If a Cow gave Butter

mankind would have to invent milk. Milk is Nature's emulsion—butter put in shape for digestion. Cod liver oil is extremely nourishing, but it has to be emulsified before we can digest it.

Scott's Emulsion

combines the best oil with the valuable hypophosphites so that it is easy to digest and does far more good than the oil alone could. That makes Scott's Emulsion the most strengthening, nourishing food—medicine in the world.

Fine Farm Lands in South-eastern North Dakota.

Investors and Actual Settlers Pouring in and Land Rapidly Advancing in Price.

J. H. Hardgrove of Fond du Lac, district manager for the Adams & Fries Land Co. of Lisbon, North Dakota, was in Kewaskum one day last week looking up prospective land buyers, and while at the office of the STRAUBS, said the rush of land buyers to North Dakota this season will be greater than ever before as people in general not farmers alone but also men who have little money and want to invest are beginning to realize the fact that if they are going to secure a piece of land before the prices go out of sight they will have to get it at and not spend much time either as it will be a short time before the land which we are selling in North Dakota at prices ranging at present from \$15 to \$30 will be selling for the same as our land in Wisconsin is selling at today. Our land but a few years ago was selling at \$40 per acre today the same land is selling at over \$100 and is no better and in my estimation not as good as the Dakota land a few years ago. The land in Iowa could be bought for \$15, today that same land is selling around \$100; the Minnesota land ten years ago was selling at \$10 per acre, and now that same land sells for \$75 to \$100, and all of this land still advancing and when taking all these things into consideration I can't see, said Mr. Hardgrove, why a man seeking a new home or a man having idle money or money which is bringing but a small rate of interest will not get a move on himself and purchase a piece of this fine land before it goes higher and he has lost the opportunity forever. There are three things said Mr. Hardgrove which is bound to advance the price of land and make an investment absolutely safe.

The first is the rapidly increasing population which is creating a demand for the land and the products grown upon it.

The second is the fact that the good government land is all gone, and what is still to be had is rough grazing land and will never be valuable for general farming.

The third is, there is more idle money seeking investment today than ever before, the bulk of which will be invested in land.

We can never get any more acres than we have already got but we are getting millions and millions more people to settle up the land and consume what it produces.

In regard to location, said Mr. Hardgrove, our land is located in Ransom

FOR NERVOUS PEOPLE

A Michigan Mother Preserved to Her Family by Dr. Williams' Pink Pills

When the blood is impoverished the nerves starve and neuritis or something more serious swiftly follows. Nervous people are generally pale people. By supplying through the blood those vital elements that the nerves need, Dr. Williams' Pink Pills for Pale People have performed those remarkable cures that make it impossible for any nervous sufferer to neglect them.

A recent case is that of Mrs. Peter Morrisette, of No. 315 Eleventh street, Alpena, Mich., who writes as follows: "My trouble started with chills. After one of my attacks I became a kind of paralytic. I was very weak and my mouth was a little crooked. I was always tired and was so nervous that I could not bear to hear a dog bark or a bell ring—even the little bird in its cage would annoy me. My heart fluttered a great deal and I had dizzy spells. I was not able to do any work."

"My doctor gave me different kinds of medicine, changing it several times. When it was evident that it would not help me he said he did not understand my case. This was three years ago and I was very much discouraged, when my Pink Pills, recommended to me, I tried them and noticed a change for the better when I was taking the second box. Dr. Williams' Pink Pills cured me. I have been well ever since. I can do all my own housework, sewing and washing for seven of us."

Dr. Williams' Pink Pills have also cured diseases caused by impure or impoverished blood such as rheumatism, anemia and after-effects of the grip. All druggists sell Dr. Williams' Pink Pills or the remedy will be mailed, post-paid, on receipt of price, 50 cents per box, six boxes for \$2.50, by Dr. Williams Medicine Co., Schenectady, N. Y.

National Songs Criticized. "The Star Spangled Banner" cannot be sung satisfactorily, and "America" is set to an English air, contrary to the United States should offer a prize to composers and make an effort to obtain a satisfactory national song.

Such was the argument advanced by Julius I. Lyons of New York, who called Secretary Hays' attention to the matter to enlist him in a movement to acquire a new national hymn. Mr. Bonaparte professed an ignorance of music, which made it impossible for him to condemn songs now in use, and told Mr. Lyons that he could not be popular unless it was in some way connected with an event in history of great importance.

A PRECARIOUS CONDITION. Many Women Suffer Daily Miseries and Discomforts. Women who are languid, suffer backache and dizzy spells, should read carefully, the experience of Mrs. Laura Sullivan, of New York.

Whodasia's Largest Nugget. Weighing 21.62 ounces, a gold nugget, which measures 5 1/2 inches in length and 1 1/2 inches in width, was discovered near Buena Vista. It is believed to be the largest yet found in Whodasia, and is now in the British South Africa Company's museum at 2 London Wall Buildings, E. C., London, Mail.

TO CURE A COLD IN ONE DAY. Take LAXATIVE BROMO QUININE TABLETS. Druggists refund money if it fails to cure. E. W. Walker's signature is on each box.

SISTER JEAN.

By the Author of "Bubbles," "In His Father's Footsteps," "Better Than His Word," "No Immediate Prospect," Etc.

CHAPTER VII.—(Continued.) "I beg your pardon, I am a brute," he says wearily; "but I did not expect to hear that. I should have thought you would have known a man down for hitting at such a thing."

CHAPTER VIII. AND LAST. "Hallo, Barclay! Where the dickens have you been hiding yourself?" "That you, Hayer? I have been out of town."

CHAPTER IX. "I should think you have," Reginald Hayer rejoins, eyeing his friend curiously. "I have just been to your rooms to leave a note, and there is a stack of letters awaiting you."

CHAPTER X. "I don't know," he says promptly. "I shall find a pile of work waiting for me."

CHAPTER XI. "That is partly why I came—can you recommend a nurse for them?" "I do not know—very likely," she says thoughtfully. "I will see tomorrow."

CHAPTER XII. "I don't know," he says promptly. "I shall find a pile of work waiting for me."
