NO HIGHWAY COMMISSIONER. It is doubtful if Fond du Lac county will ever enjoy the distinction of having a highway commissioner, at least not for some time. The Legislature at its last session created the office of highway ommissioner, but as far as can be asertained this office has not been filled in many counties of the state. HOBOES ARE SCARCE.

It is evident that the members of the "tie pass" clan have discovered that the stone piles in Fond du Lac county cannot be diminished and that days of idleness and enjoyment at the county jail are things of the past. Since January 1. when the new law providing that all petty offenders be sent to the work-house instead of jail went into effect hoboes in the city. The usual number of transients are lodged nightly at the calaboose, but they appear to be willing to leave at an early hour in the morning.

Delegates Chosen in April. An examination of the election laws by the city clerk's assistants has disclosed the information that delegates to the national political conventions are to be elected at the regular spring election instead of at the primary election as was supposed. There will be no question therefore, that there will be no split tick-

ts at the primary.

The effect of this discovery is the general belief that it means a large Republican vote at the spring election as it will have a tendency to round up the scattering vote for that party because of the prominence of the contest between lifferent delegates for candidates to the Republican national convention. It is not expected that there will be any contest of consequence for such positions on the Democratic or Social Democratic ickets, but the fight between Taft, Hughes and La Follette delegates, both of the social content of the socia of 'he so-called "trading stock" and the "independent" wings, is expected to be heated. It is possible for a voter to express his choice of candidates for delegates in one column of his ballot and his choice for candidates for city office in Hate is often unconscious fascination.

Spider Web Nets.

It is no longer possible to doubt that the natives of New Guinea use spider webs for fishing nets. A medalist of the Royal Geographical society, who has lately been traveling in New Guinea, reports that the natives bend the tip end of a long bamboo rod in such a way as to make a loop 5 or 6 feet in diameter. They set up this arrangement in the forest where the spiders are thickest and wait for the insect to weave her web in the loop. The web has a mesh about 1 inch square at the outside, which gradually decreases in size to not more than an eighth of an inch square in the center. The native uses this as a scoop net as he stands in the stream and dips the fish out as they come near! It is strong enough to hold fish welghing a pound. The spider which makes it has a body about the size of a small hazelnut, with legs that spread out 2 inches.—Youth's Companion.

AND A WOMAN'S WORK

Nature and a woman's work combined have produced the grandest remedy for woman's ills that the world has ever known. In the good old-fashioned days of

our grandmothers they relied upon the roots and herbs of the field to cure disease and mitigate suffering. The Indians on our Western Plains to-day can produce roots and herbs for every ailment, and cure diseases that baffle the most skilled

physicians who have spent years in the study of drugs. From the roots and herbs of the field Lydia E. Pinkham more than cured, and my hair was restored, after thirty years ago gave to the women of the world a remedy for their pe- penditure of at least \$50 or \$60 in vala-

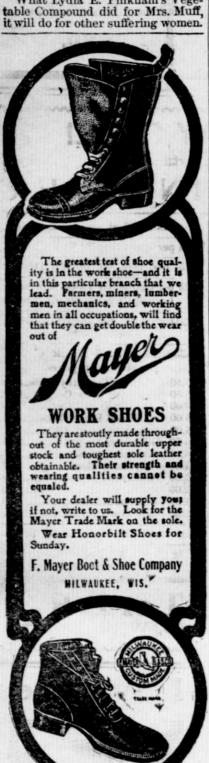

culiar ills, more potent and effica- ly endeavoring to find a cure. B. cious than any combination of drugs. Hiram Mattingly, Vermillion, S. Dak., Lydia E. Pinkham's Vegetable Aug. 18, 1906." Compound is now recognized as the standard remedy for woman's ills. Mrs. Bertha Muff, of 515 N.C. St., Louisiana, Mo., writes:

"Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my troubles public.
"For twelve years I had been suffer-

ing with the worst forms of female ills.

During that time I had eleven different them. physicians without help. No tongue can tell what I suffered, and at times I could hardly walk. About two years ago I wrote Mrs. Pinkham for advice. I followed it, and can truly say that Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice restored health and strength. It is worth mountains of gold to suffering
