# BISHOP M'CABE IS DEAD.

NOTED MEMBER OF METHODIST EPISCOPAL CHURCH SUCCUMBS TO APOPLEXY IN NEW YORK.

## END OF USEFUL CAREER.

War Record as Chaplain Included a Term in Libby Prison, About Which He Lectured Frequently.

NEW YORK, Dec. 19.-Bishop Charles C. McCabe of the Methodist Episcopal church died in the New York

ago. Mrs. McCabe and the bishop's two men had exchanged shots two weeks before, and in his statement today Jett constantly since he was stricken, were it the bedside when the noted clergyman passed away.

Sricken on New York Street.

Bishop McCabe was stricken when the to leave this city on December 11. The night before that he had delivered his famous lecture on "The Sunny Side of Life in Libby Prison" at Torrington, Conn., and was passing through this city on the return to his home in Philadelphia. phia. Accompanied by Dr. George P. Mains, publishing agent of the Methodist church, the bishop had reached the West Twenty-third street terminal of the Pennsylvania railway and was about to step upon a ferryboat when he stag-gered and fell unconscious.

York hospital, where he received treatment as a private patient.

Meantime, the bishop had regained consciousness and the indications of the twenty-four hours following were that the shock had been a slight one. At that time his condition gave promise of speedy recovery and the former health of the patient encouraged this hope. Just before the attack he had walked briskly and carried a grip weighted with books and papers without apparent fatigue.

Bishop McCabe, however, early realized the seriousness of his illness and his first words upon returning to consciousness were: "Please notify my wife that I am very ill, and ask her to come at once."

That night Mrs. McCabe and his niece, who was also his secretary, arrived from Philadelphia and have since remained at the hospital. The condition of the patient did not change materially and the second secon early Saturday last, when he day the physicians in attendance said that the outcome was no longer in doubt. Career of Noted Churchman.

Bishop McCabe was born at Athens, O., October 11, 1836. He entered the Ohio conference of the Methodist church in 1860 and two years later became chaplain of the One Hundred and Twenty-second Ohio infantry. He was capspent four months in Libby prison. His experiences as a prisoner of war were ater recounted on the lecture platform. For more than thirty years he was pop-ularly known as "Chaplain McCabe" alarly known as "Chaplain McCabe" and the title clung to him even after the general conference of the Methodist church in 1896 made him a bishop.

Following the war he became paster of a church at Portsmouth, O., and later was associated as assistant secret with the board of church extension. secretary While engaged in church extension work he originated the rally cry: "We Are Building a Church Every Day." His success as a money raiser was remarkable and later as secretary of the Methodist Missionary society, to which post he was elected in 1884, he added half million dollars to the annual in-

come of the society.

He was a singer and his songs were a feature of his pleas for funds. He was chosen chancellor of the American uni-versity at Washington, December 10,

policy holders' committee in the life risk contest, but resigned after issuing statement defending the administration tickets for trustees. This contest closed resterday with the balloting. Both sides claim victory, but the votes will not be counted for some time.

### HARDEST CANAL WORK NOW PAST.

Panama Commission Reports to Congress That Construction Will Begin

at Once. WASHINGTON, D. C., Dec. 20 .-The annual report of the Panama caered and fell unconscious.

He was carried into the ferry house says that during the year the first and as soon as an ambulance could be stage of canal work, that of preparation, has virtually been past, and the York hospital, where he received treattion, has virtually been past, and the commission finds itself in position to enter upon the second stage, that of actual construction of a lock canal at an ele-vation of 85 feet, authorized by Congress in June last. Of two stages the first was at once the more difficult and the more important. If not done thorough-ly and intelligently in every part the ac-tual work of construction would be han-dicapped from the start dicapped from the start.

Health Conditions Better. The report gives technical detail on

The report gives technical detail on the progress made during the year, and reviews the changes in administration and otherwise which have been introduced. It is added:

The isthmus is now completely free of yellow fever, an achievement which demonstrates the high efficiency of the health department. In combating other diseases the department has been scarcely less successful. The average daily sick rate among employes of the commission during the ten months from January 1, 1906, to October 31, 1906, was 28 per thousand, which is no higher than might be expected in an equal body of laborers engaged in construction work in any part of the world. During the same period the death rate among the whites was about 17½ per thousand, and among the blacks nearly 53 per thousand.

Care of Employes.

Care of Employes. Great progress has been made during the past year in providing for the welfare and comfort of the employes. The commission now has sufficient buildings to provide quarters for all its bachelor employes. These buildings are screened, and provided almost universally with running water and with modern plumbing, and are comfortably furnished. In addition to these buildings, 335 separate houses and 13 larger buildings have been constructed for married quarters, providing accommodations for 375 families. There are still many married men, however, for whom no quarters are available, but upon the completion of the houses now authorized these will be provided for. There are now approximately 1200 American women and children on the Isthmus. The efforts of the commission during the year to provide some method by which employes might obtain meals at a reasonable rate have been entirely successful.

Amusement for Men.

Amusement for Men.

The commission has made some progress in its efforts to provide means of amusement and recreation for its employes, but not so much as would have been the case had it not been for the continued stress of work of more vital importance. Although the commission in November, 1905, authorized the construction of clubhouses at a cost not to exceed \$7500 each, it has not been found poss...Je as yet to erect many new buildings under this authority, but a building has been set aside at Cristonal for the use of the club there, and four are in process of construction—at Culebra, Empire, Gorgona and Cristobal. Two of these, at Culebra and Empire, will be ready for use early in 1907.

A comprehensive plan has been devised whereby the commission, working in conjunction with the Young Men's Christian association, will manage these and other similar buildings in the chief labor centers.

About Unskilled Labor. About Unskilled Labor.

Another year's experience with negro laborers from nearby tropical islands and countries has convinced the commission of the impossibility of doing satisfactory work with them. Not only do they seem to be disqualified by lack of actual vitality, but their disposition to labor seems to be as frail as their bodily strength.

The experiment with laborers from nor.neern Spain has proved very satisfactory. Their efficiency is not only more than double that of the negroes, but they stand the climate much better.

Neither this fact alone, or the review of any of the facts already passed upon by the courts at some stage of these proceedings, would seem to me to warrant interfering with the judgment of death pronounced against the defendant; but three of the seven judges of the court of appeals were so strongly of the opinion that errors were committed at opinion that errors were committed at the trial which were substantially prej-udicial to the rights of Patrick that I feel that the death penalty ought not, under all the circumstances, to be in-

"In view of all these facts and the grave doubts expressed by these judges I am satisfied that I ought to relieve the defendant from the extreme penalty of the law and commute his sentence to imprisonment for life."

Case Is Unparalleled. The case of Albert T. Patrick is in many respects unparalleled. It is doubtful if ever before a convicted man has played as large a part in the conduct of his own case, in turning his narrow quarters in the death cell of a state prison practically into a law office. Rice died September 23, 1900, Patrick and Jones were arrested October 4. Jones at first declared that Patrick himself had chloroformed Rice, but in other seif had chloroformed Rice, but in other confessions which varied materially, he said he killed his master at Patrick's instigation. LA CROSSE MAN ASPHYXIATED. Broken Gas Pipe Causes the Death of Nels Simonsen. MADISON, Wis., Dec. 20.—[Special.]
—So far no arrangements have beer made for the inauguration of the state officers or for the inaugural ball. It is the wish of Gov. Davidson and also of other state officers that the occasion should be made as democratic as possible and with as little expense as possible.

I.A. CROSSE. Wis., Dec. 19.—[Special.]—Nels Simonsen, a rich harware merchant, was found dead in his room today. He was 50 years old.

A wasted gas pipe was found and from this it is evident that the merchant had been asphyxiated as he slept. Simonsen leaves an estate of \$60,000 and no near relatives.

### STATE OFFICERS SORE PERPLEXED.

MADISON, Wis., Dec. 20 .- [Special.] The superintendent of public property and his force of employes are much perplexed just now in trying to figure out ow they are going to accommodate the 133 members of the Legislature and the small army of committee clerks and stenographers and doorkeepers and spittoon cleaners and so forth when the Legislature convenes on January 9. Filled to the Brim.

The old ramshackle capitol is about filled to the brim now with the regular departments, in fact the civil service commission, for instance, is shoved into the two small rooms of the lieutenant governor and chief clerk of the Senate governor and chief clerk of the senate off the gloomy Senate chamber and the young ladies of that department are obliged to carry on their work at the chief clerk's desk or wherever they can find a little space to spread their pa-What will be done with this depart-

After trying in vain to figure out and sign committee rooms it was de that several of the committees will have to use the offices of the departments and if need be shove the state officers and heads of departments out in the hall when the committees are at work. The improvements on the fourth floor of the slowly and perhaps before the session is half over will allow ten or twelve cubby holes for the use of committees. Before 1909 it is fondly hoped that the west wing of the new capital will be completed so that the lawmakers can find where to rest their feet and elbows when discussing prospective enactments.

CUT OUT POLITICS AND DO SOME WORK. Indications That the Next Legislature Intends to Accomplish Some-

MADISON, Wis., Dec. 29.-[Special.] "From advance indications," said Dr. MARKETS BY TELEGRAPH. Charles McCarthy, librarian of the Wisconsin Legislative Reference library, the coming session of the Legislature is going to be one of the most important in the recent history of the state. "From letters received by this department and from what little personal acquaintance I have had with the members who will answer the roll call at the next session. I believe that they are an unsually strong body of men. They seem intent upon banishing the factional bickerings which have marked the re-

cent sessions and get down to actual ac-complishment in the way of reform measures, progressive but conservative, measures, progressive but conservative, irrespective of any undue influence from the lobby on the one side or dictation of any political boss on the other.

"I wish to inform you that the Cuticura Remedies have put a stop to twelve years of misery I passed with my son. As an infant 1 noticed on his body a red spot, and treated same with different remedies for about five years, but when the spot began to get larger I put him under the care of doctors. Under their treatment the disease spread to four different parts of his body. The longer the doctors treated him the worse it grew. During the day it would get rough and form like scales. At night it would be cracked, inflamed, and badly swollen, with terrible burning and itching. When I think of his suffering, it nearly breaks my heart. His screams could be heard down stairs. The suffering of my son made me full of misery. I had no ambition to work, to eat, nor could I sleep. One doctor told me that my son's eczema was incurable, and gave it up for a bad job. One evening I saw an article in the paper about the wonderful Cuticura and decided to give it a trial. I tell you that Cuticura Ointment is worth its weight in gold; and when I had used the first box of Ointment there was a great improvement, and by the time I had used the second set of Cutleura Soap, Ointment, and Resolvent, my child was cured. He is now twelve years old, and his skin is as fine and smooth as silk. Michael Steinman, 7 Sumner Avenue, Brooklyn, N. Y., April 16, 1905."

### an amanuensis. The Evils of Constinution are many; in fact almost every serious illness has its origin in constipation, and some medicines, instead of preventing con-

stipation, add to it. This is true of most cathartics, which, when first used, have a beneficial effect, but the dose has to be continually increased, and before long the remedy ceases to have the slightest effect. There is one preparation, however, that can be relied upon to produce the same results with the same dose, even after fifty years' daily use, and this is Brand-reth's Pills, which has a record of over 100 years as the standard remedy for constipation and all troubles arising from an

impure state of the blood.

Brandreth's Pills are the same fine laxative tonic pill your grandparents used and can be found in every drug and medi-cine store, either plain or sugar-coated.

He had almost decided to call the novel "The Failure," although he was dissatisfied with this. One evening as he was sitting in his study reading by lamplight the light went suddenly down—almost failed, in fact. In a second Kipling jumped up, exclaiming excitedly: "By Jove! I've got it!"
