Tashjian withstood the operation the police inquisite.

Tashjian withstood the operation of the police inquisition last night with some fortitude. At times he was shown long knives and asked if he cut up his brother with any of them. He was shown pictures of the dismembered parts taken in the morgue and these he begged tearfully to be taken away. He did not otherwise seem disturbed by the ordeal and steadfastly maintained his innocence.

If we can't watch of

You may just as well give it to the baby to play with. Its days of service are surely ended-and it is a question with you now of buying

You ought to come here for a new watch for the same reason that prompts you to bring us your repairing jobs-because we are in position to give you the highest grade of satisfaction

As we said, we can get all the service out of a watch that there is in it, down to the last tick, if you will let us look at it occasionally.

And as for new Watches-well just take a few minutes some day t look over what we have. That's all

Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or, do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge. So he publishes, broadcast and on each bottle-wrapper, what his medicines are made of and verifies it under each. This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the nore will their superior curative virtues

For the cure of woman's peculiar weak-nesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in panied, ofttimes, with a debilitating, pelvic, catarrhal drain and kindred sympoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent streagthening iption" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. MEANING IN ORIENTAL RUGS. Significance Among Eastern Nations of the Colors Used.

Not only the designs but the colors of rugs woven in the Orient are full of significance.

They represent national or individual traditions, they stand for virtues and vices, social importance or social ostraciem.

They are the result, says The Elec-tic Church Magazine, of the political and religious histories of the countries in which they were made. Tyrian purple is almost universally regarded as royal.

Red was regarded by the Egyptians as

as his gala color, but he would not ap-prove its use in rugs where it would be rodden by the feet. Rose tints signify the highest wisdom, black and indigo sorrow, with the Persians. Preference for duller tone of color among the Persians give to all their embroideries and other products of

My face was covered, my eyebrows came out, and then it got in my eye. I then went to another doctor. He asked me what I was taking for it, and I told him Cuticura. He said that was a very good thing, but that he thought my face would be marked for life. But Cuticura did its work, and my face is now just as clear as it ever was. The adage concerning not being able to "set the river on fire" is a dead one. Johnnie Greene of San Angelo, Tex., is the boy who disproved it. A large quantity of Beaumont oil had been turned into the Concho river at the railway roundhouse by workmen who had been cleaning engines, in which the oil was used for fuel, and Johnnie was on the spot with a match. The fire he kindled in the floating oil traveled down stream faster than the oil did and the flames lapped high in the air. People could hardly believe the evidence before their own eyes, the waters of the Concho burning up right under their noses and threatening destruction to the city. The fire department was hustled out, but it was useless. The fire continued to burn until the floating oil had been licked up. Set River on Fire. on their slopes.

RATS GOT DRUNK. Intoxicated Rodents Severely Bite Maine

Woman. Rats which got drunk on elderberry wine attacked Mrs. Jeremiah Sibley of Patten, Me., two weeks ago and so badly lacerated her that for several days her life was despaired of. Blood pois was feared. The wine was in a vat in the Sibley cellar and one day when the housewife went to draw a bottle for a sick friend she saw half a dozen rats scurrying away. Closer inspection showed that they had gnawed through the cover and helped themselves. Set-ting the light on a barrel, she retired for a broom. When she returned she says that one rat was holding another by the tail head down in the vat and he was sucking himself full. This so angered Mrs. Sibley that she started in with the broom and whacked at every rat she saw. One began to squeal and instantly the cellar seemed full of drunken rodents. They ran for the woman, fastened their teeth in her legs, tore her dress to shreds and ripped her shoes from her feet. When attacked she started to run, but fell over a shovel and a score of the animals bit her in the neck and shoulders before she could make her way up the stairs to the kitchen. There she fainted and was later found by the husband of the sick neighbor when he came for the elderberry wine. Investigation showed that the rats had got into the vat only the night before and that the whole colony

To FVERY HOME as with joyous hearts and smiling faces they romp and play—when in health—and how conducive to health the games in which they indulge, the outdoor life they enjoy, the cleanly, regular habits they should be taught to form and the wholesome diet of which they should partake. How tenderly their health should be preserved, not by constant medication, but by careful avoidance of every medicine of an injurious or objectionable nature, and if at any time a remedial agent is required, to assist nature, only those of known excellence should be used; remedies which are pure and wholesome and truly beneficial in effect, like the pleasant laxative remedy, Syrup of Figs, manufactured by the California Fig Syrup Co. Syrup of Figs has come into general favor in many millions of well informed families, whose estimate

of its quality and excellence is based upon personal knowledge and use. Syrup of Figs has also met with the approval of physicians generally, because they know it is wholesome, simple and gentle in its action. We inform all reputable physicians as to the medicinal principles of Syrup of Figs, obtained, by an original method, from certain plants known to them to act most beneficially and presented in an agreeable syrup in which the wholesome Californian blue figs are used to promote the pleasant taste; therefore it is not a secret remedy and hence we are free to refer to all well informed physicians, who do not approve of patent

medicines and never favor indiscriminate self-medication. Please to remember and teach your children also that the genuine Syrup of Figs always has the full name of the Company-California Fig Syrup Co.-plainly printed on the front of every package and that it is for sale in bottles of one size only. If any dealer offers any other than the regular Fifty cent size, or having printed thereon the name of any other company, do not accept it. If you fail to get the genuine you will not get its beneficial effects. Every family should always have a bottle on hand, as it is equally beneficial for the parents and the children. whenever a laxative remedy is required.

"I dragged through nine years of micerable existence, worn out with pain and nervousness, until it seemed as though I should fly. I then noticed a statement of a woman troubled as I was, and the wonderful results she derived from Lydia E. Pinkham's Vegetable Compound. I decided to try it. I did so, and at the end of three months I was a different woman. My nervousness was all gone, I was no longer irritable, and my husband fell in low with me all over again."
