GENERAL BREAKDOWN

A Condition Which Dr. Williams' Pink Pills for Pale People Cures.

There is no more perplexing trouble for a physician to treat than debility cases, especially in women, in which there is no acute disease but in which the patient every day sinks lower and lower.

That Dr. Williams' Pink Pills will restore health under these conditions is no speculation but the fact has been proved in hundreds of cases similar to that of Mrs. Sarah Ramsey, of 1008 St. John St., Littlefield, Ill.

"I was very poor and my hands and feet were like ice. I seemed to be growing weaker and weaker and could not get around the house. I was extremely nervous and the least excitement would bring on a dizzy spell."

#### HOMES IN THE NORTHWEST.

Why not settle on the government lands, or low price farm lands that are improved, in South Dakota; thus staying near at hand instead of journeying to a distant region where the climatic conditions and social surroundings are widely different? Special low rates are in effect the first and third Tuesdays of each month to all South Dakota stations on the North-Western Line. It will pay you to investigate. New lines are opening up extensive territory to development, creating the chance of a lifetime. Ask your ticket agent to give you full particulars, with maps, pamphlets, and complete information regarding railroad rates and the steps necessary to secure government land free.

#### HOMES IN THE NORTHWEST.

Why not settle on the government lands, or low price farm lands that are improved, in South Dakota; thus staying near at hand instead of journeying to a distant region where the climatic conditions and social surroundings are widely different? Special low rates are in effect the first and third Tuesdays of each month to all South Dakota stations on the North-Western Line. It will pay you to investigate. New lines are opening up extensive territory to development, creating the chance of a lifetime. Ask your ticket agent to give you full particulars, with maps, pamphlets, and complete information regarding railroad rates and the steps necessary to secure government land free.

Is Acquitted of Murder.

Roman Remmel was acquitted in the Circuit court at Portage, Wis., on March 8th, for the killing of Harry Gorney of Watertown at Kilbourn last October. He was placed upon the stand in his own defense. He admitted the shooting, but maintains that it was done in self-defense. He says that Gorney attacked him twice. When the second attack was made Remmel says Gorney threw him forcibly to the station platform, began choking him and placed his knee on his side so roughly as to fracture the ribs. Remmel claims that he did not know he had killed Gorney at the time. He says after Gorney threw him to the platform and pressed his knee into his side he was in a dazed condition. He then drew his revolver and fired at random.

Smallpox Story False.

One of the Milwaukee evening papers brought the story last Saturday that there were thirteen cases of smallpox at Campbellsport, which was absolutely false. There is not a single case there showing the slightest sign of smallpox. The report probably originated from a letter written to Dr. Bading at Milwaukee by Dr. Hoffmann of Campbellsport some time ago when the doctor suspected a case about four miles away from Campbellsport.

Longing.

I know a peaceful country vale,
Where flows a quiet stream,
The there I could the living day,
Sit on the bank and dream.
When sorrow came deep furrows
Upon my brow to form,
And torn and tattered in my soul
By life's tempestuous storm.
When hurrying on my weary way,
In crowded thoroughfares,
Or sitting at the office desk,
With overburdening cares,
They let me to this vale away,
That there I may abide;
Near all the trees upon the bank,
Close by the river's side.
—W. Domann, March 9, 1907.

### Grandfather's Cure for Constipation

**G**REAT medicine—the Sawbuck. Two hours a day sawing wood will keep anyone's Bowels regular. No need of pills, Cathartics, Castor Oil, nor "Physic," if you'll only work the Sawbuck regularly.

Exercise in Nature's Cure for Constipation and—A Ten-Mile walk will do, if you haven't got a wood-pile.

But if you will take your Exercise in an Easy Chair, there's only one way to do that, because—there's only one kind of Artificial Exercise for the Bowels and its name is "CASCARETS."

Cascarets are the only means to exercise the Bowel Muscles without work.

They don't Purge, Grip, nor "upset your Stomach," because they don't act like "Physic."

They don't flush out your Bowels and Intestines with a costly waste of Digestive Juice, as Salts, Castor Oil, Colic, Jalap, or Aperient Waters always do.

No—Cascarets strengthen and stimulate the Bowel Muscles, that line the Food passages and that tighten up when food touches them, thus driving the food to its finish.

A Cascaret acts on your Bowel Muscles as if you had just sawed a cord of wood, or walked ten miles.

Cascarets move the Food Naturally, digesting it without waste of tomorrow's Gastric Juice.

The thin, flat, Ten-Cent Box is made to fit your Vest pocket, or "My Lady's" Purse. Druggists—10 Cents a Box.

Carry it constantly with you and take a Cascaret whenever you suspect you need one.

Be very careful to get the genuine made only by the Serravallo Remedy Company, and never sold in bulk. Every tablet stamped "G.C.C."

### "BARK CLOTH" INDUSTRY EBBS.

Introduction of Cotton Goods in Africa Supplants Old Custom.

Among interesting native industries which tend to disappear with the advance of civilization is the making of "bark cloth" in Africa from the bark of the brachystegia tree, which grows in Uganda, and in parts of British, German and Portuguese East Africa.

The natives strip the bark from trees about two feet in diameter and pound it with stones, at the same time pulling it in the direction of the fiber. It is made in sheets averaging six by ten feet in size.

The cloth does not possess much strength, and the manufacture of it is rapidly ceasing with the increased use of cotton cloth.

A MID-WINTER VERDICT.

"Bright Sunshine All Winter" Is What a Western Canada Lady Says.

Maldstone, Sask., Canada, Feb. 4, 1907.

C. J. Broughton, Esq., Canadian Government Agent, Chicago, Ill.: Dear Sir—Being so well pleased with your reading matter on Canada? We have been here nearly a year and are delighted with this country. We have lived in Illinois, Iowa, and Michigan and we find Canada ahead of any of them. We have had bright sunshine all winter so far, only two nice snow storms. If it was not all right you know I would not want my father and brother to come here, but we think it is grand.

Yours truly,  
(Signed) MRS. ED. TROUPE.

### HANDWRITING SHOWS SMOKER.

In order to deter boys from smoking cigarettes it was suggested at a meeting of the education committee of the London county council that the diagrams of cigarette smokers' handwriting which appear in the medical officer's report should be enlarged and displayed in schools.

CAUSE OF ECZEMA IN SOUTH.

Suffered Three Years—Hand and Eye Most Affected—Now Well and Is Grateful to Cuticura.

"My wife was taken badly with eczema for three years, and she employed a doctor with no effect at all until she employed Cuticura Soap and Ointment. One of her hands and her left eye were badly affected, and when she would stop using Cuticura Soap and Ointment the eczema came back, but very slightly; but it did her a sight of good. For three years she was troubled with eczema, but she is now free from it, and she is very grateful to Cuticura. She writes me that she is very much pleased with the result of your medicine, and she will recommend it highly in our locality and in every nook and corner of our parish. God bless you for the sake of suffering humanity."

### DEATH FOR A KISS.

The rules and regulations which govern unmarried girls in France are exceptionally strict when compared with those of England or America.

I have personal knowledge of a case in which a young Spanish girl shot herself because she had been kissed by a young man and because—in consequence of this small indiscretion—her life had been made unbearable by her relatives.—Paris cor., in The Maitaine.
