Muscles Made Elastic and Temperature Regulated by Moisture.

Physiologists tell us that the animal body consists of almost 80 per cent of water. Admitting this to be true, it would seem plausible, says the Medical Record, that this quantity is necessary in order to carry on the normal physiological processes of the animal economy in any way that is greatly reduced or diminished, either through normal processes, of the body or through abnormal processes, this lost quantity must immediately be resupplied.

Under normal conditions and in a proper degree of health this supply is ordinarily furnished partly by the food and partly by the water we daily consume.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

For proof of this statement read the following letters. Mrs. Barbara Base, of Kingman, Kansas, writes to Mrs. Pinkham: "For eight years I suffered from the most severe form of constipation. I was told that an operation was my only hope of recovery. I wrote Mrs. Pinkham for advice, and took Lydia E. Pinkham's Vegetable Compound, and it has saved my life and made me a well woman."

Mrs. Arthur R. House, of Church Road, Moorestown, N. J., writes: "I feel it is my duty to let people know what Lydia E. Pinkham's Vegetable Compound has done for me, and last March my physician decided that an operation was necessary. My husband objected, and urged me to try Lydia E. Pinkham's Vegetable Compound, and to-day I am all right and strong."

THE STORY OF ANIETTE.

CHAPTER V.—(Continued). "Come, it is time we were moving. See, the shadows are beginning to fall. The birds are singing; there is a heavy frost upon his face, and I can see he is not pleased that Mohun has repeated correctly part of the verses he has forgotten."

"We see a man of many sides in our friend Fitzgeorge today," he says sneeringly. "A regular Dr. Jekyll and Mr. Hyde; he seems capable of all falling into heights unobtainable to or of falling into depths unfathomable. I hope, Miss Tremaine, you will never see the other side of his life."

"I have always known that the two men did not agree, and Capt. Ryves has never lost an opportunity of giving me little hints and innuendoes about him in his tones now, nor the antagonistic look that accompanies them."

"Every side I have seen yet has been interesting; it is distinctly exciting to be always expecting a new sensation. To know just how everything from the commonplace."

"I am afraid it is impossible," he answers. "Nobody could save him. The dog is simply a mad dog, and he will stay in that madhouse until he is starved or shot. Don't look at the poor thing's struggles."

He Won His Bet. Thomas Nelson Page, while riding down a country road in one of the southern States, was met by a dog which was leading a horse, and laughing at an old "nigger" can.
