**NERVOUS COLLAPSE** Sinking Spells, Headaches and

Rheumatism all Yield to Dr. Williams' Pink Pills. Mrs. Lizzie Williams, of No. 416 Cedar street, Quincy, Ill., says: "Ever since I had nervous prostration, about thirteen years ago, I have had periodical spells of complete exhaustion. The doctor said my nerves were shattered. Any excitement or unusual activity would throw me into a state of lifelessness. At the beginning my strength would come back in a moderate time after each attack, but the period of weakness kept lengthening until at last I would lie helpless as many as three hours at a stretch. I had dizzy feelings, palpitation of the heart, misery after eating. hot flashes, nervous headaches, rheumatic pains in the back and hips. The doctor did me so little good that I gave up his treatment, and really feared that

my case was incurable
"When I began taking Dr. Williams' Pink Pills my appetite grew keen, my food no longer distressed me, my nerves were quieted to a degree that I had not experienced for years and my strength returned. The fainting spells left me entirely after I had used the third box of the pills, and my friends say that I am looking better than I have done for the past fifteen years."

Dr. Williams' Pink Pills are recommended for diseases that come from im-

poverished blood such as anæmia, rheumatism, debility and disorders of the nerves such as neuralgia, nervous pros-tration and partial paralysis. They have cured the most stubborn indigestion. Dr. Williams' Pink Pills agree with the most delicate stomach, quiet all nervousness, stir up every organ to do its proper work and give strength that lasts. Sold by all druggists, or sent postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

Picturesque Peruvian Streets. The streets of Peru, especially on gaia

days or when they wear the special dress of some celebration, are said to be among the most picturesque in the world. In their narrow proportions they resemble somewhat the streets of China, and the variety and contrast of the used in decoration may be compared with the Chinese. There is, however, a dis-tinct Latin character to the decoration, which lends them an atmosphere entire A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid as well as savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over work. Start with the stomach and allied organs of digestion and nutrition Put The Fond du Lac Press club will hold them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach. increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by

OF KNOWN COMPOSITION.

A Wonderful Discovery It has been the aim of scientists for years to find some liquid preparation which would possess anodyne, astringent and antiseptic properties and yet be of such a consistency that it would penetrate, first, through the skin, then through the muscles and finally to the very bones, exerting on its way down, healing and pain destroying properties. Max R. Zaegel, a graduate of the Philadelphia College of Pharmacy, established at Sheboygan, Wis., as a

chemist for the last 23 years, has discovered this long sought secret. It consists of a mixture of vegetable and mineral oils forming an amber colored liquid of pleasant odor and taste, which, when used as directed, restores vitality and strength and gives prompt relief to pain. Applied to cuts, sores, burns and bruises, it heals, as owing to its antiseptic properties, no

pus or matter can form in any wound where this wonderful oil is SAMPLE used. If you have catarrh, rheumatism, piles, or pain in back write Mr. Zaegel and he

## BUILT UP HER HEALTH

found Miss Cora Goode, 255 E. Chicago Avenue, Chicago, Ill, believes it her duty to write the following letter for publication, in order that other women afflicted in the same way may be

benefited as she was. Miss Goode is burg. Grant was a little older than I president of the Bryn Mawr Lawn was, and Grant was not a fool for small Tennis Club of Chicago. She writes;

Dear Mrs. Pinkham:-"I tried many different remedies to build up my system, which had become run down from loss of proper rest and unreason-able hours, but nothing seemed to help me. Mother is a great advocate of Lydia E. Pinkblother is a great advocate of Lydia E. Pink-blam's Vegetable Compound for female trou-bles, having used it herself some years ago with great success. So I began to take it, and in less than a month I was able to be out of bed and out of doors, and in three months I was entirely well. Really I have never felt so strong and well as I have since."

No other medicine has such a record of cures of female troubles as has Lydia E. Pinkham's Vegetable Compound. Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), displacement of organs, inflammation or ulceration, can be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Her experience is very great, and she gives the benefit of it to all who stand in need of wise counsel. She is the daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. Address, Lynn, Mass.

At a depth of 350 feet the drill penetrated a tree, evidently in an upright position, as it passed through branches, trunk and roots, in the order

named.

Even more singular was the fact that in some of the fragments brought to the surface were found some very lively black ants, the presence of which at such a depth no one is able to explain. The truth of the story is vouched for, however, by a number of entirely credible witnesses.—Paris Cor. Indianapolis News.

A Good Record. Out of all the external remedies on the market we doubt if there is one that has the record of that world-renowned porous plaster-Allcock's. It has now been in use for sixty years, and still continues to be as popular as ever in doing its great work of relieving our pains and aches. It is the remedy we all need when suffering from any form of ache or pain resulting from taking cold or over-strain. Allcock's Plasters are sold by Druggists in every part of the civilized world.

William Ellis, of Milwaukee System, Defines Objection to Ruling on Pine Clippings.

MADISON, Wis., Oct. 30.—[Special.]

The railroad rate commission listened to testimony today with reference to a ower rate and the classification of pine clippings. The railroad companies have a rate for lumber and a rate for wood, but no intermediate rate for refuse lumber, such as pine clippings, slabs, etc.
"It is not the granting of the lower rate on the refuse material that we object to," said William Ellis, special representative for the Milwaukee road, "it resentative for the Milwaukee road, "It is the open door which such a rate will lead to it if the refuse product is not well defined. The rate on clippings is not worth fighting over, but the lumber brokers who have dealt in lumber for years see an open Joor in such a rate. The defining of this refuse lumber is 4 feet feet in length, which will lead to the cutting of good lumber into these lengths. If we can find some way that this lumber can be properly designated and defined the railroad companies will be satisfied." be satisfied."

This hearing comes in response to a general ruling made by the railroad commission affecting all railroads operating in Wisconsin for a uniform rate upon

this class of by-product.

PAINTED POST AND HORSEHEADS. How These Two New York Towns Got

Looking on a map of New York, so peppered over with names borrowed from the classical dictionary, it is refreshing to find a few that have it is refreshing to find a few that have in them the flavor of local history, as have Painted Post and Horscheads. Being now near the end of his toilsome journey, and having less need of pack horses, Sullivan ordered a number of the beasts in poorest condition to be shot. This was in mercy to the miserable beasts. With their backs made taw by their heavy packs, the buzzards swooped down on them to cat them alive. Several score of the horses were thus put out of pain by bullets. Within a few weeks after the event their beaching bones and skulls lay on the old maize fields. Quickly in the wake of Sullivan's army of vengeance, sometimes even before the ashes of the American campfires were cool, followed the Indians. These once bold warriors now saw their homes and food swept off the face of SAFE AT BOYD BLOWN The Boyd Mercantile company's store was entered Saturday night and the safe blown to pieces, the burglars escaping with several hundred dollars.

WEAKFISH IN BIG SCHOOLS. Great Sport for the Fishermen Down in Gravesend Bay.

There has been an extraordinary run f weakfish in Gravesend bay. It began some days ago, and fishermen say that t is likely to continue for several days ore unless a storm comes. One morning Louis Girard caught 111 n one tide and the next morning rought in between sixty and seventy. John Lockwood caught ninety-three in forenoon, and there have been many other catches of from 40 to 100 in three

four hours fishing. These catches have been made near the Atlantic Yacht club anchorage, not far from the mooring known as the big fender buoy and about ten minutes pull in a skiff from Stillwell's, at the foot of Forty-eighth street. The catches have been made on hand lines and with

Restoring a Rubens Ceiling.

Provision has been made in next year's stimates for a sum of £2000 toward the restinates for a sum of 22000 toward the cost of cleaning and restoring the famous Rubens ceiling in the old banqueting hall of Whitehall palace. The work, which has become urgent, is to be carried out ext summer.

These valuable paintings have been re

touched upon several occasions—once by Cipriani, who received exactly £2000 for his labors. Rubens, who was commissioned by Charles I, to undertake the work, received as his reward £4000, or £10 a yard. It was intended originally that Vandyke should have painted the sides of this beautiful apartment with a history of the Order of the Garter. An interesting fact in connection with the ceiling is that Rubens' canvases are attached by leather bands, so that their removal for purposes of restoration is a matter of little or no difficulty. The subjects of the paintings are chosen to illustrate the prosperous condition of Great Britain in the reign of King James I.—London Tribune.

From Dreadful Pains from Wound on Foot-System All Run Down-Miraculous Cure by Cuticura. "Words cannot speak highly enough

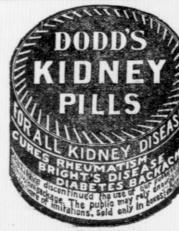

for the Cuticura Remedies. I am now seventy-two years of age. My system had been all run down. My blood was so bad that blood poisoning had set in. I had several doctors attending me, so finally I went to the hospital, where I was laid up for two months. My foot and ankle were almost beyond recognition. Dark blood flowed out of wounds in many places, and I was so disheartened that I thought surely my last chance was slowly leaving me. As the foot did not improve, you can readlly imagine how I felt. I was simply disgusted and tired of life. I stood this pain, which was dreadful, for six months, and during this time I was not able to wear a shoe and not able to work. Some one spoke to me about Cuticura. The consequences were I bought a set of the Cuticura Remedies of one of my friends who was a druggist, and the praise that I gave after the second application is beyond description; it seemed a miracle, for the Cuticura Remedies took effect immediately. I washed the foot with the Cuticura Soap before applying the Ointment, and I took the Resolvent at the same time. After two weeks' treatment my foot was healed completely. People who had seen my foot during my illness and who have seen it since the cure, can hardly believe their own eyes. Robert Schoenhauer, Newburgh,

## Physicians Recommend Castoria

ASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: First-The indisputable evidence that it is harmless: Second-That it not only allays stomach pains and quiets the nerves, but assimilates the food: Third-It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innecent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system-not by stupefying it-and our readers are entitled to the information. - Hall's Journal of Health.

**Letters from Prominent Physicians** addressed to Chas. H. Fletcher. Dr. B. Halstead Scott, of Chicago, Ills., says: "I have prescribed your

Castoria often for infants during my practice, and find it very satisfactory."

Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands

first in its class. In my thirty years of practice I can say I never have found anything that so filled the place." Dr. J. H. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for

many years. The formula is excellent." Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively, as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always

see that my patients get Fletcher's." Dr. Wm. J McCrann, of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine, and aside from my own family experience I have in my years of practice found Cas-

toria a popular and efficient remedy in almost every home." Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and

believe it an excellent remedy." Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recom-
