Sebastopol Battle Shows Up Condition of Russia.

THOUSANDS WERE SLAIN.

Telegraphic and Postal Strikes Have Isolated Government from All Points of Danger.

ODESSA, Nov. 30 .- People fearing the mutineers' ships are coming from opol are ready to flee.

Situation Is Alarming. ST. PETERSBURG, Nov. 30.-(3:15 p. m.)-At this hour the situation is nost alarming. All telegraphic commualcation has ceased. Workmen's councils decreed that the postoffice must close today, shutting off every other avenue of communication except a government wire to Moscow and indirect connection with Sebastopol.

With most sensational stories here that the guard regiments are ready to make trouble, and while all official news received from Sebastopol is kept secret, the wildest excitement is due here owing the reports of a battle at that port yesterday between mutineers and the steadfast soldiers and sailors.

The navy department is closed, except to the general staff. No official statement on the battle has been issued.

Battle at Sebastopol.

Five Thousand Were Slain.

The Novosti says that 5000 men perished on both sides. The leaders of the mutineers, it is added, have already been executed, two battleships have been blown up and mines have been laid at the entrance of the roadstead.

Lieut. Schmidt, the elected commander of the mutinous fleet, fired the first shot, according to a special dispatch. He gave the signal to attack the town immediately after 3 p. m., when his ultimatum to the authorities expired. The sailors and soldiers intrenched in the north fort, after a sanguinary battle lasting three hours, were driven out by a bayonet charge, every man being killed, wounded or captured. Fire, produced by the rebel bombardment, did a vast amount of damage to the town.

Find of Michelangelo Drawings. While Florence possesses the finest collection in the whole world of drawings by the old masters, it is a singular fact that until a chance discovery redressed the balance in her favor she was, in respect of drawings by Michelangelo, poorer than either London, Paris or Vienna. Prof. Ferri and Dr. Jacob A telegram came for him. It was from Mr. Abingdon.

"Can see you after 6 at my house."
Then Philip enjoyed his first real breathing space during hours of daylight. He went by train to the cemetery in which his mother was buried, carrying with him a beautiful wreath.

It was a remarkable fact that this was the first visit he had paid to her grave. During the days of misery and partial madness which followed her death he never lost the delusion that her spirit abided with him in the poor dwelling.

"It was really all in my blood. I first felt a twinge in my left foot and ankle in the middle of last January, following matism and I knew that really comes from bad blood. Cold simply develops it. Then my hands and feet were cold and clammy even in hot weather, and numb a great part of the time. I con-cluded that my blood was thin and poor

"After a time my feet and ankles swelled so badly that I could only tie my shoes half way up. My legs swelled terribly and I could walk only a short distance before giving out completely. "When I read of the cures of all kinds of blood diseases, that had been effected by Dr. Williams' Pink Pills, I was convinced that they were just the remedy for my case, and so it proved. I could see that they were benefiting me before I had quite used up the first box. The improvement was decidedly marked after I had taken two boxes. Three more boxes restored my hands end feet and

Two lifelong friends had one of their girlish wishes come true at life's end. Mrs. M. Underhill of Osseo, Mich., had been visiting her former schoolmate and "chum." Mrs. J. Hunt, at Calumet Park, near Hammond, Ind. Shortly after her arrival at Mrs. Hunt's Mrs. Underhill became ill, and physicians decided to operate on her. The operation, which took place last week, proved fatal, and the woman rallied only long enough to bid her friend good-bye. The shock of the death of her old school friend was too much for Mrs. Hunt, and she was stricken with heart failure shortly afterward, dying a few hours later. The two bodies were shipped to Osseo, Mich., for burial. When the two women were schoolgirls together they are said to have expressed the wish to die together, neither caring to live after the other's death.

Mrs. Louis Koepnick is confined at the home of her daughter, Mrs. Hirte, at North Fond du Lac, with her left hip broken and a fracture to one of her legs, besides several severe bruises about the body, as the result of being struck by a street car. Mrs. Koennick was walking along the middle of the track, and before she could get out of the way she was hit by a south-bound car and thrown some distance. On account of the fact that she is 76 years of age, fears are ex-pressed for her recovery.

William Mueller, a farmer residing in the town of Empire, was rendered un-conscious about 5 o'clock Monday aft-ernoon by falling from the step of a street car. Mueller had boarded the 5 clock interurban car near the corner Forest avenue and then he decided to get off and take a city car. In turning to look around he fell off the step and struck his head. Deer Shooting in Austria.

In the field of sport Austria is a country where they do everything on a large scale. Partridges are bagged by the thousand; so are hares. Even in such bigger game as deer the "bags" are in enviable contrasts with anything known in England. Baron Alfred de Rothschild possesses a deer forest at Langau, and although the season is only a few weeks old, 100 head have already fallen to the gun. What the total will be before close time sets in one can scarcely conjecture. In this country a hundred head is considered a fine yield for a whole season.—

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it falls to cure. Send for circulars and testimonials.

"Mull's Grape Tonic must possess some

peculiar quality that no other constipation and stomach remedy has. All who use it say that it adds to the strength and general health and makes them feel better in every way. We all know that ordinary physics and cathartics have exactly the opposite effect - they have a weakening tendency.
