STATE NEWS IN BRIEF.

NEENAH—Announcement has been made of the engagement of Hugh McGregor Strange, son of John Strange, lieutenant governor-elect, and living in this city, and Miss Carolyn Giffin of Chicago. The wedding will probably take place during the holidays. Miss Giffin is the daughter of the late Dr. Giffin, a former resident of Neenah.

FORT ATKINSON-The county board of

supervisors decided to erect a new building at the county asylum grounds at a cost not to exceed \$20,000. This action was made imperative by the refusal of the state board to send any additional patients to the asylum unless more room was provided.

DODGEVILLE—A strange sight met the gaze of those who attended the fire of the Dairy Package company. While the large building was burning a flock of about 100 wild geese was attracted by the bright light, and hovered about the burning structure for nearly an hour.

The board of supervisors has adopted a memorial But as he went onwards to the manor he would not acknowledge to himself how keenly he had been stung by her Diana returned to the house and drowned her longing for home in hard

Towards sunset she saw that her uncle's face was flushed, and his gaze preternaturally bright; and, keeping her glance from him, she said— "Don't you think we have worked long enough today, uncle?"
"No, I do not!" he snapped.

So he kept her at work another hourhe, meanwhile, gleaming, sorting, rear-ranging papers with feverish and unceasing energy "We must work six hours tomorrow Diana," he said. "Death mustn't cheat

me of my end now! There has never been a literary Crockett before, andha, ha!-we must break the record!" "Do you feel worse today, Uncle Nat?" "No, no!" he said testily. "We'll read that last chapter aloud after dinner. I

am fit as a cricket."

But as she was leaving him in his

NEW LISBON, Wis., Nov. 19.—Dr. O. W. Joslin, Dr. Dettmen and Percy Miller of Milwaukee, while hunting at Dunfield were lost in the forest Saturday afternoon and did not get back until Sunday night at 10 o'clock. The mill whistles were blown at Heineman, Grundy Junction, Gleason and Dunfield, hoping to give the lost ones the right direction. The only food they had was a porcupine which Dr. Joslin killed.

She mut away her papers and hold buzzing round because my tempera-

She put away her papers and prepared to obey him, and as she turned to the door he called her back.

RACINE—Burglars entered the office of the Racine Boat company and looted the safe. Two postal orders for less than \$5 and one check for \$12 were carried away.

RACINE—Johnnie Kolinski, 4 years old, son of Michael Kolinski, the wealthiest Polish saloon man in Racine, came near dying from eating headache tablets which he thought were candy.

LACROSSE—Judge Brindley has decided.

Her eyes widened questioningly, di-lated, and flashed. She went rapidly

from eating headache tablets which he thought were candy.

LA CROSSE—Judge Brindley has decided to admit to probate the will of Ouden Evenson, the West Salem retired farmer who died leaving bequests of \$17,000 to Norwegian Lutheran societies and colleges.

CHIPPEWA FALLS—Electricans wiring C. E. Preston's residence discovered a beest nest between the joists of the floor and celling. They investigated and secured about 100 pounds of honey.

LA CROSSE—Falling from his engine and being rolled under a coal dump, Charles Leaser, a Milwaukee road switchman, had one leg so badly crushed that it is feared amputation will be necessary.

MANITOWOC—Compulsory vaccination of public and parochial school children, as a condition to admission to the school, was ordered by the city health board as a precautionary measure against spread of smallpox.

LA CROSSE—Attorneys for Henry Bald—

Her eyes widened questioningly, dilated, and flashed. She went rapidly from the room.

"Oh, dear, dear Blakemoor!" she said, with her hand on her heart and a sob on her lips. "Oh, dear Gill! Oh, dearest father and mother! And I being slowly petrified under the chill cruelty of this cold house?"

But she knew she was flesh and blood as she flew swiftly up the avenue, doubting every shadow and distrusting the weriest twig, and drew a sigh of relief when the crooked larch flashed on her view.

The maid showed her into the consulting room; and, while she sat waiting, a familiar voice struck her hearing—light, but with new tones of weariness in it. LA CROSSE-Attorneys for Henry Bald-

gazing dazedly up the glade. Who—what were all these but with new tones of weariness in it. She could not fail to follow the conversation, for the servant had left the win, the saloon keeper whose license was revoked by the county, will appeal to the circuit court on the ground that the city fathers had no evidence which would war-

"There is a message from Combe Crockett waiting me now. If I am not detained there, I will. But have no Dr. Sanderson twisted the bandage

sensitive eye, to be written plainly on safe custody at once."

"Diana! Diana! Speak to me! Diana Done almost to death as he was by the heavy hand of Dick of Battiscombe, the stress of his feelings was so acute that he felt a hot tear on his cheek.

In the moonlight he bent and kissed

The commotion that reigned in Combe Crockett that night was something inde-

the news that I am coming."
He bustled away, leaving Diana lookfrom patient to patient helping and heal-And it was oftenest at the bedside of Diana, blessed with a vigorous consti-

tution, recovered from the faintness consequent on loss of blood—she had been shot in the arm—before dawn; Uncle Nat's pains were chronic; but Mcof them found a word to say to each other till the park gates were reached. staunch friend for years.

have kept at a distance from the mass. It was ridiculous and impertinent to call me Napoleon. Our whole acquaintance has been ridiculous and impertinent; has been ridiculous and impertinent; has been ridiculous and impertinent; did it mean? How had he suffered and an invalid husband who cries out if his finger hurts him. It is all dreadful!" "Abate your tears, madam, and leave that to me," said Dr. Sanderson. "Meanwhile it will be as well to let Miss Diana

rest quietly."
At this Aunt Jane retreated from the have felt so different without you. Now sofa where Diana had been laid, posthaste, and Sanderson went off to allay the wild complainings and questioning of Mr. Crockett.

It was nearly 3 o'clock before the gallant and long-suffering doctor was free to leave all this commotion and ingratitude behind and ride off to his bachelor quarters; and it was three weeks before he was able to turn his back on the inmates of this ancient mansion.

During his convalescence Uncle Nat exhibited very trying variations in his mood towards his great-niece.

Concerning the man struggling slowly back from the gates of death two rooms away, he maintained a rigid silence after the first blaze of passion with which he heard the news of his unbidden guest.

Thus for a time within the walls of

Combe Crockett there was a great up-heaval. Idle old retainers began to walk about as if they meant business; daily visits from the doctor introduced an element of the outer world inside the mossgrown walls; two nurses carried smiles "We haven't yet bearded all the lions. I shouldn't think of leaving you here."
"Oh please don't trouble further—it is was the sense of life and repressed ex-

gazing around, then wheeled about, his finger on the trigger of the gun he always carried, his face towards the shadows on the hill.

Diana's hand went instinctively to McClure's arm.

"See! He will fire—poor mad old Peters! And there are three to one!"
A shot rang through the misty stillness.

"Fool!" said McClure between his teeth, and Diana's hand fell from his arm as he sprang across the dappled slopes.

"Stay where you are!" he called to Diana.

But even at that very instant five shots burst out in rapid succession, and both McClure and Diana were within the deadly reage.

"It must be admitted by all people who know how to use cranberries that they are the most healthful fruit on earth. I have traveled a good deal in this country and very seldom have gotten a good dish of cranberry sauce or pie, and this is evidence enough that the majority of the American people do not know how we cranberries should be cooked. On my trip to Europe I took with me some of our best berries to show the people there what cranberries were. In the raw state this fruit was of no use to them, but after they were properly cooked and they had tasted the beautiful sauce, they showed their high appreciation of it, so I have come to the conclusion that when properly cooked earthing firm the sountered by all people who know how to use cranberries that they are the most healthful fruit on earth. I have traveled a good deal in this country and very seldom have gotten a good dish of cranberry sauce or pie, and this is evidence enough that the majority of the American people do not know how to use cranberries that they are the most healthful fruit on earth. FLAMES SWEEP LINEMAN WHEN MANHOLE BURSTS

POLICE DEPARTMENT EMPLOYE BADLY BURNED IN GAS EXPLO-ST IN SEWER.

BLAZE ENVELOPES THE BODY.

Five Companions Thrown to Ground by Terrific Force-Injured Man

In an explosion of sewer gas in a manhole at Island avenue and Walnut street this morning, Albert Blundell, aged 28, a lineman employed in the police department telegraph system, and residing at 103 Thirteenth street, was burned about the face and legs. Five other employes were thrown to the

ground by the shock of the explosion, but escaped serious injury. With a roar that could be heard for several blocks, and created a furore of excitement in the neighborhood, the cover from the manhole. Accompanying the terrific roar was a sheet of flame 15 feet in height. This swept Blundell from head to foot, but his clothing protected most of his body. Blundell was bending over the manhole when the tongue of flames shot upward and caught him almost full in the face.

The whole upper portion of his body

Companions Give Aid. When Blundell's companions recovered from the shock, they extinguished the blazing clothes of their companion and took immediate steps to give him medical attendance. Blundell was taken to the Emergency hospital, and later to his home. The physicians believe he will recover. The burns are exceedingly pain-

ful. The other men returned to work. Explosion Is Mystery. The gang of six was employed in inspecting the manholes, pending the approach of winter. In this work, it is necessary to examine each carefully, and prepare for the snow and spring thaw. How the explosion occurred is a mystery to the men. They believe sewer gas collected, and an electrical connection FOND DU LAC NEWS. formed a spark igniting it, or a spark may have been communicated to the gas just as Blundell lifted the manhole cover.

How the gas collected in the manhole, located on the top of a hill, also is un-Companions Save Workman. "Blundell stood immediately over the hole and opened the cover," said G. employed as telegraph lineman by the police department. "The moment he did so a flash of flame came through the opening, setting fire to Blundell's shirt, collar and tie, and burning and blistering last few weeks. port and crowds came running to the cene. Hugo Poth, another of our men, was only two feet away and jumped back quickly to escape the blast. He about 10 per cent. The total assessed and the rest of us ran to help Blundell and extinguished the blaze on his clothing. Then we telephoned for the ambulance and had him taken to the hos- \$187,479. of the happy homes of to-day is a vast fund of information as to the best methods cently made a tour of Western Canada, of promoting health and happiness and and having returned to their homes right living and knowledge of the world's they are now telling in their respective best products.

Products of actual excellence and reasonable claims truthfully presented and which have attained to world-wide acceptance through the approval of the to what has happened in the interval Well-Informed of the World; not of indi- the writer says: "Thousands of miles viduals only, but of the many who have the happy faculty of selecting and obtaining the best the world affords.

One of the products of that class, of known component parts, an Ethical remedy, approved by physicians and commended by the Well-Informed of the World as a valuable and wholesome family laxative is the well-known Syrup of Figs and Elixir of Senna. To get its beneficial effects always buy the genuine, manufactured by the California Fig Syrup Co., undeveloped. The summer outing," it only, and for sale by all leading druggists.

WESTERN CANADA THE PENNANT WINNER

The Government of Canada now gives to every ctual Settler 160 acres of whoat-growing and free and an additional 160 acres at \$3.00

an acre.

The 300,000 contented American Settlers' making their homes in Western Canada is the best evidence of the superiority of that country. They are becoming rich, growing from 25 to 50 bushels wheat to the acre; 60 to 110 bushels oats and 45 to 60 bushels barley, besides having splendid herds of cattle raised on the prairie grass. Dairying is an important industry.

The crop of 1908 still keeps Western Canada in the lead. The world will soon look to it as its lood-producer.

deponder.

"The thing which most impressed us was the magnitude of the country that is available for agricultural purposes."—National Editorial Correspondence, 1988.

A Modern Pearl Farm. In the Gulf of Lower California there is in operation the largest pearl farm in the world, where the cultivation of pearls has been taken up as a practical industry. To harvest the annual crop of pearls raised on this farm requires the labor of a thousand persons, including the modern pearl divers, whose methods have been completely revolutionized by the up-to-date appliances employed in this new industry. Pearl farming, as originated by the Mexican company which owns the big Lower California farm, is the result of the discovery of a very simple fact concerning pearl bearing mollusks. After twenty-live years of study and experiment it was discovered that the shell loses its gem after it is two years old, and unless opened at the proper time there will be no pearl within. Following this discovery the system whereby the shells In the Gulf of Lower California there covery the system whereby the shells are cultivated until the proper time and then opened was devised. time of planting the eggs to the harvest-ing of the crop two years must elapse, as that length of time is required for the growth of an ordinary shell.—Chi-

RENDERS LARD HERSELF.

Boston Woman Tells How She Makes Sure of Pure Product.

The exposure of stockyard methods, has made many housekeepers chary of the lard of commerce, and some have abandoned its use. Butter, however, is expensive and substitutes not always

Here is the fashion in which a Boston woman makes certain that her lard is the real thing, says the Detroit Free

Press. She says:

"I get the unrendered leaf and fry it out myself. I cut it into pieces, about two inches square; put them into a kettle with a tumberful of water and a little tle with a tumberful of water and a little salt, placing the pot over a very slow
fire. I leave it there for most of the
day, cooking steadily. There is no odor
whatever to permeate the house.

"When the grease is all cooked out I
pour the contents of the kettle through
strainer placed over a basin, from
which I pour the pure leaf lard into
pails. I put over the strainer a flour
sack ripped open, or a large salt sack.

iack ripped open, or a large salt sack, irst wetting it to keep the scraps out of "When all the grease is drained through the cloth I bring the four corners of it together and twist them hard, tate was not given. it the same time pressing on the scraps with a wooden potato masher. When I have squeezed out all that will come away there is left a mere handful of craps, to be thrown away or used as

cracklings' as one may desire.

"I use the pure leaf lard, sweet, white and flaky, in preference to butter, for lrying, also for shortening in everything except the very best of cakes, which I have never tried with lard as shortening."

-Since the unification of the Wesley protherhood and the Brotherhood of St. Paul in the Methodist church, which brought 1500 societies together, the membership, which was 150,000 at the lime of union, has taken a rapid stride forward.

UPWARD START

After Changing from Coffee to Postum.

Many a talented person is kept back because of the interference of coffee with the nourishment of the body. This is especially so with those whose nerves are very sensitive, as is often the case with talented persons. There is a simple, easy way to get rid of coffee evils and a Tenn. lady's experience along these lines is worth considering. She says:

"Almost from the beginning of the use of coffee it hurt my stomach. By the time I was fifteen I was almost a nervous wreck, nerves all unstrung, no strength to endure the most trivial thing, either work or fun.

"There was scarcely anything I could eat that would agree with me. The little I did eat seemed to give me more trouble than it was worth. I finally quit coffee and drank hot water, but there was so little food I could digest, I was literally starving; was so weak I could not sit up long at a time.

"It was then a friend brought me a hot cup of Postum. I drank part of it and after an hour I felt as though I had had something to eat-felt strengthened. That was about five

SOME REMARKS FROM MINNE-SOTA EDITORS.

What They Think of Canada. A party of editors from a number of cities and towns of Minnesota re-

newspapers of what they saw on their Canadian trip. The West St. Paul Times recalls the excursion of the Minnesota editors from Winnipeg to the Pacific Coast ten years ago. Referring of new railway lines have been built, and the development of the country has made marvelous strides. Millions of acres, then lying in their wild and untouched state, have since been transferred into grain fields. Towns have sprung up as if by the wand of a magician, and their development is now in full progress. It is a revelation, a record of conquest by settlement that

is remarkable.' The Hutchinson Leader characterizes Western Canada as "a great country says, "was an eye-opener to every member of the party, even those who were on the excursion through Western Canada ten years ago, over considerable of the territory covered this year, being amazed at the progress and advancement made in that short space of time. The time will come when Western Canada will be the bread-basket of the world. It was a delightful outing through a great country of wonderful

possibilities and resources." Since the visit of these editors the government has revised its land regulations and it is now possible to secure 160 acres of wheat land at \$3 an acre in addition to the 160 acres that may be homesteaded.

The crops of 1908 have been splendid, and reports from the various districts show good yields, which at present prices will give excellent profits to the farmers.

From Milestone, Saskatchewan, there are reported yields of thirty bushels of spring wheat to the acre, while the average is about twenty bushels. The quantity of grain to be shipped from this point will be about 600,000 bushels. Information regarding free lands and transportation will be freely given by the Canadian government agents.

Oranges and all fruits of the citrus family in Florida suffer extensive ravages from the "white fly." This insect first appeared in this country in Florida, many years ago, and is supposed to have been imported from China. It has now spread all through Florida and along the coast into Texas. California, fearing its approach, has made efforts to keep it out, but in May, 1907, it was found established at three points in the northern central parts of that state. The white fly not only directly damages the trees, but gives rise to a sooty mold which spreads over the leaves and discolors the fruit. The principal natural means of protection are four species of parasitic fungl, which, in favorable circumstances, give the affected groves one clean year in three. These fungl may be artificially disseminated, and fumigation is also employed to combat the enemy. No insect parasites of the white fly are known to the government entomologists.—Youth's Companion. ages from the "white fly." This insect

PASSING OF PRAIRIE CHICKENS.

Wise Bird That Knows Too Much to Make Nest in Harvest Fields.

If a jury of students of nature from the Kansas prairies is ever gathered together and the question put to them; "What is causing the disappearance of the prairie chicken?" they would not all

Very probably there would be a hung jury, and the unexpected verdict of that part of the jury refusing to lay the blame on the gunners would be: "The passing of wild prairie hay." A prairie chicken is a pretty wise bird. She will not lay eggs in tame hay. Somehow she knows that a mean looking machine with big cutting blades will soon come along and sweep the field of its mantle of green glory and expose her nest to the elements, robbers and other devastators. She shuns the tame grass but seeks the prairie hay. If a prairie hen, say men who claim to know, caunot find wild hay fields in which to build her nest she will go "dry."

But the pheasant is not so wise. This bird is being "pleasted" in Kansas by the

But the pheasant is not so wise. This bird is being "planted' in Kansas by the state game warden. It is an imported bird and does not yet know the "Kansas language." Strange to say, it is alfalfa that proves the pheasant's chief enemy. She will build her nest in the alfalfa fields and then later shriek like blazes because the mower has swept her nice shady home away. The frequent cutting of alfalfa does not even give the pheasof alfalfa does not even give the pheas-ant mother a chance to fix up one good "setting" and get them good and warm.— Kansas City Journal.

Log Far Underground. Wood 404 feet underground in a per-fect state of preservation was found at the Alabang stock farm last week while

strengthened. That was about five years ago and, after continuing Postum in place of coffee and gradually getting stronger, to-day I can eat and digest anything I want, walk as much as I want. My nerves are steady.

"I believe the first thing that did me any good and gave me an upward start, was Postum, and I use it altogether now instead of coffee." "There's a legal of coffee." "There's a

ROTHSCHILD, HIGH FINANCIER, DIES IN PRISON

FORMER NEW YORK BANKER STARTLED COUNTRY IN 1904 BY HIS OPERATIONS.

ENDS HIS LIFE IN SING SING.

He Was President of Federal Bank Whose Failure Caught Small Investors in Many States.

USED DEPOSITS FOR OWN USE.

NEW YORK, Nov. 18 .- News of the death in Sing Sing prison of David Rothschild, a former banker of this city, which was received here today, renewed interest in one of the most remarkable instances of "high finance" that ever oc

Rothschild was president of the Feder al bank, which institution was organized in 1902 and closed by the banking department in 1904, at which latter time Rothschild was charged with misappropriating \$200,000 of the bank's funds. At the time of the Federal bank failure, the Globe Security company, another of Rothschild's concerns, also failed. Hundreds of small investors in Michigan, Illinois, Lowa Indiana Obio and Missouri nois, Iowa, Indiana, Ohio and Missour bought bonds of the Globe, under prom ise of high rates of interest, and these lost practically all of their money.

Caught Small Merchants. The Federal bank did business wit small merchants and manufacturers of the east side of New York and its fail ure ruined many of them. A large per centage of loans made by the bank were without endorsers or security and Roth-schild was charged with applying the funds to his own use.

Convicted on One Charge. The specific charge on which Rothschild was convicted was discounting a note for \$10,000 for H. D. Nessler and transferring the proceeds to his own account. Rothschild was taken to prison June 1, 1904, and there was a year and a half of his term yet unserved when he

EMPEROR IS ISOLATED.

Kaiser's Promise to Bow to Will of Peo ple Is Not Yet Taken as Solution to Disturbance.

BERLIN, Nov. 18 .- The results of the presentations made to Emperor William vesterday by Chancellor Von Buelow and the consequent imperial pledge to keep both speeches and acts within close constitutional bounds are measured in colder mood by the people of Germany today. The Emperor is still much isolated from the sympathies of both the upper and lower levels of society. The talk among the friends of the chancellor and the ministers today is that they must wait and see how the Emperor acts when the next keenly in-teresting public question comes up. Doubt exists as to whether, at the age of 50, the Emporor's impulsive and can-did disposition can be so modified by the events of the past fortnight that he will depart from a practice he has followed during the twenty years of his reign. Prince Von Buelow and his party
