL PROBABLY BE ORDERED OUT.

Police Are Sweeping in More Men, but They Seem Unable to Handle Situation.

Chicago, Ill., May 25.—Troops were not called today to control the strike situation and may not be tomorrow. With 3,000 deputy sheriffs on duty today and 2,700 city police energetic in furnishing protection for teaming, the city authorities were a unit with Sheriff Barrett in the positive statement that soldiers were not needed yet.

Chicago, Ill., May 25.—Charles M. Dold, president of the Chicago Federation of Labor, announced this afternoon that a committee representing his organization, would be appointed to call on the city authorities and ask them to let him use his good offices to end strike.

New York, May 25.—Senator Platt, spreading each hour in the lumber disarray, said today that the striking express drivers in Chicago would never be taken back by their employers.

Chicago, Ill., May 25.—With the strike spreading each hour in the lumber district and no signs of peace in sight, affairs in the city are becoming a serious prospect.

Chicago, Ill., May 25.—The police department today issued a call for 10,000 able-bodied citizens to report at 10 o'clock tomorrow at the city hall for service as policemen to do strike duty.

Sheriff Barrett continued to swear in his militia and to have them ready since the beginning of the strike now numbers 4,000, one-fourth of whom are active deputies assigned to protect non-striker drivers and wagons.

Armed sentries were guarding the various streets, and the militia were on duty and the officers expected a call to arms at any moment. Fifty thousand rounds of ammunition were being distributed among the four regiments in the city and the militia.

Secretary of the Hines Lumber company, said today that he had a week 10,000 men who work in the lumber district and who are being sent to the west coast of the United States.

F. D. Smith of the hardwood lumber firm of F. R. Crane company asserted that he had 10,000 men who work in the lumber district and who are being sent to the west coast of the United States.

Five men, said to be union slugs, attacked today, beat him, kicked him and left him unconscious on the street. Dozens of persons who saw the attack made no effort to lend aid or to rescue the negro.

Worth Remembering.

There are three entirely different kinds of ingredients used in making the market, viz.—(1) Mineral-Acid or Alum, (2) Bone-Acid or Phosphate, and (3) Cream of Tartar. It is important from the standpoint of the condition of the soil and the soil, and which kind is used in your baking powder.

(1) Mineral-Acid or Alum, is made from a kind of clay. It is mixed with diluted oil of vitrol and from this solution is made a powder. It is a cheap powder, and baking powder made with this kind of Alum, costs about 10 to 25 cents a pound.

(2) Bone-Acid or Phosphate, is the best powder for use in baking. It is made from the bones of animals and is the most expensive. It is the only ingredient that should be used in a baking powder. It is made from the bones of animals and is the most expensive. It is the only ingredient that should be used in a baking powder.

(3) Cream of Tartar, is the best powder for use in baking. It is made from the tartar of wine and is the most expensive. It is the only ingredient that should be used in a baking powder.

**NOT A PICTURE CARD.**  
Remarkable Deal in a Poker Game at Newark, N. J.

Poker players at Newark, N. J., can play nothing else except a game called the other evening, which included one of the most remarkable sets of poker hands ever dealt over a table.

There were five men in the game, and they were playing for a stake of \$100. The next man saw his bet. The third player raised to the limit, and the man next to him did the same, as did the dealer. The limit was \$1, and the raising was continued until about \$70 was in the pot. Then came the call for cards.

No. 1 said he did not care for any, and looked wise. No. 2 knicked the table with his knuckles, signifying that he thought he had a winner without going to the dealer. No. 3 said he was satisfied, and the dealer remarked that if nobody else was going to raise a card he guessed he could get along without any also.

Then the betting began and there were raised several more than \$100 was in the center of the table, represented by chips of all colors. There were five men in the game, and the dealer called was made only one man, the dealer had laid down his hand, everybody call, displayed a full house, three aces and a pair of sevens. No. 2 looked wise and did not say anything. No. 3, however, in the belief that he had the pot as good as won, showed three tens and a pair of fours, and the dealer, turning over his discarded hand, displayed rights full house, three aces and a pair of sixes.

Railroads and Progress.

In his testimony before the Senate Committee on Interstate Commerce at Washington on May 4th, Prof. Hugo H. Sawyer of Chicago University, an expert on railroad management, made this statement:

"Let us look at what might have happened if we had heeded the protests of the farmers of New York and Ohio and Pennsylvania (in the seven States where grain from the west began pouring to the Atlantic seaboard) and acted upon the doctrine which the Interstate Commerce Commission has enunciated time and again, that no man may be deprived of the advantage of his geographical position, we could not have had the Mississippi a population of millions of people who are prosperous and are great consumers. We never should have seen the years when we built 10,000 and 12,000 miles of railway, for there would have been no farmers west of the Mississippi River who could have used the land that would have been opened up by the building of those railways. And if we had not seen the years when we could build 10,000 and 12,000 miles of railway a year, we should not have had the Mississippi a population of millions of people who are prosperous and are great consumers. We never should have seen the years when we built 10,000 and 12,000 miles of railway, for there would have been no farmers west of the Mississippi River who could have used the land that would have been opened up by the building of those railways. And if we had not seen the years when we could build 10,000 and 12,000 miles of railway a year, we should not have had the Mississippi a population of millions of people who are prosperous and are great consumers. We never should have seen the years when we built 10,000 and 12,000 miles of railway, for there would have been no farmers west of the Mississippi River who could have used the land that would have been opened up by the building of those railways. And if we had not seen the years when we could build 10,000 and 12,000 miles of railway a year, we should not have had the Mississippi a population of millions of people who are prosperous and are great consumers. We never should have seen the years when we built 10,000 and 12,000 miles of railway, for there would have been no farmers west of the Mississippi River who could have used the land that would have been opened up by the building of those railways.
