GERMANY IS FIRST AND FRANCE SECOND.

RESULT OF GREAT INTERNATIONAL BALLOON RACE IS EXCEED-ING CLOSE.

G. S. LAHM MAY CONTEST.

Pommern and Isle de France Finish in Contest Only Ten Miles Apart in New Jersey.

ST. LOUIS, Mo., Oct. 24.-Late details of the international balloon race which started from here late Monday afternoon show that the contest was a most remarkable one. The finish of the tace was the closest and most exciting the followers of the sport have ever is: One of 48 stories; one of 41; two known, the victorious German balloon, of 26; three of 25; two of 23; four of 22; the Pommern, which landed at Asbury Park yesterday morning, having but barely ten miles the advantage of the French contestant, L'Isle de France, second in the race, which descended at Herbertsville, N. J., a few miles from the Atlantic coast and slightly northwest of Point Pleasant. The Pommern covered 880 miles while the Isle de France traveled 870.

The result of the race:

The result of the race:

Miles Time from in air.

G. S. Lahm, representatives of the Aero club of France, stated that he may contest the right of the Pommern for the first honors because of the close distance between the landing points of the Pommern and L'Isle de France.

When the L'Isle de France did not descend until late in the afternoon, there

scend until late in the afternoon, there was a belief the French aeronauts might, after all, be declared the winners. Evidently a contrary current caught the L'Isle de France, however, and blew the raft back to the southwest.

Realizing that their supply of gas was low and that they were losing ground, the occupants of the French basket decided to make a rapid descent as near the coast as possible.

Race and Duration Records Broken. Race and Duration Records Broken.

While losing the distance record and possession of the cup, the French team sailing Isle de France gained the honors of the world's record for duration of flight. Starting from here at 4:10 p. m., central time, they landed Wednesday at 1:10 p. m., eastern time, making their time in the air just 44 hours. The previous record was 41 hours 5 minutes, hold by Count de la Vaulx of France.

Germany having won possession of the silver trophy, presented by James Gordon Bennett, the race next year will be in the home of the German Aero club. Final possession of the trophy rests with the club which wins it three times.

The balloon United States, which fin-The balloon United States, which fin-ished eighth in this year's contest, was the winner in 1906, gaining a leg on the cup for the Aero Club of America, the newest recruit in the aeronautic confederation of the world. Aside from possession of the cup, the Germans won a cash prize of \$2500, also offered by Mr. Bennett.

Beachey Airship Wins. Beachey Airship Wins.

Interest in the balloon contest did not prevent yesterday's programme at Forest park. Sailing to windward and return over a course measuring one mile and a half from start to finish, Lincoln Beachey of Toledo, O., when the dirigible balloon or airship race, which marked the close of the St. Louis Aeronautic carnival of 1907. The prize was \$2000. In his "Beachey Airship," a cigar-shaped affair, propelled by a four-cylinder gasoline motor, the winner covered der gasoline motor, the winner covered the distance in four minutes and forty

the distance in four minutes and forty seconds.

Jack Dallas, in the "Strobel Airship," a sister craft to the Beachey, won second place, with a time record of six minutes and ten seconds, while Capt. Thomas S. Baldwin of New York, in the "California Arrow," was third, in seven minutes and five seconds. A fourth competitor, the "Comet," entered by Charles Baysdorfer of Omaha, Neb., and sailed by Horace Wild, did not complete the first trial of the course, the motor breaking.

The Israel Ludlow aeroplane was to have given an exhibition flight attached to an automobile, but was too badly, damaged by coming in contact with the exposed gaspipes that were used in the exposed gaspipes that were used in the inflation of the balloons contesting in the international cup races.

Story of the Flight. ASBURY PARK, N. J., Oct. 24.—
The story of the trip of the German balloon, as told by Capt. Erbsloh, revealed a dearth of graphic incident. They started from St. Louis on Monday afternoon at 4 o'clock with the other. balloons in the international contest, and took a northerly course. Capt. Erbsloh was confident that they could not maintain this direction for any length of time. The balloon reached an altitude of 5000 feet, where it encountered a strong easterly current that took tered a strong easterly current that took them flying and gave to their air vessel a steady course. They were favored by accurate charts in their possession and only once lost their bearings. This was in Ohio yesterday afternoon about 3 o'clock.

The balloon was let down so near the earth that the anchor rope dangled along the roadways and fields. The aeronauts the roadways and fields. The aeronauts saw a farmhouse in their path, and Mr. Clayton hailed a woman who stood at the door. She threw up her hands in fright and ran in, closing the door behind her. They trailed along a little farther and saw a farmhand leaning against a fence. He told them that they were near Port Washington. Then they shot up into the air again to 5000 feet above the level and struck the easterly current, which brought them on to Philabove the level and struck the easterny current, which brought them on to Phil-adelphia, where they arrived about day-break.

All this time the aeronauts were try-ing to find an air current that would

ring to find an air current that would steer their vessel north. The captain wanted to get into New York, or, if possible, into Massachussetts. They lowered the balloon to 300 feet above the earth, could not find any current to take them in the direction they wished takes them. in the direction they wished to go, then shot up 10,000 feet above the earth with the same result. They they gave it up and got once more into the easterly current, which brought them to their land-ing place on the coast line. Capt. Erbwas well supplied with provisions

FONTANET WITNESS IS DEAD.

MOLTEN METAL IN BLAST FURNACE ENDS LIVES.

Employes When the Accident

EMPLOYES' NARROW ESCAPE.

Does Much Damage in Northern City.

ASHLAND, Wis., Oct. 24.-[Special.] -Four men were killed-three probably fatally injured and a number seriously hurt when 200 pounds of nitro glycerine exploded this morning in one of the mixing mills of the Atlantic Dynamite company's plant, six miles southwest of this

HUSTLAND, ARNOLD, aged 33 years. WICKS, OLE, aged 19 years. WICKS, PETER, aged 17. UNKNOWN MAN, body torn to shreds,

The injured: Engwold Branston, side of neck and face blown away.
Oscar Wizecen, badly cut by flying glass.
Theobald Bictor, hit by flying timber, internally injured.

Narrow Escape for Employes. The loss of life would have run up into the hundred had the explosion happened a few minutes later as the work pened a few minutes later as the work train bringing the employes of the com-pany from their homes in Ashland, just pulling into the company's tract, had not reached the yard when the accident hap-pened. The fate of the four early-com-ers who were near the mixing mill was instant death

instant death. The force of the explosion was terrific, shaking the surrounding country for miles around. Farm houses in the near vicinity lost all window panes and plaster was jarred from the walls. In Ashland many windows were broken and large plate glass windows in the Masonic temple and Gunaud's jewelry store fell out.

Company Stands Property Loss. The property loss, which it is said will be borne by the Atlantic company, may reach several thousand dollars, the damage being for the greater part confined to the breaking of windows.

The explosion happened at 6:45 o'clock, and as all the workmen near and around the mill were killed, officials say that it will never be known how it happened.

while the explosion did not create as much damage at the plant as did the explosion of a year ago when 1000 pounds of dynamite were accidentally set off, killing the superintendent of the company, the shock of this morning's explosion was much more severe and was felt for many miles.

Forts Saved Buildings. During the summer the Atlantic Dy-namite company has erected around each of its mills high earthen embank-ments or forst and as was the case this ments or forst, and as was the case this morning, these forst received the brunt of the explosion and the other buildings were not injured outside the shaking up they received.

QUAKE DESTROYS 2 ITALIAN TOWNS.

At Least Ten and Perhaps 100 Perish, Says Report from Rome-Mutiny During Confusion.

ROME, Oct. 24.-The earth shocks which were felt throughout Calabria vesterday caused considerable damage, destroying two villages, but so far as known only ten lives were lost. To add to the desolation it was raining in torrents, which resulted in a good deal of suffering among the homeless people. The cathedral at Towre di Gerace was thrown down, as was an ancient tower which had withstood all the Calabrian earthquakes for centuries past.

Mutiny in Confusion The confusion caused by the earth-quake was increased by a mutiny of the prisoners in the Catanzaro jail, which was subdued with difficulty.

The troops sent with the relief trains to the scene of the disaster had a calming effect on the population.
Only two days ago the finance ministe

naugurated two entirely new villages, in Calabria, which had been built by the relief committee of Milan for the victims of the carthquake of 1903. These villages, however, withstood the shocks. Many Towns Suffer.

The shock was especially severe in the southern end of the peninsula. Half the houses at Ferruzzano and Brancaleone collapsed and many persons were buried in the ruins. At Sinopoli and St. Ilario several persons were buried and Many other towns suffered, but not severely. A special dispatch to The Tribune says that 100 persons lost their lives in the Commune of Ferruzzano, but there is no confirmation at present.

ORDER MAY DIG COAL

Michigan Grand Lodge of Odd Fellows Find Bituminous Vein on Big Fraternal Farm.

NEGAUNEE, Mich., Oct. 24 .- [Special.]-It is not at all unlikely that the Michigan grand lodge of Odd Fellows will at some indefinite time engage in coal mining. This undertaking, novel ander the circumstances, has been mad possible by developments indicating with practical certainty that a vein of the bituminous fuel underlies the grounds on which is located the home maintained at Jackson for aged members of the order. A proposition to explore the grand lodge oldings, and to pay 10 cents a ton royal-y for all coal produced, has been made he board of control by outside interests, but it has been refused consideration

EMPEROR WELL AGAIN

Austrian Ruler Sleeps Soundly and Physicians Admit His Convalescence.

VIENNA, Oct. 24.-The physicians in attendance on Emperor Francis Joseph this morning announced for the first time since his majesty has been confined to Schoenbrunn palace, that the convales-cent stage of his illness has begun. His sleep last night was absolutely undis-turbed by coughing and the catarrhal symptoms are improving. Preparations are going on to permit the Emperor to take a walk in the gardens, in the event of his improvement continuing and the of his improvement continuing and the weather being favorable

FIFTY NEAR DEATH IN RIVER. Passengers Try to Leave Car and Bridge

Has No Floor. PITTSBURG, Pa., Oct. 24.—Flfty passengers and the crew of a Pittsburg railway electric car had a narrow escape from death yesterday at McKeesport; Pa., near here. The car started across the Flfth avenue bridge over the Youghlogheny river, and when about the middle of the structure jumped the track. The passengers became panie-stricken and attempted to leap from the car, but were prevented by the conductor. The bridge floor is being repaired, and had the passengers left the car they would had the passengers left the car they would

EXPLOSION KILLS TWO EFFORT TO CRUSH

Panic Among Illinois Steel Company

Occurs.

MILWAUKEE, Wis., Oct. 24.— In an explosion which wrecked one of the blast furnaces at the Illinois Steel company's Bay View plant Wednesday afternoon, two men were killed, being literally roasted by molten metal, and hierally roasted by molten metal, and one was badly injured, while half a hundred others narrowly escaped.

Bernard Smith, aged 45, the foreman of the furnace, living at 326 Pine street, and Stephen Majorasz, aged 25, living at 262 Logan avenue, are the dead, and Peter Pastor, aged 38, 312 Superior street, is the injured man.

The explosion caused a panic among

street, is the injured man.

The explosion caused a panic among the employes, many of whom were slightly burned by the flying metal. When the uproar had subsided the two men who were injured most seriously were found almost covered with the molten metal. Both were taken to the Milwaukee hospital where they died soon after.

The choking of a furnace "bell" at No. 2 furnace caused the explosion. A gathering of coke and slag became lodged in the "bell" and Majorhsz mounted the scaffold around the hopper, poking a long iron rod into the molten mass to break up the "choke." In a moment with an awful roar the "bell" blew up, throwing molten metal in all directions.

Dr. W. A. Batchelor, 1109 Kinnickinnic avenue, was summoned and first aid

Dr. W. A. Batchelor, 1109 Kinnickinnic avenue, was summoned and first aid
was given the injured men and they were
hurried to a hospital except Pastor, who
refused to go to a hospital and was
taken to his home. Majorasz was single,
but Smith lived with his family at 326
Pine avenue. He was an old employe
of the company and in charge of No. 2
furnace. Pastor is married. The loss
to the company aggregates \$300. The
furnace will be closed until repairs can
be made.

WORLD IMPERILED BY WHITE PLAGUE.

Tuberculosis Kills Over a Million People Every Year, Says Prof. William D. Frost.

FOND DU LAC, Wis., Oct. 24 .-[Special.]-With a plea to the residents of the city, state and country to join in the fight against tuberculosis or the "White plague," Prof. William D. Frost of the University of Wisconsin brought to a close a brilliant address on "The Recession of Tuberculosis," delivered at the closing hour of the afternoon session of the Federation of Woman's clubs yes-

terday. Kills a Million Annually. According to Prof. Frost more than 1,000,000 persons die annually from tuberculosis and of this number about 150,000 die in the United States. In Wisconsin the mortality rate from this disease is between 2500 and 3000. The annual mortality rate is greater than the total number of persons killed during the

total number of persons killed during the Civil war, according to the figures given by Prof. Frost.

"Tuberculosis does not make any discrimination, but attacks rich and poor and any organ of the body," said the speaker. "It can be transmitted through bovines as well as human beings. In Wisconsin recently infected milk sold from a creamery scattered the tuberculosis germs over a large area. A list of the persons, who used the infected milk, is to be prepared and these people will be watched by medical men throughout the state.

TOOK HOLD OF MUZZLE. Carelessness with Firearms Causes Death

of Youthful Nimrod Near New London. NEW LONDON, Wis., Oct. 24.—
[Special.]—While hunting on the Wolf river, John Kramer, aged 17, was shot and killed. In attempting to remove his gun from a boat it was accidentally discharged, killing him instantly. The interment took place today.

CRUSHED BY AN ELEVATOR

MILWAUKEE, Wis., Oct. 24. Crushed by an elevator weight while painting in an elevator shaft in the gen-eral office building of the Allis-Chalmers company at West Allis Wednesday company at Wed Ams Wednesday morning, Charles Knudson, a painter, died Wednesday night at Trinity hospi-tal. Knudson was 31 years old and was alone in this country, his relatives living in Norway.

FRATS BY LAW Strike if Demands Are Not Granted. NEW YORK, Oct. 24.-It is reported SECRET ORGANIZATION WORKING

CIETIES AT UNIVERSITY. ASK LEGISLGTURE TO ACT

TO ABOLISH GREEK LETTER SO-

Senator Lockney, Assemblyman Ledvina and Dr. McCarthy Are the Leaders in the Fight.

MADISON, Wis., Oct. 24.-[Special.] -It is now certain that at the next session of the Legislature a determined effort will be made to pass a law that will port. Her seacocks must have been opened, but how, no one seems able to abolish at the state university, fraternities and all secret organizations, except those of an honorary character.

Secret League at Work. The campaign against these organizations is on, and is being vigorously pushed by a body of a dozen prominent citizens of Madison, and faculty mem-bers. The personnel of the Anti-fraternity league is not known, as the work thus far has been conducted secretly, the members believing that the best way to destroy the secret organizations is to go about it quietly. It is said that Dr. Charles McCarthy, head of the legisla-tive reference room, professor of political science in the university, and coach of the football team, is the moving spirit of the anti-fraternity agitation. Members of the Legislature have already been approached upon the subject, and it is said that the nucleus of an orand it is said that the nucleus of an organization has been started in the law making body. Senator Henry Lockney of Waukesha is reported to have been selected as the spokesman in the Senate. Assemblyman Lawrence Ledvina of Manitowoc, it is said, will lead the antifrat forces in the assembly.

Under the leadership of Dr. McCarthy, the series workers of the committee are

the active workers of the committee are now preparing data concerning frater-nities which will be presented to the Legislature. It is the intention of the committee to swamp the solons with a mass of adverse facts that will force them to legislate against the organiza-tions. Dr. McCarthy now has about 200 pages of this data, all of which purports to show in one form or another, the bad influence of secret organizations upon the

Basis of the Indictment.

Here are some of the subjects that are under investigation:

What percentage of fraternity students are "conned" out of college as compared with those outside fraternities who are "conned."

What percentage of fraternity men take an active interest in college activities?

What percentage of fraternity men belong to class societies?

Selecting certain nights, what number of fraternity men devote their time to "fussing" (calling)?

What is the average price that frat men pay for their clothes as compared with the pre that non-frat men pay for theirs?

What is the expense of a fraternity man for his college course as compared with a man unaffillated?

What number of fraternity men participate in debating and other outside work of a literary nature?

WHAT IS PE-RU-NA?

Is it a Cata: rh Remedy, or a Tonic, or is it Both?

Some people call Peruna a great tonic. Others refer to Peruna as a

great catarrh remedy. Which of these people are right? Is it more proper to call Peruna a catarrh remedy than to call it a tonic? Our reply is, that Peruna is both a tonic and a catarrh remedy. Indeed, there can be no effectual catarrh rem-

edy that is not also a tonic. In order to thoroughly relieve any case of catarrh, a remedy must not only have a specific action on the mucous membranes affected by the catarrh, but it must have a general tonic

action on the nervous system. Catarrh, even in persons who are otherwise strong, is a weakened condition of some mucous membrane. There must be something to strengthen the circulation, to give tone to the

arteries, and to raise the vital forces. Perhaps no vegetable remedy in the world has attracted so much attention from medical writers as HYDRASTIS CANADENSIS. The wonderful efficacy of this herb has been recognized many years, and is growing in its hold trio of medical agents is formed in Peruna which constitutes a specific remedy for catarrh that in the present state of medical progress cannot be improved upon. This action, reinforced by such renowned tonics as COLLINSONIA CANADENSIS, COR-YDALIS FORMOSA and CEDRON SEED, ought to make this compound an ideal remedy for catarrh in all its

stages and locations in the body. From a theoretical standpoint, therefore, Peruna is beyond criticism. The use of Peruna, confirms this opinion. Numberless testimonials from every quarter of the earth furnish ample evidence that this judgment is not over enthusiastic. When practical experience confirms a well-grounded theory the result is a truth that cannot be

THE WAYS OF WOMEN. A Laplander bold fell in love I am told With a maiden who lived near the Pole. Their engagement to hallow, he made her a tallow Dip-candle (and went in the hole. For there tallow's expensive, and trade not extensive, Though some say the tallow he stole). Said he, "Oh, he mine! And this candle is thine!"

And right here the real tale was begun. She gave one coy look, and the candle she

here for several years, as her husband was employed as organist at St. Paul's cathedral here.

The funeral of William F. Bottsen, the 9-year-old son of John Bottsen, was held at 2 o'clock yesterday afternoon from the residence, 257 Tenth street.

His candle so greasy and yellow and nice. When he asked for the wick she said, "No, not a lick!

For von gave and I took. That is Love."
Then she shook off the crumbs as she rose to her feet.

"Glad I met you," she said. "Can I get you your she said. "Can I get you your sled?"
And she pointed the way down the street.

Back to Lapland he went, indeed, he was

sent; And he sulkily said as he slid, "Of all the bold minxes! She's sharp as the lynxes!
The game's not worth the candle. I'll skid!"
Which he did.

WALNUTS TO BE HIGH PRICED. California Will Have a Bumper Crop, But France Reports a Shortage. Those who recently returned from the walnut raising districts of southern California report that the trees are now more heavily laden than has been the

case for years.

Last year the prospect was bright for an unusual yield, but the trees were eventually blighted by a destructive worm and several weeks of scorching weather. This season the worm is not feared, as precautions have been taken. No signs of the destroyer have so far appeared. The weather, unfortunately, cannot be controlled. Extremely hot

weather shortly before picking time, bakes the nuts and makes them unfit for market. for market.

The prospect of a bumper crop is particularly pleasing to growers because unusually high prices may rule owing to the failure of the walnut orchards in France this season. Advices are that cold and rain have ser ously crippled the cold and ram have set ously crippied the orchards in that count ", and it is estimated that they will not yield more than a third of the average crop.

As a bumper domestic crop will not be sufficient to make up for the shortage in the foreign crops, prices, it is believed, will be much higher than those of last year. Los Angeles Times.

year.—Los Angeles Times.

Prunes Cause Baldness, Prof. Trouessart of the Museum of Natural History unsmilingly declared be-fore the Academy of Science in Paris the other day that there was a well-defined connection between a diet of prunes and baildness.

The professor said he had discovered a new kind of microbe, which flourished in prunes, figs and other dried fruits, also in the human hair, and in the feathers of contain higher particle. certain birds, notably parrots.
"I do not affirm," said the professor,
"that these acarians cause har to fall,

but they certainly give rise to a condi-ion predisposing to baldness."

OLD SOAKERS Get Saturated with Caffeine. When a person had used coffee for a number of years and gradually declined in health, it is time the coffee should be left off in order to see whether or not that has been the cause of the trou-

A lady in Huntsville, Ala., says she used coffee for about 40 years, and for the past 20 years has had severe stomach trouble. "I have been treated by many physicians but all in vain. Everything failed to give relief. Was prostrated for some time, and came near dying. When I recovered sufficiently to partake of food and drink I tried coffee again and it soured on my stomach.

"I finally concluded that coffee was the cause of my troubles and stopped using it. I tried tea in its place and then milk, but neither agreed with mey then I commenced using Postum, had it properly made and it was very pleasing to the taste. "I have now used it four months, and

I can eat almost anything I want and can sleep well, whereas, before, I suffered for years with insomnia. "I have found the cause of my troubles and a way to get rid of them. You

my health is so greatly improved that

can depend upon it I appreciate Postum." "There's a Reason." Read "The Bood to Wellville," in page.

BOERNER BROTHER,

PERIODS OF PAIN

from periodic suffering, it does no seem to be the plan of nature that women should suffer so severely. Irregularities and pain are positive evidence that something is wrong which should be set right or it will lead to serious derangement of the feminine organism.

Thousands of women, have found relief from all periodic suf-fering by taking Lydia E. Pink-Vegetable Compound, which is made from native roots and herbs as it is the most thorough female

regulator known to medical science. It cures the condition which causes so much discomfort and robs that period of its terrors. Women who are troubled with painful or irregular functions should take immediate action to ward off the serious

nces and be restored to health and strength by taking Lydia E. Pinkham's Vegetable Compound

Miss Adelaide Nichols of 324 West 22nd Street, New York City, writes:—Dear Mrs, Pinkham:-"If women who suffer would only rely upon Lydia E. Pinkham's Vegetable Compound their troubles would be quickly alleviated. I feel greatly indebted for the relief and health

which has been brought to me by your inestimable remedy."

Lydia E. Pinkham's Vegetable Compound cures Female Complaints such as Falling and Displacements, and Organic Diseases. Headache, General Debility, Indigestion, and invigorates the whole feminine system. For the derangements of the Kidneys of either sex Lydia E. Pinkham's Vegetable Compound is excellent.

Mrs. Pinkham's Standing Invitation to Women Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

TREMENDOUS GROWTH OF MILWAUKEE CONCERN.

Wilhelm of Sweden the Innocent Cause Mayer Boot and Shoe Company of Milwaukee, with Pacific Coast Branch at Seattle, One of Largest Concerns in but for all that Prince Charles William Country.

but for all that Prince Charles William Louis, grandson of King Oscar of Swe-

Milwaukee can be proud to be the home f the Mayer Boot and Shoe company. Next to the fame of Milwaukee's great Next to the fame of Milwaukee's great breweries comes the country-wide reputation of Mayer boots and shoes. Mayer shoes have won their reputation on quality. The Mayer Boot and Shoe company has persistently refused to lower quality to enable it to sell shoes at a lower price, and by maintaining this honest and superior quality and keeping in the front ranks in style, it has gradually won the

superior quality and keeping in the front ranks in style, it has gradually won the confidence of thousands of shoe wearers who purchase Mayer-made shoes year after year—who look at the Mayer trademark as positive evidence of style, comfort, and good wearing quality.

This quality policy so consistently pursued has resulted in healthful and rapid growth. In the twenty-five years since the Mayer Shoe Company began operations it has outgrown six factories. And in the last six months, during which the last factory annex in Milwaukee has been building, the volume of business has so greatly increased that even with this new annex the output lags far behind the demand.

Including the new Seattle factory, which has juest been completed, the total capacity of the Mayer Boot and Shoe Company exceeds 9,000 pairs a day. This remarkable output, together with the inability of the Mayer Company to build suppose the first many to build not take American society as seriously as that small band of multi-millionaires who frequent Newport takes itself. At all events he accepted a dinner invitation—his first—from one leader, and this leader promptly excluded from her function all her social rivals and enemies and a few of her husband's financial opponents. It was hinted that only the really worth while should meet the prince. The snub was terrific. The rivals and enemies were stunned, and the prince's hostess, no less a uower than Mrs. Stuyvesant Fish, won a tremendous social victory.

Prince Wilhelm is 23 years old and has been in the navy, where he holds the honorary rank of lieutenant, for many years. To his many other titles and honorary may be added that of husband when he gets back to Sweden.

remarkable output, together with the inability of the Mayer Company to build factories fast enough to keep pace with the demand, is most convincing evidence of the high quality of Mayer footwear.

In the first place the Mayer shoes are sensible. While good style is an important factor, comfort is always a greater consideration; while conspicuous extant factor, comfort is always a greater consideration; while conspicuous extremes are avoided, refined dressiness is always secured. The exceptional durability and splendid wearing quality of Mayer shoes are due to the use of only the best leather and the employment of only the most experienced and skillful. only the most experienced and skillful workmen. From the wide range of styles you are certain to find one which pleases. The best known brands are the "Honor-bilt" fine shoe for men: the "Leading Lady" fine shoes; the "Martha Washington" comfort shoes; "Special Merit" school shoes, and the "Yerma" cushion shoes. If you want a dress shoe, a work shoes. If you want a dress shoe, a work shoe, or a shoe dressy enough for general use, yet sturdy enough for rough usage, it is our belief that you can't do better than to ask your dealer to supply better than to ask your dealer to supply and discouraged when I began using Doan's Kidney Pills, but they went

Wedded One Hundred Years. There has just been celebrated in the little village of Isonbolgi in Vienna the anniversary of a wedding which occurred Foster-Milburn Co. B

anniversary of a wedding which occurred just 100 years ago.

The long wedded couple are named Szathmari. The husband is 120 years old and the wife 116. They have hundreds of descendants in and around the village. The old people live in a modest cottage and are well looked after by relatives. They are nearly blind and deaf, and sleep nearly all the time. The man, however, still enjoys his pipe and a glass of wine, and neither is bedridden.

It is a strange fact that in all their years they have never left the village and know nothing of the great world outside of Isonbolgi.

RING IN New and Liberal Homestead Regulations

New and Liberal Homestead Regulations

New and Liberal Homestead Regulations Western Canada

NEW DISTRICTS Now Open for Settlement

Some of the choicest lands in the grain growing belts of Saakatchewan and Alberta have recently been opened for settlement under the Revised Homestead Regulations of Canada. Thousands of homesteads of 160 acres each are now available. The new regulations make it possible for entry to be made by proxy, the opportunity that many in the United States have been waiting for. Any member of a family may make entry for any other member of the family who may be entitled to make entry for himself or herself. Entry may now be made before the Agent or Sub-Agent of the Districtly proxy (oncertain conditions), by the father, mother, son, daughter, brother or stater of an intending homesteader.

"Any even numbered section of Dominion

"Any even numbered section of Dominion Lands in Manitoba or the North-West Provinces, excepting 8 and 25, not reserved, may be home-steaded by any person the sole head of a family, or male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less."

There is a case of attempted suicide, which may yet prove effectual, that has a spice of novelty about it. The circumstances are commonplace to a deg ee, which is, perhaps, why they are sometimes called "mysterious." They comprise a lodging house, a nameless woman, a bedroom taken for the night, and next day the discovery of the woman almost dead from project. The fee in each case will be \$10.00. Churches, schools and markets convenient. Healthy climate, splendid crops and good laws. Grain growing and cattle raising principal industries.

For further particulars as to Rates, Routes, Best Time to Go and Where to Locate, apply to My D. Scott. Superintendent of Immogration. W. D. Scott, Superintendent of Immigration, Ottawa, Canada, or T. O. Currie, Room 12, B. Callahan Block, Milwaukee, Wis., Authorized dead from poison. Her purse contained only 15 pence. Back to Nature.

Queer things result from this recent day craze of city folks to get into the country to live. Volney T. Malott and family are among those who are thinkjust opposite Ragusa, is about to become the property of Princess Elizabeth, only daughter of the late Crown Prince Rudolf, writes a Vienna correspondent of the Pall Mall Gazette. It was originally bequeathed to her, but the Emperor gave it to the Deminions and in a very pretty farm. Rudolf, writes a Vienna correspondent of the Pall Mall Gazette. It was originally bequeathed to her, but the Emperor gave it to the Dominicans and in its stead set aside a million gulden (£83, 000) for his granddaughter. Now the princess wants it and has obtained the consent of the Pope for the Dominicans to sell it to her.

Lacroma has had many owners, among them the ill fated Maximilian of Maximal County. Not long ago they drove up Milersville way. Coming back they passed a very pretty farm.

"Now, there's a place I should like." would make an ideal site for the house, and the place could be made quite attractive."

"Huh," said Mr. Malott. "You like that, do you?"

"That's odd. We've owned that place thirty years."—Indianapolis News.

than any other manufacturer.

It REASON W. L. Douglas shoes are worn by more people in all walks of life than any other make is because of their excellent style, easy-fitting, and superior wearing qualities. The selection of the leathers and other materials for each part of the shoe and every detail of the making is looked after by the most complete organization of superintendents, foremen and skilled shoemakers, who receive the highest wages paid in the shoe industry, and whose workmanship cannot be excelled. If I could take you into mylarge factories at Brockton, Mass., and show you how carefully W. L. Douglas shoes are made, you would then understand why they hold their shape, fit better, wear longer and are of greater value than any other make.

TEN MILLION BOXES A YEAR

The most wonderful record in all history - merit made it. The great sums of money spent in advertising have only served to make CASCARETS known, but the greatest advertisement ever printed could do no more than induce a person to try CASCARETS once—a free sample, or at most, a 10 cent box.

Then comes the test, and if CASCARETS had not proved their merit beyond the highest expectations there would not today, after five years on the market, be a sale of nearly a million boxes a month. This great success has been made by the kind words of our friends. No one who has ever tried CASCARETS fails to be pleased and talk nicely about them. CASCARETS are not only easiest to buy, to carry, to take, to give, but are also the best

Children like to take them. They are the one perfect, unequaled family

emedy. Nothing more can be said. Everybody should carry a box in the pocket and have another in the house. Don't forget "they work while you sleep," and "a CASCARET at
