## ODESSA FOR EXTERMINATION.

Proclamations Spread About City Cause Gravest Fears-Awful Scenes at Siedlee Are Described.

ST. PETERSBURG, Sept. 13.-Anti-Jewish agitation is rife in Odessa. Wall spaces, the sides of houses, and telegraph poles throughout that city have been plastered with a proclamation issued by the "Union of Russian People," urging patriots to combine to exterminate the Jews. This action has aroused grave apprehension among the peaceful-

A pitiful feature of the excesses was the death from thrist of many wounded persons who were abandoned by friends in houses from which the persons who were abandoned by friends in houses from which the people were forced to flee for their lives. Firemen are searching deserted houses for bodies. There is reason to believe that this attack on the Jews is traceable to the murder of an official on August 21, and the events of Saturday supplied the necessary spark to inflame the passions of the soldiers. This view is supported by an article in the semi-official Russian newspaper published in Warsaw, which attributes the rage shown by the soldiers to this cause.

### Verdict for Dr. Pierce AGAINST THE

Ladies' Home Journal.

Sending truth after a lie. It is an old maxim that "a lie will travel seven leagues while truth is getting its boots on," and no doubt hundreds of thousands of good people read the unwarranted and lous attack upon Dr. R. V. Pierce and his "Favorite Prescription" published in the May (1904) number of the Ladies' Home Journal, with its great black display headings, who never saw the hum-ble, groveling retraction, with its inconspicuous heading, published two months later. It was boldly charged in the slanderous and libelous article that Dr. Pierce's Favorite Prescription, for the cure of woman's weaknesses and ailments, contained alcohol and other harmful ingredients. Dr. Pierce promptly brought suit and in accordance with the law a place and in accordance with the law a place. against the publishers of the Ladies' Home Journal, for \$200,000,000 damages.

Dr. Pierce alleged that Mr. Bok, the editor, maliciously published the article containing such false and defamatory matter with the intent of injuring his sylurthermore, that no alcohol, or jurious, or habit-forming, drugs wer were, contained in his "Favorite tyes ription"; that said medicine is made from native medicinal roots and contains no harmful ingredients what-ever and that Mr. Bok's malicious statethe were wholly and absolutely false, of the retraction printed by said Journal by were forced to acknowledge that they I obtained analyses of "Favorite Preliation," from eminent chemists, all of

had obtained analyses of "Favorite Prescription," from eminent chemists, all of whom certified that it did not contain alcohol or any of the alleged harmful drugs!

These facts were also proven in the trial of the action in the Supreme Court. But the business of Dr. Pierce was greatly injured by the publication of the libelous article with its great display headings, while hundreds of thousands who read the wickedly defamatory article never saw the humble groveling retraction, set in small type and made as inconspicuous as possible. The matter was, however brought before a jury in the Supreme Court of New York State which promptly rendered a verdict in the Doctor's favor. Thus his traducers came to grief and their base slanders were refuted.

HOW THE SWISS MAKE AN ARMY. 337,000 Soldiers to a Population of Only

The Swiss army is one of the most remarkable of her political institutions. It is the ideal toward which the common people of every European country, weighed down with taxation, to support huge standing armies, turn with longing and hope.

According to the Arena, the Swiss system of militia saves millions of money to the taxpayers and gives years of freelom from military service to the sol-

Practically all Swiss serve from the age of 20 to 50 in the militia and reserves. The raw recruits go into schools,

the infantry for forty-five days, the cavalry for eight days.

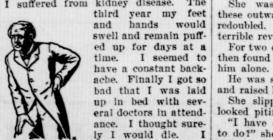

After this the cavalry serves sixteen days each year and the infantry and artillery fourteen days each every other year. The reserves serve only five or six days every four years. The officers, of course, are carefully trained in good schools for a period of years. This short service would be insufficient were it not preceded and supplemented

and in accordance with the law a place for target practice must be supplied by every town in the country. As an encouragement prizes of all sorts are offered by the national government.

Thus little Switzerland, with a population of less than 3.000,000 of people, has an army of 337,000 of the most marrial soldiers of Europe—armed. martial soldiers of Europe—armed, equipped and ready to take the field at a nent's notice.

AY FEVER is endemic catarrh. It is caused by some irritating substance in the atmosphere during the late summer months. It is generally thought that the pollen of certain weeds and flowers is the cause of it.

Change of locality seems to be the only rational cure. The use of Peruna, however, stimulates the nervous system to resist the effect of the poisonous emanations and sometimes carries the victim through the hay fever season without an attack of the disease.

A large number of people rely upon Peruna for this purpose. Those who do not find it convenient to change their location to avoid Hay Fever, would do well to give Peruna a trial. It has proven of priceless value to many people.

a woman whose experience with women's diseases covers twenty-five years.
The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, and for many years under her direction, and since her decease, her advice has been freely given to sick women. Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probable examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great. Mrs. Pinkham's Standing Invitation: Women suffering from any form of female weak-

ness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.—Lydia E. Pink-ham Medicine Co., Lynn, Mass.
