REAL BUCKING BRONCHOS.

Simon Pure Ones Will Soon Be as Scarce as Buffaloes.

The outlaw horse, for years past the hero of broncho-busting in the south and west, is rapidly becoming a thing of the past, and in ten years will be more scarce than the fast-dying buffalo and the old-time cowboy, according to John M. Kuykendall, who makes a specialty of collecting the wildest horses that can be procured for bucking contests.

"Ten years ago the outlaw was as

From statements contained in German papers it seems that appendicitis, or inflammation of the vermiform appendix, has assumed the disagreeable character of becoming more and more a fashionable disease. Surgery has achieved great triumphs in this sphere, and has cured innumerable cases of the disease. The French surgeon, Roux, however, has asked the question: "Is appendicitis over if one carries his appendix in one's pocket?" and his answer was not entirely affirmative. From the statement of Dr. Frederick Trever. one of the foremost authorities and physician of King Edward, similar doubts appear. According to the experiences of this great expert, failures may occur, which he treats in two groups. On the one hand the operation may only result in relief or an incomplete cure; on the other hand, complications are to be feared which do not depend upon the surgical intervention. Only the surgeon is concerned to study the details of the deductions of Dr. Treves in order to more fully learn of the eventual dangers which may follow an operation. For the patients, it must be stated that an operation remains the most pre-eminent remedy, if not the only one, of which a complete cure is to be expected. Operations for Appendicitis.

General Strike Is Begun and Witte Must Rise or Fall.

BLOODSHED PROMISED.

Physicians Will Refuse No One Help, but Promise All Receipts Will Go to the Strike Funds.

ST. PETERSBURG, Dec. 21.-The general strike began here at noon today. The first guns in the battle which may determine the fate of Premier Witte's experiment with moderate constitutionalism, and introduce either reaction or a complete revolution, were fired Wednesday at Moscow, where the general strike was successfully inaugurated.

Railway Strike Begins. The railroad strike began at the Nicholas station at noon, but the Baltic roads were still working at that hour. The employes of the Putiloff Iron works to the number of about 12,000 have struck.

Some trains are being run under mili tary guard.

Insurgents Stop Trains. The government's advices show that all the trains with the troops which enter the Baltic provinces are being stopped by the insurgents, A number of Cossacks in a car were captured and disarmed beyond Dorpat.

The town of Tukum has been retaken from the insurgents by Rissian troops.

suing final orders.

The workmen's council last night issued a stirring proclamation declaring that the government had cast to the winds the principles of the imperial manifesto of October 30 and was now basing it on reaction, trickery, and deceit.

Promise Armed Revolution. The strike leaders at Moscow are boasting that the strike will be transformed into an armed revolution, the orators at the meeting declaring that Russia will be drenched with blood before the long struggle ends.

Gen. Doubassoff, governor general of Moscow, who has taken possession of the late Grand Duke Sergius' palace in that city, delivered an address to the municipal authorities in which he deflected an authorities in which he deflected an authorities in agitators.

Not very long ago, a popular magazine published an editorial article in which the writer asserted, in substance, that all disease should be regarded as criminal. Certain it is, that much of the sickness and suffering of mankind is due to the violation of certain of Nature's laws. But to say that all sickness should be regarded as criminal, must appeal to every reasonable individual as radically wrong.

wrong.

It would be harsh, unsympathetic, cruel, yes criminal, to condemn the poor, weak, over-worked housewife who sinks under the heavy load of household cares and burdens, and suffers from weak-nesses, various displacements of pelvic organs and other derangements peculiar

to her sex.

Frequent bearing of children, with its exacting demands upon the system, coupled with the care, worry and labor of rearing a large family, is often the cause of weaknesses, derangements and debility which are aggravated by the many household cares, and the hard, and never-ending work which the mother is called upon to perform. Dr. Pierce, the maker of that world-famed remedy for woman's peculiar weaknesses and ills—Dr. Pierce's Favorite Prescription—says that one of the greatest obstacles to the cure of this class of maladies is the fact that the poor, over-worked housewife can not get the her sex. of this class of maladies is the fact that the poor, over-worked housewife can not get the needed rest from her many household cares and labor to enable her to secure from the use of his "Prescription" its full benefits. It is a matter of frequent experience, he says, in his extensive practice in these cases, to meet with those in which his treatment fails by reason of the patient's inability to abstain from hard work long enough to be cured. With those suffering from prolapsus, anteversion and retroversion of the uterus or other displacement of the womanly organs, it is very necessary that, in addition to taking his "Favorite Prescription" they abstain from being very much, or for long periods, on their feet. All heavy lifting or straining of any kind should also be avoided. As much out-door air as possible, with moderate, light exercise is also very important. Let the patient observe these rules and the "Favorite Prescription" will do the rest.

"That is odd," thought Philip, who had witnessed both incidents in the course of

a six yards' walk. He glanced at the excavation. The cabman lashed at him cabman, and fancied the man gave a in vain, and swore, too, with remarkable peculiar look of intelligence toward a fluency for one so drunk. Both wheels couple of fashionably dressed loungers who stood in the shadow of the closed public entrance. The two men, without exchanging a

word to Philip's hearing, went to a brougham standing at some little dis-tance. They entered. The coachman, the same direction as the hansom, and, as if to make sure he was being followed, the cab driver turned to look behind him Once, in Naples, Philip saw a man stealthily following a woman down an unlighted alley. Without a moment's hesitation he went after the pair, and was just in time to prevent the would be assassin from plunging an uplifted stiletto into the woman's back. The recollection of that little drama flashed into his mind now; there was a suggestion of the Neapolitan bravo's air in the manner in which these men stalked a girl

who was quite unaware of their move He asked himself why a cabman should refuse one fare and pick up another in the same spot. The affair was certainly odd. He would see further into it before he dismissed it from his thoughts. The

There was a sudden crash of wood, a woman's scream, and the horse was struggling wildly amidst a pile of loose, woode while one wheel of the cab dropped heavily into a shallow trench. Simultaneously the brougham pulled up

and its two occupants rushed to the scene of the accident. Philip's driver, of course, obeyed instructions, but he shouted to his fare as he jumped into the road: "That feller's either drunk or 'e did

Philip, behind the hansom, was unseen. He remained a critical observer. "I fear he is intoxicated," was the re-"Here, you! How came you to make such a blunder?"

BODY MASS OF SORES.

Could Not Sleep, Spent Hundreds of Dollars on Doctors, but Grew Worse-Cured by Cuticura for \$8.

"Cuticura saved the life of my mother, Mrs. Wm. F. Davis, of Stony Creek Conn. Hers was the worst eczema I ever saw. She was hardly able to eat or sleep. Her head and body was a mass of sores, and she despaired of recovery. Finally, after spending hundreds of dollars on doctors, growing worse all the time, living in misery for years, with hair whitened from suffering and body terribly disfigured she was completely cured by two cakes of Cuticura Soap, five boxes of Cuticura, and three bottles of Cuticura Resolvent.-Geo. PECAN SHELLING.

Many Hundreds of People Occupied in Extracting the Kernels of Nuts.

Some idea of the magnitude of the pecan nut meat industry may be had when it is stated that in San Antonio, Tex., alone there are 1700 members of the Pecan Shellers' union. a labor or-ganization composed of men engaged as a regular business in the shelling of pecan nuts and extracting the delicious kernels.

kernels.

Not all of the pecan shellers in San Antonio belong to the union. There are several hundred other men, women and children in that city who gain a livelihood from the work. There are branches of the Pecan Shellers' union in Austin and several other towns of the state.

The pecan nut shelling season lasts from October 1 to July 1. The new crop of nuts begin to come into market about October 1, and from then until January 1 the business of extracting the kernels is very active. The kernels are shipped in large bulk to New York, St. Louis and other cities, where they are used by confectioners in the manufacture of can-

and the highest art of the candymaker was employed in their use. The pecan candy became popular almost instantly and other orders for the pecan kernels and other orders for the pecan kernels were placed.

That was the beginning of an industry which now gives employment to several thousand people. There is a big demand for the pecan kernels in every large city in the country.

Chrysanthemums, it is said, were cultivated in China before the Eleventh century. A large centrifugal pump at a Brighto (England) bath stopped working, and an examination revealed the presence in a pipe of a pigeon's nest with two eggs. To reach its nest the bird had to find its way through a six-inch diameter pipe horizontal for six feet and bending sharply into a six-feet perpendicular.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed fozever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
