WEDDING BELLS. St. John's Ev. Lutheran church was the scene of a beautiful wedding last Saturday afternoon when Miss Edna Eisenbraut became the bride of August Held, Rev. Barth of Fillmore performing the ceremony.

Shortly after 3 o'clock the bridal party entered the church to the strains of a wedding march played by Miss Lily Eisenbraut. The bride was attired in a beautiful gown of French organza, wearing a veil and carrying white caryanthemum and maiden ferns.

She was attended by Miss Emma Held, as maid of honor, who wore a dress of pale blue and carried pink carnations, and Miss Mable Marshman, who wore a cream colored gown and carried carnations, acted as bridesmaid. The groom was attended by Franklin Richter of Milwaukee and by Charles Eisenbraut, a brother of the bride.

Little Eunice Eisenbraut of Sugar Bush, Wis., and Milbren Held of Milwaukee were flower girls and ring bearer respectively. After the ceremony the bridal party and invited guests to the number of nearly one hundred repaired to the home of the bride, where the event was celebrated in a manner befitting the occasion. The young couple were the recipients of many useful presents. The bride is the second oldest daughter of Moritz Eisenbraut and is held in high esteem by her many friends and acquaintances.

She has always proven herself to be a lady in the truest sense of the word. The groom is an honest and industrious young man, a mason by trade. His home is near the village of Batavia where he is well spoken of and highly esteemed by a large circle of friends. Mr. and Mrs. Held will reside in Batavia where they have taken rooms. That their future life may be a happy one is the wish of their many friends here.

OBITUARY. Following closely on the sound of merry wedding bells, we heard on Sunday the tolling of the church bell which announced the departure from this life of a beloved wife and mother, viz: Mrs. Wilhelmina Hiller who passed away on Friday afternoon at her home in Milwaukee, death being caused by cancer of the liver. Deceased was born in Milwaukee on August 6, 1864, and had therefore attained the age of 44 years, 2 months and 24 days. On May 5, 1885, she was united in marriage to Herman Hiller. Their union was blessed with three daughters, two of whom survive, namely, Daisy and Edna. Shortly after their marriage the couple went to live on a farm in the town of Barton, where they resided for several years, after which they moved onto the Balzhazard farm about one mile north of this village. Here they made their home until about two years ago, when they left for Milwaukee and have since resided there. Besides her husband and daughter, she is also survived by her aged mother, one sister, four step-sisters and one step-brother. On Monday afternoon the funeral services took place at the church here, Rev. Barth officiating. The remains were laid to rest in the Boltonville cemetery. We offer our sympathy to the bereaved relatives, particularly to the husband and daughters, who will miss the dear face in their family circle of her who was ever a devoted wife, a fond mother and a friend to all. Time alone can fill the aching void in the hearts of those made lonely by the grim hand of death. The funeral was largely attended by relatives and friends from far and near. Among those who attended were: Mrs. Kurtz and son of Cascade, Mrs. John Balzhazard of Milwaukee, Mrs. Semineau of Chicago, Ernst Witt and wife of Fredonia and several relatives from the neighboring towns.

NOTICE—The undersigned hereby forbid all hunting on their farms under penalty of the law.

First Year of Marriage. From a domestic management point of view the young wife's first year is her hardest, says a writer. She has so much to learn and unlearn. It takes time to discover which are the most trustworthy and economical storekeepers. Some shopkeepers take advantage of a bride's inexperience, others are kindly and give many helpful hints.

Steam to Heat Electric Cars. Provision is made for heating the electric trains of the New York Central by means of steam, which is generated in a small oil-fired boiler located in the engineer's cab. The boilers are short vertical shells, each containing 800 half-inch copper tubes, which are mounted on cast iron, brick-lined fireboxes. Ordinary commercial fuel oil is used, carried in a 40-gallon tank in the cab.

JOSEPH BRESE, 100 SIXTH STREET, MILWAUKEE, WIS.

Dr. Rea, Minneapolis, Minn. Dear Doctor: Your letter received, and I write to tell you that I will see you at the Pister Hotel in Milwaukee, at a quarter to five, during your next visit here. Dr. Rea has been educated in the best hospitals in Europe and America, and is perhaps one of the best diagnosticians in the country today. Dr. Rea does not attempt to publish all the testimonials, as many do not like to have their name in the paper. However, he publishes only those that are glad to let others know that there is such a man as Dr. Rea and that he is making so many wonderful cures.

Special to the Statesman: The many patients of Dr. Rea will be glad to know that he has arranged his next professional visit, and will visit the towns as stated here below. Nothing would disappoint us so much

As to have you disappointed. Nothing would please us so much as to have you mention to us the slightest cause for dissatisfaction.

Our aim is to have what we sell as near as possible to perfection. To have the price that we charge not a cent higher than it ought to be, and still not so low that quality must be sacrificed.

To have our treatment of customers courteous. And to do everything else that will tend to form a "I-will-come-again" resolve in the mind of every buyer.

We have been busy doing this for a long time now, and want you to participate in the benefits. J. P. SCHLAEFER Campbellsport, Wisconsin

THE ROYAL ACORN

The Reason Why

the Royal Acorn does as much with one ton of coal as the ordinary stove with two, is two-fold:

First—FINE FITTING—When you have seen the milled surfaces of the Ashpit Door and Damper, smooth as glass, you'll understand at once how perfect control is secured.

Second—ACORN FLUE SYSTEM—It puts the least possible amount of heat up the chimney—radiates it rapidly and spreads it to all parts of the room.

NEW DISTRICTS AND NEW RAILWAYS.

Western Canada Affords Better Conditions than Ever for Settlement.

To the Editor—Sir: Doubtless many of your readers will be pleased to have some word from the grain fields of Western Canada, where such a large number of Americans have made their home during the past few years.

It is pleasing to be able to report that generally the wheat yield has been good. It will average about twenty bushels to the acre.

The development throughout Western Canada during the next ten years will probably exceed that of any other country in the world's history.

The editor of the Monticello (Iowa) Express made a trip through Western Canada last August, and was greatly impressed. He says: "One cannot cross Western Canada to the mountains without being impressed with its immensity of territory and its future prospects."

It is interesting to note that the climate was too severe for it to be thought of as an agricultural country, but its wheat-raising possibilities are being actively tested.

Now the Americans are emigrating in greater numbers to Western Canada. Seventy-five per cent of the settlers in that good country located southeast of Montreal and Regina are Americans.

There are 413 species of trees found within the limits of the United States, the woods of sixteen of which, when seasoned are so heavy as to sink in water.
