Surgeons Find Intestines Perforated Six Times-Murderer Expresses

Delight.

Until yesterday morning every hope had been entertained for Stevens' recov-ery, but at 10 o'clock symptoms of inflammation of the peritonium appeared and the surgeons realized that his con-dition had become critical.

Intestines Perforated. At 6 o'clock Stevens was taken to the operating room and placed under an anaesthetic. On opening the abdoninal cavity, the surgeons discovered that the intestines had been perforated in six different places by one of the shots fired by Chang, and that the patient had no change for recovery. chance for recovery.

Only once during the evening did Ste-

vens show any signs of returning con-sciousness, when, in answer to a ques-tion by one of the doctors, he said that he was in pain. Then he relapsed and lay quietly until the end came at a little after 11 o'clock.

Dear Sir-It is with pleasure that I reply to your request. Some years ago I took up a homestead for myself and also one for my son. The half section which we own is situated between Rouleau and Drinkwater, adjoining the Moose Jaw Creek; is a low level and heavy land. We put in 70 acres of wheat in stubble, which went 20 bush yet, as we intend to keep one part for our own seed, and sell the other part home is to people who want first-class seed, for there is no doubt if you sow good wheat you will harvest good wheat. the home. We also threshed 9,000 bushels of firstyielded 90 bushels per acre, and 80 tion for healthy maternity is acres stubble, which went 30 bushels accomplished by the use of to the acre. These oats are the best kind that can be raised. We have shipped three car loads of them, and VEGETABLE COMPOUND got 53 cents per bushel clear. touch it.

Notwithstanding the fact that we have had a late spring, and that the when Lydia E. Pinkham's Vegetable have had a late spring, and that the Compound was recommended to me. It weather conditions this year were very adverse and unfavorable, we will make more money out of our crop this year

For myself I feel compelled to say that Western Canada crops cannot be checked, even by unusual conditions. I am, dear sir, yours truly, (Signed) A. KALTENBRUNNER.

MUST READ 26 BOOKS A DAY.

That Stunt Necessary Just to Keep Up with the American Output. Somebody has just figured it out that man will have to read at the rate of twenty-six books a day to keep up with American literature alone. Last year, according to The Independent, we broke he record: 2481 more books published n the United States than in 1906; far in the United States than in 1906; far ahead of any previous year.

The total number for 1907 was 3620, from which may be subtracted 695 new editions, leaving 8925 really new books appearing in the United States.

Of these 6517 were by American authors or were new editions manufactured in the United States, the others being by English or other foreign authors or con-

English or other foreign authors or con-sisting of imported editions, bound or in

The French in 1907 produced 10,785, of which, however, 2000 or 3000 were mere pamphlets. The Italian book production for the same year was 7040. In the American list fiction of course stands at the head, with 1171 titles. Next to it and rapidly gaining on it is theology and religion, with 876.

The classes following are law, physical and mathematical science, poetry and the drama. Why is it that people will continue to say that religion is a dead issue and that nobody reads poetry in face of the fact that last year in this country the number of new publications in religion was more than 40 per cent. religion was more than 40 per cent, eater than the year before, and the vol-nes of poetry more than doubled?

Wisdom of the Oyster.

Mr. Travers, the famous New York wit, once met at dinner a pompous Englishman who was "doing" the states. He had letters apienty attesting his importance—letters from Gladstone, Dilke. Salisbury, and Churchill. He had talked everybody tired before the dinner began, and Travers saw visions of a bad meal when he discovered the Englishman to be his neighbor at table. There was never a stop to the fellow's tongue. When the oysters were brought on he began: "Now, it is a question whether or not the oyster has brains; scientists dispute the idea." "T-t-t-they certainly have some," retorted Travers. "Your proof, sir," challenged the Briton, eager for argument. "W-ah-ah-why, sir, the o-o-oyster knows h-haw-how to shut up."

Phew! Salts and Castor Oil!

Why take sickening salts or repulsive castor oil? "Goes through you like a dose of salts" means violence, grips, gripes, gases, soreness, irritation, and leaves your stomach and bowels weak and burnt out. Might just as well take concentrated lye. Then there's castor oil, disgusting, nauseating truck that your stomach refuses unless you disguise the taste. Fool your own stomach, eh? Don't ever believe that anything offensive to your taste or smell is going to do you real good. Nature makes certain things repulsive, so you will not take them. Force yourself to nauseous doses, and you ruin your digestion, weaken your bowels, destroy your health. On the other hand see what a delightful,

palatable, perfect modern laxative, liver regulator and bowel tonic you find in Best for the Bowels. All druggists, 10c, 95c, 50c. Never sold in bulk. The genuine tablet stamped cc. Guaranteed to cure or your money back. Sample and booklet free. Address Sterling Remedy Co., Chicago or New York.
