## ORGANIZATION DISAPPEARS.

The Fond du Lac County Good Roads association, which was organized here last year by Wellington E. Loucks, na-tional organizer of the Good Roads asso-ciation, appears to have been but a myth as far as this county is concerned. The organization here was completed, offi-cers elected and arrangements made for holding a meeting at the courthouse. The meeting, however, did not ma-terialize as many of the farmers thought that the project was simply a political scheme. Roads in Fond du Lac county are still as bad as they ever have been.

#### For the Farmer.

The Shepherdess. If I could choose my path of life From out this world of tangled ways, I think I'd sooner live and tend A little flock of all the days.

Upon the bluest hills that are
The fairy hills of Dreams Come True,
I, sheperdess would tend the flock,
My bread a rose, my cup the dew. And all the timid days of May,

The blustering days of winter weather, The burning days of August time Would wander wide with me together.

Away from those my pastures blue, Each morn I'd send another one From those dear hills of Dreams Come True.

And then when there were fewer still— Perhaps just only two or three— My ravished flock upon the hills Would be exceeding dear to me.

When one December day was left, A little day of grief and snow, I'd place my kiss upon its brow, My last farewell—and bid it go.

Behind the sunset's amber rays fo dream how I had tended well My little flock of all the days.

BRIDGE NOW SETTLING. BRIDGE NOW SETTLING.

FOND DU LAC, Wis., July 31.—
[Special.]—As a result of placing five inches of concrete, weighing fifty tons, on the flooring of Brooke street bridge, that structure is in danger of collapsing at any moment. The piling on the west side of the bridge has already settled half an inch, and it is feared that it will disappear altogether.

John J. Ratz, superintendent of public works, says that the only way to repair the bridge is to construct a center pier. To do this it will be necessary to construct a cofferdam, and Mr. Ratz has not the material with which to build one. The east side of the bridge is used by the railroad, and unless conditions are the railroad, and unless conditions are remedied it is feared that the settling of the bridge may cause a wreck.

On Monday a number of Arab chiefs entered Casa Blanca and demanded that the harbor improvements works cease. The pasha of Casa Blanca pointed out that this work was being done with the sanction of the Sultan, whereupon about \$100,000 and determined to rethat this work was being done with the sanction of the Sultan, whereupon the chiefs replied that the Sultan was no longer their ruler as he obeyed the Christians. They then began to incite the natives to exterminate all Jews and Europeans in the town.

At Least Eight Killed. On Tuesday morning the natives began their attack by stoning a European and when this man tried to fiee he was surrounded and hacked to pieces. This was the signal for another attack, and as soon as the danger became known the French and Spanish residents rushed to their respective consulates for protection. During this flight at least eight were murdered.

Relief Expedition Routed.

M. D'Euville, the French consul, demanded that the Pasha provide an escort for the recovery of the bodies. The Pasha refused at first, but upon further representations he finally supplied an escort. When this rescue party, however, reached the scene of the attacks it was charged by a number of Arab cavalrymen and forced into flight.

In the meantime, while the Jews and Europeans were taking refuge on board the German ship the Mussulmans began to attack the laborers employed on the harbor works. They fired on the shore boats and killed several men, whose bodies subsequently were burned. One workman who tried to swim off to a ship was shot in the water. Relief Expedition Routed.

PARIS, Aug. 1.—The Pasha of Casa Blanca will answer with his head to the French government for the general security of the city. This is the ultimatum which the French cruiser Galilee, due to reach Casa Blanca this morning, is conveying. The French cruiser Forbin, now at the Azores, also has been ordered to proceed for Casa Blanca. Action by the French government will not, for the moment, go any further than this. The Galilee has been ordered to take on board all Europeans desiring refuge.

The French newspapers generally demand that the government administer a lesson to the Sultan. They declare that the Maghzen or governing board is directly responsible for the occurrences at Casa Blanca as it persisted in maintaining the present Pasha there in spite of the protests of the diplomatic corps at Tangier. Beginning of Labor War.

The strike is serious, the trouble coming to a head yesterday. It would appear to be the beginning of a big labor war. The immediate cause yesterday was the course pursued by the police during the last eight days in making a large number of arrests in attempts to break up the unions. The principal Socialists leaders have been arrested. The police have been so energetic that they have united the Social Democrats, the Polish Socialists and the Nationalists, who up to the present time have been waging a merciless war, accompanied by daily murders and outrages, among themselves.

Voting In the Senate. Jefferson's Manual says: 1. When the yeas and nays are ordered, the names of senators shall be called alphabetically, and each senator shall without delay declare his assent or dissent to the question, unless excused by the senate, and no senator shall be permitted to vote after the division shall have been announced by the presiding officer, but may, for sufficient reasons, with unanimous consent, change or withdraw his vote. No motion to suspend this rule shall be in order, nor shall the presiding officer entertain any request to suspend it by unanimous request (section 41). 2. When a senator declines to vote on call of his name he shall be required to assign his reasons therefor, and, having as signed them, the presiding officer shall 'Shall the senator, for the reasons assigned by him, be excused from voting?" which shall be decided without White debate, and these proceedings shall be held after the roll call and before the result is announced, and any further their home at Milwaukee Wednesday proceedings in reference thereto shall be after such announcement (sections 17 and 16).

> A Singular Dream. A singular dream is related in a wel known British magazine. A woman suffering from anxiety caused by reduced circumstances dreamed that she went to church. "The people began to go out one by one. I looked around and inquired why they were leaving the church. They said: 'To look for the magic bird in the churchyard. You will always have luck if you find it.' I thought I would try to find it, went out and swept away the fallen leaves and found a speckled thrush, and as soon as I took it up it dropped £1 in my hand. The next morning I went into our back garden and there among the fallen leaves was the speckled thrush, which had just been killed by a cat. It was yet warm. I said, 'Here is the magic bird, and the money I know will come by post.' The hope was justified, for £1 came in the morning and a check from a friend in the

Peter Kohn Jr. of Milwaukee called evening." The Unexpected. A curious story is that of the late Colonel Harry McCalmont of the British army. He was a poor man when he went to the reading of his uncle's will, hoping that perhaps the departed might have remembered him to the extent of an old watch. True enough, the lawyer read out the words, "To my nephew, Harry McCalmont, I leave my watch and chain." The k atee was satisfied, and, leaning back, he drowsed, lulled by the monotonou tones of the lawyer as he read through the long instrument. At the close he arose to go. "I congratulate you," said the solicitor. "I don't know why you should," said the other. "You are residuary legatee," remarked the lawyer. "You will have £4,000 annually for the first five years from this date. and afterward you will inherit some £7,000,000."

said John Dudley, who for twenty-one years, from 1770 to 1791, was one of the most popular judges of New Hampshire. He was unlearned in the law William Foerster did some repair- and his education was so defective that ing at the St. Kilian cheese factory he could not write five consecutive sentences in correct English, yet so acceptably did he discharge his judicial George F. #### Is Pe-ru-na Useful for Catarrh?

Should a list of the ingredients of Peruna be submitted to any medical expert, of whatever school or nationality, he would be obliged to admit without reserve that each one of them was of undoubted value in chronic catarrhal diseases, and had stood the test of many years' experience in the treatment of such diseases. THERE CAN BE NO DISPUTE ABOUT THIS WHAT-EVER. Peruna is composed of the most efficacious and universally used herbal remedies for catarrh. Every ingredient of Peruna has a reputation of its own in the cure of some phase of catarrh.

Peruna brings to the home the COM-BINED KNOWLEDGE OF SEVERAL SCHOOLS OF MEDICINE in the treatment of catarrhal diseases; brings to the home the scientific skill and knowledge of the modern pharmacist; and last but not least, brings to the home the vast and varied experience of Dr. Hartman, in the use of catarrh remedies, and in the treatment of catarrhal diseases.

The fact is, chronic catarrh is a disease which is very prevalent. Many thousand people know they have chronic catarrh. They have visited doctors over and over again, and been told that their case is one of chronic catarrh. It may be of the nose, throat, lungs, stomach or some other internal organ. There is no doubt as to the nature of the disease. The only trouble is the remedy. This doctor has tried to cure them. That doctor has tried to prescribe for them. BUT THEY ALL FAILED TO

BRING ANY RELIEF. Dr. Hartman's idea is that a catarrh remedy can be made on a large scale, as he is making it; that it can be made honestly, of the purest drugs and of the strictest uniformity. His idea is that this remedy can be supplied directly to the people, and no more be charged for it than is necessary for the handling of it.

No other household remedy so universally advertised carries upon the label the principal active constituents, showing that Peruna invites the full inspection of the critics.

#### A Free "Ad."

The little village could not boast of very many entertainments, and consequently a concert was looked forward to with great delight by the inhabitants. It so happened on one occasion that a singer of renown who had just scored some signal successes at Covent Garden came down to spend a few days with the squire, and smilingly acquiesced in the request of the vicar that he should sing

at the village concert.

His song, which was delivered with deep feeling, for which he was famous, was the old favorite, the "Village Black-In repsonse to a vociferous encore, he

In repsonse to a vociferous encore, he was about to give one of his operatic successes when the chairman tugged hard at his coat tail.

"Better sing t'owd 'un over agen, mister," he said; "I 'appen to be the chap you've been singing about—the village blacksmith—and I reckon it 'ud only be fair to me if you was to sing it all over agen, and pop in another verse saying as 'ow I let out bicycles."-Punch.

#### A Porto Rican at Naval Academy.

Rico is to be represented at the naval academy by a native midshipman. The law required that the position of midshipman to the credit of Perro Pine about be filled by nomination by the governor of the island, and stipulated that the eligibility should be restricted to young men who were natives. Every year there have been appointed a principal and an alternate, and each year both have failed. This year the principal fulfilled the qualifications, while the alternate failed. The successful midshipman from Porto Rico is Frederick L. Riefkohl, who has been attending school in New England.

Of Interest To Women. To such women as are not seriously out of health but who have exacting duties to perform either in the way of houseld cares or in social duties and functions which seriously tax their strength, as well as to jursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nervine. By its timely use, much serious sickness and suffering may be

wolded. The operating table and the surgeons' knife, would, it is believed seldom have to be employed if this most valuable woman's remedy were resorted o in good time. The "Favorite Prescription" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a MEDICINE OF KNOWN COMPOSI-TION, a full list of all its ingredients being printed, in plain English, on every bottlewrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemicnon-alcoholic in its composition, chemically pure, triple-refined glycerine taking the place of the commonly used alcohol, in its make-up. In this connection it may not be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and allments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too several schools of practice, and that too as remedies for the allments for which "Favorite Prescription" is recommended. A little book of these endorsements will

be sent to any address, post-paid, and absolutely free if you request same by postal card, or letter, of Dr. R. V. Pierce, Buffalo, N. Y.
