Result of Complaints. The decision is the result of a complaint made by O. G. Kinney against the Wisconsin Central railway and later by a complaint of Walter L. The complaints gave rise to an investi-gation of grain rates between stations in Wisconsin and Milwaukee by the railway commission acting on its own mo-tion. The complaints involved grain rates from Colfax and Mondovi to Milwaukee only.

IMPORTANCE OF BUYING CREAM SEPARATORS

THROUGH LOCAL AGENTS. This heading voices a most important consideration in the purchase of a Cream Separator, and points a most serious ocjection to the purchase of such a machine by the "mail order" method, even if good separators were sold in

While the Cream Separator is a simple machine when once understood, it is nevertheless of the greatest possible importance that it be set up and started just right, and that the user have the brie personal use instruction necessary in its handling and operation. The following letter is only one of any thousands which are on file in the Pinkham office, and go to prove beyond question that Lydia E. Pinkham's Vegetable Compound must be a remedy of great merit, otherwise it could not produce such marvelous results among sick and ailing women.

Dear Mrs. Pinkham:-Dear Mrs. Pinkham:—

"About nine months ago I was a great sufferer with female trouble, which caused me severe pain, extreme nervousness and frequent headaches, from which the doctor failed to relieve me. I tried Lydia E. Pinkham's Vegetable Compound, and within a short time felt better, and after taking five bottles of it I was entirely cured. I therefore heartily recommend your Compound as a splendid female tonic. It makes the monthly periods regular and without pain; and what a blessing it is to find such a remedy after so many doctors fail to help you. I am pleased to recommend it to all suffering women."—Mrs. Sara Wilson, 31 East 3d Street, Cincinnati, Ohio.

If you have suppressed or painful periods, weakness of the stomach, indigestion, bloating, pelvic catarrh, nervous prostration, dizziness, faintness, "don't-care" and "want-to-beleft-alone" feeling, excitability, backache or the blues, these are sure indications of female weakness, or some derangement of the organs.
