## EMPRESS NEAR DEATH.

St. Petersburg Hears of Alleged Attempt to Assassinate Dowager on Her Copenhagen Trip.

ST. PETERSBURG, Nov. 26.-Tele grams received in this city today give an account of the discovery of an alleged plot upon the life of the Dowager Empress of Russia during her recent journey from Copenhagen to this city. Shortly before the train on which her majesty passed Pondery three men were noticed acting suspiciously. They were approached by gen d' armes and opened fire with revolvers. Two got away, but one was arrested. This incident is the basis of sensational reports. The train traversed Pondery at full speed, and it is argued that even had it been their intention, the three men would have had no opportunity to harm the Empress. If the terrorists have designs on the life of her majesty they could find countless opportunities to attack her on the streets of St. Petersburg.

### FOR HUNGRY NEW YORK

NEW YORK, Nov. 26 .- One million turkeys, according to Thanksgiving statisticians will be eaten in Greater New York today. Thousands of baskets of food have been distributed among the poor, many of whom dined royally last night because it was found necessary to start early in order to meet all demands. Special services were held in all the churches today, and at Governor's island and the Brooklyn navy yard the soldiers and sailors enjoyed the usual spread of good things.

NEWPORT, R. That a city may, by force, resist the unauthorized construction of street railway tracks upon its streets, is held in Los Angeles R. Co. vs. Los Angeles (Cal.) 92 Pac. 490, 15 L.R.A (N.S.) 1269.

It was a wise young man who paused before he answered the widow who asked him to guess her age. "You must have some idea of it," she said, with what was intended for an arch sidewise glance. "I have several ideas," he admitted, with a smile. "The only trouble is that I hesitate whether to make you ten years younger on account of your looks or ten years older on account of your brains." Then, while the widow smiled and blushed, he took a graceful but speedy leave.—Illustrated Bits. It was a wise young man who paused

Paris Time at Sea. In a memoir recently submitted to the French Academy of Sciences Prof. Bouque de la Grye offered a very valthis suggestion there would have to be created universal signaling posts for transmitting by the aid of wireless telegraphy, the time corresponding to the meridians of the earth, to vessels sailing on the high sea. A daily signal given out at midnight from the Eiffel tower would thus transmit the time corresponding to the first meridian to vessels located on the Atlantic and Mediterranean. Captains would thus be kept posted exactly as to the point on which their vessel happened to be. This, however, would mean a material advance eliminating any danger, while dispensing with any laboridanger, while dispensing with any labori-ous time calculation.—Technical World.

Article He Long Needed. An Illinois commercial traveler who Asks Return of \$12,047.29.

MADISON, Wis., Nov. 25.—[Special.]

—The Western Union Telegraph company today started suit in the Dane county circuit court against the state of Wisconsin to recover \$12,047.29 alleged to have been unjustly collected as taxes, the claim being that the tax was excessive. The suit was filed by a Milwaukee law firm, that of Miller, Mack & Fairchild.

The company sets forth that the state board of assessment made a preliminary last found poor conveniences for business in many hotels, has invented a portable writing desk and has made an application for a patent. Closed, the desk is about the size and shape of a dress suit case, which it closely resembles. Open, it is a substantial desk, equipped with drawers and pigeonholes after the most approved fashlon of a big roil top. Metal legs of the lazy tong principle unfold to form a support, and a supporting rod holds what might be termed the lid in the position of a writing table. To the whole may be carried. THE VANDERBILT WEALTH. Commodore Was Seventy Before He

Made His Great Fortune. The Vanderbilt fortune, once the greatest financial power in the United States, probably amounts, at the present moment, to not far from \$300,000,000. Of this, William Kissam Vanderbilt, who controls the majority of the family properties, holds in the neighborhood of \$100,000,000, while twelve or fifteen de- ponent parts are known to them to be scendants of the commodore share among themselves the remaining \$200,000,000.

Perhaps the most remarkable fact in the whole remarkable career of Commodore Cornelius Vanderbilt is that he did his really important work and heaped up his enormous fortune after he was 70 years old. He was born in 1794, and almost all his energies, until the outbreak of the Civil war, had been absorbed in the management of his numerous steamboat and steamship lines.
