Verdict Pleases Jumpers. OCONOMOWOC, Wis., Sept. 26.-[Special.]-In the municipal court at 1 o'clock this morning the jury returned a verdict of not guilty in the case of J. W. Hubbart, A. N. Scott, Leonard Wether- first white woman settler in Milwaukee. ill and William Pettingill, the "Holy Jumpers," charged with disorderly conthe foster-daughter of Frederick A. duct in connection with a street meeting Bragg, a brother of Gen. Edward S. at Waukesha, June 26. The case was sent here for trial on a change of venue from the municipal court at Waukesha, where the defendants filed an affidavit of prejudice against Judge Armin. The defendants received the verdict which meant vindication for what they consider their religious rights, without demonstration. They returned to Waukesha on the first electric car this morning.

Trouble in Getting Jury. Considerable difficulty was experienced in securing a jury, the residents of this city apparently having a great aversion city apparently having a great aversion to sitting in the case. Talesman after talesman under oath stated that he was prejudiced against the sect or had formed an opinion. The jury finally secured was composed of representative business men including two bankers.

Joseph E. Wildish, counsel for defendants, did not allow the trial to proceed until he had completely exhausted a large variety of motions for the discharge of his clients, all of which were overruled by Judge Agnew. He objected to the jurisdiction of the court; filed a to the jurisdiction of the court; filed a plea in abatement and argued that the complaint was void for the reason that the action was commenced in the name of the state instead of the city of Waukesha, and for the further reason that it did not state facts sufficient to constitute a cause of action

HAVANA, Sept. 26.—A conspiracy to start a revolutionary movement in Cuba has been discovered. Under instructions issued by Gov. Magoon a number of suspicious persons believed to be connected with the conspiracy have been shadowed for several days past. It is believed that the movement is backed by New York capitalists.

The secret police early today arrested Gen. Masso Parra, and a little later took into custody Gen. Juan Ducassi and Hot Shot at Methodists. A number of Waukesha residents took A number of Waukesha residents took the witness stand and told the details of the street meeting of the "Jumpers" which almost caused a riot and resulted in the arrest of the defendants. It was shown that South street and Grand avenue were blocked by a crowd of 500 people at the point where the meeting was held. Charles McCarthy testified that one of the women members of the sect, during her exhortation, had said: "All the Waukesha Methodists are going to hell." It was his opinion that there was no disorder on the part of the spectators until after this remark.

Anna Stenstrude, a member of the sect, who participated in the meeting in question, denied that the remark had been made. One of the women, she said, had stated in regard to her own experience, that while she had belonged to the Methodist church, she had thought she was going to hell. Miss Stenstrude testified that the dresses of two of the women took fire from firecrackers thrown by the growd. City Attornov Leckney of by the crowd. City Attorney Lockney of Waukesha, in his argument, urged a con-

viction, saying that it was clear that the ordinance had been violated. Verdict Pleases Jumpers. Joseph E. Wildish for the defendants made the defense that the jumping and screaming was part of their religious be-lief and that the spectators and not his clients were guilty of disorderly conduct. The case went to the jury at two hours and a half later.

Service - Drafted Man - Soldier served

Service — Drafted Man — Soldier served eighty-seven days as an enlisted man in 1861. In 1865 he was drafted for service, accepted on April 11, but unassigned to duty, and was released April 14 by order of the provost marshal general.

Held—(1)—That upon acceptance by the draft officers he became a soldier "in the military service" of the United States; but draft officers and not regularly discharged by military authority implies that during the four days between acceptance and release he did not actually "serve" in the military service of the United States within the meaning of the act of June 27, 1890, having performed no assigned military duty within that time. Hence, soldier did not "serve" unnetly days during the war of the rebellion within the meaning of said act, and his widow, therefore, is not entitled to the pension claimed.

Disloyalty—Sec. 4716, Revised Statutes—Act of February 6, 1907—This claimant having enlisted in the United States army subsequent to January 1, 1865, after a prior volunteer service in the Confederate army, the joint resolution of July 1, 1902, affords no relief in his case, and the provisions of Sec. 4716, Revised Statutes, prohibiting the payment of any money on account of pension to any person who in any manner voluntarily engaged in or aided or abetted the late rebellion against the authority of the United States, apply.

## TRAIN CRASHES INTO ADRIATIC EXPRESS WHILE PASSING THROUGH TUNNEL. TWENTY SERIOUSLY HURT.

AMERICANS HURT

Passengers Bound for Cherbourg to Take Boat to America Have Terrible Struggle in the Dark.

NANTES, France, Sept. 25 .- The transatlantic train carrying first class passengers from Paris to Cherbourg. above the swiftly flowing water. Around where they were to embark on the White Star line steamer Adriatic, was tele-

scoped today in the Breval tunnel. Twenty persons were injured. The train taking passengers to Cherbourg for embarkation on the North German Lloyd steamer Crown Prince Wilhelm which was following the train having on board the Adriatic's passengers proceeded to her destination by another route.

The names of the injured persons are not yet available. It is certain that many are Americans. Accident Due to Negligence. The train with the Adriatic's passengers left Paris in two sections. The first containing the second class baggage stopped just beyond the tunnel owing to an accident to the locomotive. The second section containing the first class pas-sengers was stopped by a signal when in the middle of the tunnel. The regular train for Rouen followed the second section of the passenger train for Cher-

bourg and although there was a red sig-

nal up at the entrance of the tunnel it only reduced its speed and entered while going at the rate of twenty-five miles an hour. The collision followed. Awful Crash in Dark. Rouen train crashed into the rear car of the transatlantic train, causing a horrible wreck. The locomotive of the Rouen train completely telescoped the rear coach of the transatlantic and in the smoke and darkness an awful panic resulted. It was a miracle that nobody was killed. Twenty injured persons were

taken out of the wreckage. Several of them were suffering from broken limbs, but no one was fatally hurt. American Girl Injured. An American girl, who was going home with her mother, was caught in the wreckage and pinned down by some iron work. Hours elapsed before the girl was extricated from her painful position. Her mother escaped uninjured.

The male passengers, after they had recovered from the panic following the collision, went manfully to work in aiding the rescue of the injured, who were taken to the hospitals at Nantes and Republicas

J., Sept. 26 .-[Special.]-The question of reform in the currency system of the United States came before the American Bankers' as-

sociation today when the report of the currency commission appointed by the association at St. Louis last year was submitted by A. Barton Hepburn of New York, chairman of the commission. The commission endeavored to secure legislation to correct certain evils in the currency system, but failed. The commission's idea, as outlined by Mr. Hepburn, was to obtain more privileges in the issuance of circulating notes and thus relieve the frequent condition of stringency in the money market.

It is expected there will be opposition

in the money market.

It is expected there will be opposition to the adoption of the report from delegates representing banks in the south and west. They believe the legislation favored by the commission would benefit only the large banks, and they will make a fight for legislation that will give equal benefit to the smaller banks.

Overwhelming Proof that Lydia E. Pinkham's Vegetable Compound Succeeds.

One of the greatest triumphs of | Dear Mrs. Pinkham:-Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy Tumor,

The growth of a tumor is so in-

sidious that frequently its presence is wholly unsuspected until it is well advanced. So called "wandering pains" may

come from its early stages or the presence of danger may be made manifest by excessive monthly periods accompanied by unusual pain, from the abdomen through the groin and thigh.

If you have mysterious pains, if

there are indications of inflammation or displacements, secure a bottle of Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, right away and begin its use.

The following letters should convince every suffering woman of its virtue, and that it actually does conquer tumors.

Mrs. May Fry, of 836 W. Colfax Ave., South Bend, Ind., writes: Dear Mrs. Pinkham :-

"I take great pleasure in writing to thank you for what Lydia E. Pinkham's Vegetable Compound has done for me. I also took the Blood Purifier in alternate doses with the Compound. Your medicine removed a cyst tumor of four years growth, which three of the best physicians declared I had. They had said that only an operation could help me. I am very thankful that I followed a friend's advice and took your medicine. It has made me a strong and well woman and I shall recommend it as long as I live.

Mrs. E. F. Hayes, of 26 Ruggles St., Boston, Mass., writes: Dear Mrs. Pinkham:-

MR. C. B. FIZER, Mt. Sterling, Ky.,

Pe-ru-na For Kidney Trouble. Mrs. Geo. H. Simser, Grant, Ontario, Can., writes:
"I had not been well for about four

years. I had kidney trouble, and, in fact, felt badly nearly all the time.
"This summer I got so very bad "This summer I got so very bad I thought I would try Peruna, so I wrote to you and began at once to take Peruna and Manalin.

"I took only two bottles of Peruna and one of Manalin. and one of Manalin, and now I feel better than I have for some time

altogether. I bless the day I picked up the little book and read of your Peruna." It is the business of the kidneys to remove from the blood all poisonous materials. They must be active all the time, else the system suffers. There are times when they need a little assistance. Peruna is exactly this sort of a remedy. It has saved many people from disaster by rendering the kidneys ser-vice at a time when they were not able to bear their own burdens.

INSIDE OF A DAM.

Unique Power House Near Baltimore Constructed Under Water. An absolutely unique power plant has

recently been completed about fifteen miles below Baltimore on the Patapsco river. It is built within a dam and is entirely under water. It is the first of its kind ever built and cost much less than it would have if built in any other known way. The dam is 220 feet long, 40 feet thick at the base and 201/2 feet high. The spillway is 168 feet long, but at present only 108 feet of this distance is used

for housing the power plant. The dam is of reinforced concrete, the shell being 18 inches thick at the bottom and tapering at the top.

The apron extends only half way down The apron extends only half way down from the crown, says the Electrical World, the remaining down stream por-tion being entirely open and provided with windows by means of which the interior is lighted. The shape of the

apron is such that the water is thrown some little distance away from the win The part used by the power house i fitted with a false ceiling hung five feet from the inside of the dam so as to protect the apparatus from any water that might seep through the outer shell of the dam. The dam is built of a fine and rich mixture, which was laid very wet. Aside from this no precautions

were taken to eliminate water The water is fed to the turbines through steel pipes passing through the up stream spillway shell and discharged by draft tubes into the base of the dam, dropping into a well sunk some three feet below the river bed. The water basses thence by way of a channel con tructed in the river bed, out of the dan of the spillway so that the trash racks are kept clear of drift wood, etc.

Mansfield and the Drum. It is not generally known that in addition to his other activities Richard Mansfield was at one time a reporter. He did all-around work on a small paper in Boston, and from the city room graduated to the desk of musical and dramatic criticism. Only one of his criticisms seems to have attracted no tice, and that was because he devoted the major part of it to the work of the bass drum. He read the bassdrummer a long lecture on his igno-rance of the dynamic value and capabilities of that instrument. The idea of criticising the brass drum made the professionals smile, but Mansfield maintained that it was but natural that he the son of a musician himself, should

A fond mother received an unexpected jolt from her 5-year-old son one day last week. The little fellow, an unusually spunky boy for his age, came home crying at the top of his lungs. His mother rushed to him, and, after soothing him for a while, drew from him the story of his trouble. He had been bullied and planed of a headache he would have felt that the typewriter company were responsible and ought to send a mechanic with a bag of tools to attend to the matter.

"Yes," said Sybil, seating herself at the typewriter, and letting her shapely little hands hover above the keys ready to pounce upon them as the first words fell from his mouth.

But the words were long in coming.

PUTS THE "GINGER" IN The Kind of Food Used by Athletes. A former college athlete, one of the long distance runners, began to lose his power of endurance. The early settlers of Kansas remember many exciting times occasioned by county seat fights. Many of these fights resulted in the killing of some of the participants. But when Emporia wanted to get the

At that time the state capital was Lecompton and the only way to get there was on horseback. Each town prepared to present its side of the case to the Legislature and the Emporia man started with his petition for Lecompton. On his way, however, he was stricken with fever and ague and was detained on account of the illness. The Americus man with the remonstrance overtook him. Just what kind of a deal was made is not known to the public, but the remon hardening fattening and healthful. Two Who Knew Scott.

Why is it that one so rarely hears of the death of old men who knew Sir Wal-ter Scott? Is it because all are dead, and that those who saw and talked with him that those who saw and taked with him are now represented only by a few vigorous old ladies? The number of these has been sadly reduced, if not extinguished, this week by the death of two-Mrs. Campbell Fraser and Miss Robb. Both were characters whom Sir Walter would have gladly enshrined in his novels, but "I feel that Peruna and Manalin cured me and made a different woman of me have gladly enshrined in his novels, but at the time they met the novelist their personalities were undeveloped. Mrs. Fraser saw her hero in the streets of Edinburgh, but did not enjoy the luxury of speech. She offered the limping stranger her seat. He refused, saying, "Never mind, my dear; keep your place." Miss Robb, however, insisted, and lived for eighty years afterward to feel glad that she did.—London Chronicle.

Parliamentary Language.

Representative Champ Clark of Missouri tells a story about former Representative Henry U. Johnson of Indiana. "Mr. Johnson," he said, "was engaged in a debate with an Illinois congressman and called him an ass. This was unpar-liamentary, of course, and had to be withdrawn. Pursuant to the order of the speaker, Mr. Johnson said: "'I withdraw the language I used, Mr. Speaker, but I insist that the gen-tlemen from Illinois is out of order.' tleman from Illinois is out of order."
"How am I out of order," demanded the Illinois man, with considerable heat. "Probably a veterinary surgeon can tell you," retorted Johnson. This was parliamentary and went to the record." -Indianapolis News.

suited in the killing of some of the participants. But when Emporia wanted to get the county seat away from Americus it set its brains to work and took it without raising a disturbance. Americus was unaware of the trick that was being played.

When Emporia conceived the idea of becoming the capital of the county, now Lyon county, was a short distance south of the town. Its citizens circulated a petition asking the Legislature to cut a strip off from the north end of the county and to add a like strip to the south end, thus making Emporia close to the center of the county. Americus heard of the proposed change and got out a remonstrance, which received as many or more signatures than t! petition.
