It is not always dangerous, unless it extends to the heart, and then the risk is greatly increased. This disease, although not always immediately dangerous, as already observed, will, if not checked, gradually undermine the patient's health; while it wastes the nuscles, disorganizes the joints, and renders the sufferer a cripple. Innumerable remedies have been suggested St. Louis, Mo. for the relief and cure of this most painful disease; but the safest and surest application in the world is St. Jacobs Oil, which never fails to cure Rheumatism, unless there be serious complications with established organic disease, and even then relief will be almost instantaneous.
